

Visual Studio 2026 Image Library

Use instructions

Images that have KnownMonikers are consumable by any Visual Studio component or extension via the [Visual Studio Image Service](#). The same usage restrictions apply to all variations of a given image. As part of a visual language, the following images (or any part of the images) must be used in a manner consistent with the image name or concept description indicated below.

Read the [Visual Studio Image Library EULA](#).

Image	KnownMoniker	Description
	ASMFile	Document icon representing ASM file
	ASPFile	Web icon representing an ASP file
	ASPGenericHandlerFile	Web icon representing an ASP generic handler file
	ASPRazorFile	Web icon representing an ASP razor file
	ASPWebApplication	ASP web application
	ASPWebSite	ASP web site
	ASerif	Character icon representing a serif
	ATL	Project icon representing ATL
	ATLASPComponent	Project icon representing ATL ASP component
	ATLApplication	Window icon representing ATL application
	ATLComponentWizard	Project icon representing ATL component wizard
	ATLControl	Project icon representing ATL control
	ATLDialog	Project icon representing ATL dialog
	ATLEvent	Project icon representing ATL event

Image	KnownMoniker	Description
	ATLFile	Document icon representing ATL file
	ATLObject	Project icon representing ATL object
	ATLProperty	Project icon representing ATL property
	ATLServer	Project icon representing ATL server
	ATLWebService	Project icon representing ATL web service
	Abbreviation	Character icon representing abbreviation
	AboutBox	UI icon representing about box
	AbsolutePosition	Design icon representing absolute position
	AbstractAssociation	Flow icon representing abstract association
	AbstractClass	Class definition or type in code structure
	AbstractCube	Shape icon representing abstract cube
	Accelerator	Flow icon representing accelerator
	AcceptEventAction	Flow icon representing accept event action
	Access	Microsoft Access database application
	Accessibility	Accessibility features or compliance
	Accordion	UI icon representing accordion
	Account	Document icon representing account
	AccountAttribute	Account attribute or property
	AccountGroup	Document icon representing account group

Image	KnownMoniker	Description
	Action	Code icon representing action
	ActionLog	Log of actions or events
	ActionTool	Flow icon representing action tool
	ActivateWorkflow	Flow icon representing activate workflow
	ActiveDocumentHost	Document file
	ActiveEnvironment	Device icon representing active environment
	ActiveFluidLayout	Object icon representing active fluid layout
	ActiveServerApplication	Window icon representing active server application
	ActiveX	Project icon representing ActiveX
	ActiveXControl	Project icon representing ActiveX control
	Activity	Activity or action in workflow
	ActivityDiagram	Data icon representing activity diagram
	ActivityFinalNode	Flow icon representing activity final node
	ActivityMonitor	Computer monitor or display
	ActivityParameterNode	Flow icon representing activity parameter node
	Actor	Actor in use case or UML diagram
	AdRotator	Design icon representing ad rotator
	Add	Add new
	AddAgent	Add new agent

Image	KnownMoniker	Description
	AddApplicationInsights	Add new application insights
	AddAssociation	Add new association
	AddAttachment	Add new attachment
	AddAttribute	Add new attribute
	AddBehavior	Add new behavior
	AddBottomFrame	Add new bottom frame
	AddBuildToQueue	Add new build to queue
	AddButton	Button to add new item
	AddCellToLeft	Add new cell to left
	AddCellToRight	Add new cell to right
	AddChildNode	Add new child node
	AddClass	Add new class
	AddClause	Add new clause
	AddColumn	Add new column
	AddColumns	Add new columns
	AddColumnsToLeft	Add new columns to left
	AddColumnsToRight	Add new columns to right
	AddComment	Add new comment
	AddComponent	Add new component

Image	KnownMoniker	Description
	AddComputedField	Add new computed field
	AddConditionalLoop	Add new conditional loop
	AddConditionalRule	Add new conditional rule
	AddConnectedServices	Add new connected services
	AddConnection	Add new connection
	AddControl	Add new control
	AddCustomControl	Add new custom control
	AddDataItem	Add new data item
	AddDataSource	Add new data source
	AddDatabase	Add new database
	AddDelegation	Add delegation relationship
	AddDictionary	Add new dictionary
	AddDictionaryItem	Add item to dictionary
	AddDimension	Add new dimension
	AddDocument	Add new document
	AddDocumentGroup	Add new document group
	AddEntity	Add new entity
	AddEvent	Add new event
	AddEventTracepoint	Add new event tracepoint

Image	KnownMoniker	Description
	AddFavorite	Add new favorite
	AddField	Add new field
	AddFolder	Add new folder
	AddForm	Add new form
	AddFriend	Add friend or contact
	AddGroup	Add new group
	AddHTMLPage	Add new HTML page
	AddImage	Add new image
	AddIn	Add new in
	AddIndexer	Add new indexer
	AddInheritance	Add inheritance relationship
	AddInheritedControl	Add new inherited control
	AddInheritedForm	Add new inherited form
	AddInterface	Add new interface
	AddItem	Add new item
	AddKeyframe	Add new keyframe
	AddLayoutItem	Add new layout item
	AddLeftFrame	Add new left frame
	AddLink	Add new link

Image	KnownMoniker	Description
	AddLiveDataSource	Add new live data source
	AddLocalServer	Add new local server
	AddManifest	Add new manifest
	AddMember	Add new member
	AddMemberFormula	Add new member formula
	AddMethod	Add new method
	AddModule	Add new module
	AddNamespace	Add new namespace
	AddNestedTable	Add new nested table
	AddNoColor	Add icon in neutral or monochrome style
	AddOnlineVersion	Add new online version
	AddOrRemoveColumns	Add new or remove columns
	AddPageGuides	Add new page guides
	AddParameter	Add new parameter
	AddParentNode	Add new parent node
	AddPhone	Add new phone
	AddProperty	Add new property
	AddQuery	Add new query
	AddReference	Add new reference

Image	KnownMoniker	Description
	AddRelationship	Add new relationship
	AddRemoteServer	Add new remote server
	AddRightFrame	Add new right frame
	AddRow	Add new row
	AddRulerHorizontal	Add new ruler horizontal
	AddRulerVertical	Add new ruler vertical
	AddScreen	Add new screen
	AddSnippet	Add new snippet
	AddState	Add new state
	AddStateGroup	Add new state group
	AddStyleRule	Add new style rule
	AddTVMonitor	Add new TV monitor
	AddTable	Add new table
	AddTablet	Add new tablet
	AddTeamProject	Add new team project
	AddTest	Add new test
	AddTestGroup	Add new test group
	AddTextFile	Add new text file
	AddThread	Add new thread

Image	KnownMoniker	Description
	AddToCollection	Add new to collection
	AddToDependencyGraph	Add new to dependency graph
	AddToDependencyGraphAncestor	Add new to dependency graph ancestor
	AddToRowAbove	Add new to row above
	AddToRowBelow	Add new to row below
	AddToSolutionExplorer	Add new to solution explorer
	AddTopFrame	Add new top frame
	AddTransition	Add new transition
	AddUser	Add new user
	AddVariable	Add new variable
	AddWebForm	Add new web form
	AddWebService	Add new web service
	AddWebUserControl	Add new web user control
	AddressEditor	Add new res editor
	AdvancedBreakpointDisabled	Debugger breakpoint
	AdvancedBreakpointEnabled	Debugger breakpoint
	AdvancedProductionBreakpointAlert	Debugger breakpoint
	AdvancedProductionBreakpointOK	Debugger breakpoint
	AdvancedProductionBreakpointOff	Debugger breakpoint

Image	KnownMoniker	Description
	AdvancedProductionBreakpointOn	Debugger breakpoint
	AdvancedProductionTracepointAlert	Trace or diagnostic logging
	AdvancedProductionTracepointOff	Trace or diagnostic logging
	AdvancedProductionTracepointOn	Trace or diagnostic logging
	AdvancedTracePointEnabled	Trace or diagnostic logging
	AdvancedTracePointEnabled	Trace or diagnostic logging
	AdvancedView	Shape icon representing advanced view
	Aggregate	Code icon representing aggregate
	AggregateAdvancedView	Code icon representing aggregate advanced view
	AggregateCopy	Code icon representing aggregate copy
	AggregateDesign	Code icon representing aggregate design
	AggregateDesignUndefined	Code icon representing aggregate design undefined
	AggregateError	Error indicator for aggregate
	AggregateWarning	Warning indicator for aggregate
	Airbrush	Design icon representing airbrush
	AlignBoth	Design icon representing align both
	AlignBottom	Design icon representing align bottom
	AlignCenter	Design icon representing align center
	AlignHorizontalStretch	Design icon representing align horizontal stretch

Image	KnownMoniker	Description
	AlignLeft	Design icon representing align left
	AlignMiddle	Design icon representing align middle
	AlignRight	Design icon representing align right
	AlignToGrid	Design icon representing align to grid
	AlignTop	Design icon representing align top
	AlignVerticalStretch	Design icon representing align vertical stretch
	All	All items or select all
	AllFieldsInDatabase	Device icon representing all fields in database
	AllLoadedTests	Object icon representing all loaded tests
	AlphaChannel	Character icon representing alpha channel
	AlphaTest	Object icon representing alpha test
	AlwaysVisible	Command icon representing always visible
	Analysis	Flow icon representing analysis
	AnalysisServerConnection	Shape icon representing analysis server connection
	AnalyzeSparkle	AI analysis of data or code; surfaces insights, trends, and diagnostics
	AnalyzeTrace	Device icon representing analyze trace
	Android	Android mobile platform
	Animation	Diagnostic icon representing animation
	AnimationError	Error indicator for animation

Image	KnownMoniker	Description
	AnomalyDetection	Data icon representing anomaly detection
	AppearanceEditor	Design icon representing appearance editor
	AppearanceGrid	Design icon representing appearance grid
	AppearanceGuide	Design icon representing appearance guide
	AppearanceNone	Design icon representing appearance none
	AppearanceSolid	Design icon representing appearance solid
	ApperanceAuto	Design icon representing apperance auto
	Application	Window icon representing application
	ApplicationAccess	Window icon representing application access
	ApplicationBar	UI icon representing application bar
	ApplicationBarCommand	UI icon representing application bar command
	ApplicationBarMenu	Menu or menu item
	ApplicationClass	Window icon representing application class
	ApplicationConnectionDiagram	Window icon representing application connection diagram
	ApplicationEnvironment	Window icon representing application environment
	ApplicationError	Error indicator for application
	ApplicationFlyout	Window icon representing application flyout
	ApplicationGroup	Window icon representing application group
	ApplicationInsights	Application Insights monitoring

Image	KnownMoniker	Description
	ApplicationOnlySequence	Object icon representing application only sequence
	ApplicationPrivate	Private application
	ApplicationRole	Window icon representing application role
	ApplicationRoleError	Error indicator for application role
	ApplicationRoleWarning	Warning indicator for application role
	ApplicationRoot	Device icon representing application root
	ApplicationWarning	Warning indicator for application
	ApplyCodeChanges	Code icon representing apply code changes
	ApplyStyle	Document icon representing apply style
	ArcPie	Shape icon representing arc pie
	ArcRing	Shape icon representing arc ring
	ArcSegment	Design icon representing arc segment
	ArchitectureExplorer	Window icon representing architecture explorer
	AreaChart	Data icon representing area chart
	ArrangeSelection	Window icon representing arrange selection
	ArrangeShapes	Design icon representing arrange shapes
	ArrowDownEnd	Arrow pointing down to the end position
	ArrowUpEnd	Arrow pointing up to the end position
	ArtboardSplit	Design icon representing artboard split

Image	KnownMoniker	Description
	AspireApplication	Aspire application project
	Assembly	Object icon representing assembly
	AssemblyError	Error indicator for assembly
	AssemblyExcluded	Object icon representing assembly excluded
	AssemblyInfoFile	Document icon representing assembly info file
	AssemblyWarning	Warning indicator for assembly
	Assign	Character icon representing assign
	AssignBuild	Flow icon representing assign build
	AssignTesterToTest	Object icon representing assign tester to test
	AssignedPart	Object icon representing assigned part
	Association	Flow icon representing association
	AssociationEditor	Flow icon representing association editor
	AssociationGroup	Flow icon representing association group
	AssociationLine	Line indicating association or relationship between elements
	AssociationRelationship	Object icon representing association relationship
	Asterisk	Character icon representing asterisk
	AsymmetricKey	Object icon representing asymmetric key
	AsymmetricKeyError	Error indicator for asymmetric key
	AsymmetricKeyWarning	Warning indicator for asymmetric key

Image	KnownMoniker	Description
	AsynchronousMessage	Utility icon representing asynchronous message
	Attach	Command icon representing attach
	AttachDocument	Document file
	AttachDynamicTemplate	Window icon representing attach dynamic template
	AttachStyleSheet	Document icon representing attach style sheet
	Attribute	Character icon representing attribute
	AttributeKeyDisabled	Disabled attribute key
	AttributeRelationshipEditor	Data icon representing attribute relationship editor
	AudioMute	Device icon representing audio mute
	AudioPlayback	Device icon representing audio playback
	AudioRecording	Device icon representing audio recording
	AutoArrangeShapes	Design icon representing auto arrange shapes
	AutoComplete	UI icon representing auto complete
	AutoFilter	Command icon representing auto filter
	AutoFormatTable	Database table or data table
	AutoMergeAll	Code icon representing auto merge all
	AutoScrollToCurrentFrame	Data icon representing auto scroll to current frame
	AutoSizeColumn	Database column or data column
	AutoSizeFixedWidth	Design icon representing auto size fixed width

Image	KnownMoniker	Description
	AutoSizeOptimize	Design icon representing auto size optimize
	AutoSizeStretch	Design icon representing auto size stretch
	AutoSum	Character icon representing auto sum
	AutoTest	Object icon representing auto test
	AutoThumbnail	Object icon representing auto thumbnail
	AutosWindow	Document icon representing autos window
	AvatarAsteriskOff	Utility icon representing avatar asterisk off
	AvatarAsteriskOn	Utility icon representing avatar asterisk on
	AvatarDiamondOff	Utility icon representing avatar diamond off
	AvatarDiamondOn	Utility icon representing avatar diamond on
	AvatarFourDotsOff	Utility icon representing avatar four dots off
	AvatarFourDotsOn	Utility icon representing avatar four dots on
	AvatarHeartOff	Utility icon representing avatar heart off
	AvatarHeartOn	Utility icon representing avatar heart on
	AvatarInfinityOff	Utility icon representing avatar infinity off
	AvatarInfinityOn	Utility icon representing avatar infinity on
	AvatarOneDotOff	Utility icon representing avatar one dot off
	AvatarOneDotOn	Utility icon representing avatar one dot on
	AvatarOneWaveOff	Utility icon representing avatar one wave off

Image	KnownMoniker	Description
	AvatarOneWaveOn	Utility icon representing avatar one wave on
	AvatarThreeDotsOff	Utility icon representing avatar three dots off
	AvatarThreeDotsOn	Utility icon representing avatar three dots on
	AvatarTwoChevronsOff	Utility icon representing avatar two chevrons off
	AvatarTwoChevronsOn	Utility icon representing avatar two chevrons on
	AvatarTwoDotsOff	Utility icon representing avatar two dots off
	AvatarTwoDotsOn	Utility icon representing avatar two dots on
	AvatarTwoWaveOff	Utility icon representing avatar two wave off
	AvatarTwoWaveOn	Utility icon representing avatar two wave on
	AvatarXOff	Utility icon representing avatar x off
	AvatarXOn	Utility icon representing avatar x on
	Axis	Data icon representing axis
	AxisX	Data icon representing axis x
	AxisY	Data icon representing axis y
	Azure	Microsoft Azure cloud platform
	AzureAPIManagementServices	Azure API Management services
	AzureActiveDirectory	Azure Active Directory identity service
	AzureApiApp	Azure API app service
	AzureAppConfiguration	Azure App Configuration service

Image	KnownMoniker	Description
	AzureAppService	Azure App Service
	AzureAzurite	Azurite local Azure Storage emulator
	AzureBehaviorsSDK	Azure Behaviors SDK
	AzureContainerApp	Azure Container Apps
	AzureContainerAppEnvironment	Azure Container Apps environment
	AzureContainerRegistry	Azure Container Registry
	AzureContainerServices	Azure container services
	AzureCopyService	Azure copy service for data transfer
	AzureCosmosDB	Azure Cosmos DB globally distributed database
	AzureCosmosDBEmulator	Azure CosmosDB local emulator
	AzureDataLakeStorage	Azure Data Lake Storage
	AzureDevOps	Azure DevOps platform
	AzureDisks	Azure managed disks
	AzureEventGridSubscription	Azure Event Grid subscription
	AzureFunctions	Azure Functions serverless compute
	AzureFunctionsApp	Azure Functions application
	AzureKayVault	Azure Key Vault service (alternate spelling)
	AzureKubernetesService	Azure Kubernetes Service (AKS)
	AzureLogAnalyticsWorkspaces	Azure Log Analytics workspaces

Image	KnownMoniker	Description
	AzureMachineLearningWorkspace	Azure Machine Learning workspace
	AzureManagementServices	Azure management services
	AzureMobileApp	Azure mobile app service
	AzureOffline	Azure service in offline state
	AzureRedisCache	Azure Redis Cache service
	AzureRedisCacheEmulator	Azure Redis Cache local emulator
	AzureResourceGroup	Azure resource group container
	AzureServiceBus	Azure Service Bus messaging
	AzureServiceConnector	Azure service connector
	AzureServiceFabric	Azure Service Fabric microservices platform
	AzureSignalR	Azure SignalR Service
	AzureSpringCloudApp	Azure Spring Cloud application
	AzureSpringCloudService	Azure Spring Cloud service
	AzureSqlDatabase	Azure SQL Database service
	AzureStack	Azure Stack hybrid cloud platform
	AzureStaticApps	Azure Static Web Apps
	AzureStorageAccount	Azure Storage account
	AzureStorageEmulator	Azure Storage local emulator
	AzureSubscriptionKey	Azure subscription key

Image	KnownMoniker	Description
	AzureVMScaleSet	Azure virtual machine scale set
	AzureVirtualMachine	Azure virtual machine
	AzureWarning	Warning related to Azure service
	AzureWebJobs	Azure WebJobs background tasks
	AzureWebsites	Azure websites and web apps
	BDCModelResource	Device icon representing BDC model resource
	BDCModelTemplate	Device icon representing BDC model template
	BI	Shape icon representing BI
	BIOS	Memory icon representing BIOS
	BackgroundColor	Design icon representing background color
	BackgroundWorker	UI icon representing background worker
	Backlog	Flow icon representing backlog
	Backslash	Character icon representing backslash
	Backwards	Navigate or move backwards
	BalanceBrace	Flow icon representing balance brace
	BarChart	Data icon representing bar chart
	BatchCheckIn	Code icon representing batch check in
	Battery	Object icon representing battery
	Behavior	Window icon representing behavior

Image	KnownMoniker	Description
	BehaviorEditor	UI icon representing behavior editor
	BevelJoint	Design icon representing bevel joint
	Bidirectional	Bidirectional relationship or flow
	Binary	Character icon representing binary
	BinaryFile	Document icon representing binary file
	BinaryRegistryValue	Character icon representing binary registry value
	Binding	Window icon representing binding
	BindingNavigator	Device icon representing binding navigator
	BindingSource	Device icon representing binding source
	Bing	Metaphor: Brand, Bing
	BlankApplication	Window icon representing blank application
	BlankFile	File or document
	BlankPhone	Phone or mobile device
	BlankWebSite	Web application or service
	Blazor	Blazor web framework
	BlendPhone	Blend for Windows Phone
	BlendPhonePanorama	Blend phone panorama control
	BlendPhonePivot	Blend phone pivot control
	BlendSilverlight	Blend for Silverlight

Image	KnownMoniker	Description
	BlendSketchflow	Blend Sketchflow prototyping
	BlendSplashScreenBackground	Blend splash screen background
	BlockError	Error indicator for block
	BlockSelection	UI icon representing block selection
	BlueChannel	Design icon representing blue channel
	Bold	Character icon representing bold
	Bookmark	Utility icon representing bookmark
	BookmarkDisabled	Disabled bookmark
	BookmarkGroup	Utility icon representing bookmark group
	BookmarkGroupDisabled	Disabled bookmark group
	BookmarkMainMenuitem	Utility icon representing bookmark main menu item
	BooleanData	Flow icon representing boolean data
	BorderElement	Design icon representing border element
	Borders	Design icon representing borders
	BottomBorder	Design icon representing bottom border
	BottomLeftOfTwoColumnsLeftSplit	Design icon representing bottom left of two columns left split
	BottomLeftOfTwoRowsBottomSplit	Design icon representing bottom left of two rows bottom split
	BottomLeftOfTwoRowsTwoColumns	Design icon representing bottom left of two rows two columns
	BottomRightOfTwoColumnsRightSplit	Design icon representing bottom right of two columns right split

Image	KnownMoniker	Description
	BottomRightOfTwoRowsBottomSplit	Design icon representing bottom right of two rows bottom split
	BottomRightOfTwoRowsTwoColumns	Design icon representing bottom right of two rows two columns
	BottomRowOfTwoRowsTopSplit	Design icon representing bottom row of two rows top split
	BoundBreakpoint	Debugger breakpoint
	BoundCheckBoxFieldColumn	Device icon representing bound check box field column
	BoundImageColumn	Database column or data column
	Bower	Bower package manager
	Box	Shape icon representing box
	BoxPlotChart	Data icon representing box plot chart
	Branch	Code icon representing branch
	BranchChild	Code icon representing branch child
	BranchCompare	Code icon representing branch compare
	BranchContainsChanges	Code icon representing branch contains changes
	BranchCousin	Code icon representing branch cousin
	BranchFork	Code icon representing branch fork
	BranchGroup	Code icon representing branch group
	BranchNoColor	Branch icon in neutral or monochrome style
	BranchParent	Code icon representing branch parent
	BranchPermissions	Code icon representing branch permissions

Image	KnownMoniker	Description
	BranchRelationship	Code icon representing branch relationship
	BranchRemote	Code icon representing branch remote
	BranchSibling	Code icon representing branch sibling
	BranchUploaded	Code icon representing branch uploaded
	BreakpointAvailable	Debugger breakpoint
	BreakpointDependent	Debugger breakpoint
	BreakpointDependentDisabled	Debugger breakpoint
	BreakpointDependentError	Error indicator for breakpoint dependent
	BreakpointDependentWarning	Warning indicator for breakpoint dependent
	BreakpointDisabled	Debugger breakpoint
	BreakpointEnabled	Debugger breakpoint
	BreakpointError	Error indicator for breakpoint
	BreakpointTemporary	Debugger breakpoint
	BreakpointTemporaryAvailable	Debugger breakpoint
	BreakpointTemporaryDisabled	Debugger breakpoint
	BreakpointTemporaryError	Error indicator for breakpoint temporary
	BreakpointTemporaryWarning	Warning indicator for breakpoint temporary
	BreakpointWarning	Warning indicator for breakpoint
	BreakpointXHROff	Debugger breakpoint

Image	KnownMoniker	Description
	BreakpointXHROn	Debugger breakpoint
	BreakpointXHRWarning	Warning indicator for breakpoint XHR
	BreakpointsWindow	Debugger breakpoint
	Brightness	Design icon representing brightness
	BringForward	Design icon representing bring forward
	BringToFront	Design icon representing bring to front
	BrokerPriority	Document icon representing broker priority
	BrowseData	Shape icon representing browse data
	BrowseDefinition	Object icon representing browse definition
	BrowseNext	Object icon representing browse next
	BrowsePrevious	Object icon representing browse previous
	BrowserLink	Web icon representing browser link
	BrowserSDK	Window icon representing browser SDK
	Brush	Design icon representing brush
	BrushXFormArrow	Brush transformation arrow for graphics operations
	BubbleChart	Data icon representing bubble chart
	Bug	Document icon representing bug
	BuildCollection	Document icon representing build collection
	BuildDefinition	Object icon representing build definition

Image	KnownMoniker	Description
	BuildDynamicValueGroup	Object icon representing build dynamic value group
	BuildErrorList	Document icon representing build error list
	BuildMatchAllFilter	Command icon representing build match all filter
	BuildQueue	Flow icon representing build queue
	BuildSelection	Object icon representing build selection
	BuildSolution	Object icon representing build solution
	BuildStyle	Build style or configuration
	BulletList	List icon representing bullet list
	BulletListSparkle	Summarization assistance producing bullet lists; converts long text into concise points
	BulletPanel	UI panel or container
	BusinessObjectDataSource	Web icon representing business object data source
	ButterflyGraphMode	Data icon representing butterfly graph mode
	Button	Button UI control
	ButtonClick	Button click interaction or event
	ButtonGroup	UI icon representing button group
	ButtonIcon	UI icon representing button icon
	CABProject	Window icon representing CAB project
	CCTProject	Document icon representing CCT project
	CD	Memory icon representing c d

Image	KnownMoniker	Description
	CDDrive	Memory icon representing CD drive
	CFile	Project icon representing C file
	CMakeTargets	CMake build targets
	COM	Object icon representing COM
	COMContractFile	Document icon representing COM contract file
	COMError	Error indicator for COM
	COMPrivate	Private COM
	COMWarning	Warning indicator for COM
	CPPATLASPComponent	Project icon representing C++ ATL ASP component
	CPPATLApplication	Project icon representing C++ ATL application
	CPPATLControl	Project icon representing C++ ATL control
	CPPATLDatabase	Project icon representing C++ ATL database
	CPPATLDialog	Project icon representing C++ ATL dialog
	CPPATLDynamicLibrary	Project icon representing C++ ATL dynamic library
	CPPATLEvent	Project icon representing C++ ATL event
	CPPATLFile	Project icon representing C++ ATL file
	CPPATLObject	Project icon representing C++ ATL object
	CPPATLProperty	Project icon representing C++ ATL property
	CPPATLServer	Project icon representing C++ ATL server

Image	KnownMoniker	Description
	CPPATLWebService	Project icon representing C++ ATL web service
	CPPAddATLSupportToMFC	Project icon representing C++ add ATL support to MFC
	CPPApplication	Project icon representing C++ application
	CPPBlankApplication	Project icon representing C++ blank application
	CPPBlankPhone	Project icon representing C++ blank phone
	CPPClassLibrary	Project icon representing C++ class library
	CPPConsole	Project icon representing C++ console
	CPPCustomWizardProject	Project file or project type
	CPPDirectXThreeDApplication	Project icon representing C++ DirectX 3D application
	CPPDirectXTwoDApplication	Project icon representing C++ DirectX 2D application
	CPPFile	Project icon representing C++ file
	CPPFileNode	Project icon representing C++ file node
	CPPFixedLayoutApplication	Project icon representing C++ fixed layout application
	CPPGridApplication	Project icon representing C++ grid application
	CPPHeaderFile	Project icon representing C++ header file
	CPPHubApplication	Project icon representing C++ hub application
	CPPMFCActiveX	Project icon representing C++ MFC active x
	CPPMFCApplication	Project icon representing C++ MFC application
	CPPMFCClass	Project icon representing C++ MFC class

Image	KnownMoniker	Description
	CPPMFCDatabase	Project icon representing C++ MFC database
	CPPMFCDynamicLibrary	Project icon representing C++ MFC dynamic library
	CPPMFCLibrary	Project icon representing C++ MFC library
	CPPMakeFileApplication	Project icon representing C++ make file application
	CPPMarkupXML	Project icon representing C++ markup XML
	CPPMinimalRebuildDependencyFile	Project icon representing C++ minimal rebuild dependency file
	CPPNavigationApplication	Project icon representing C++ navigation application
	CPPPhone	Project icon representing C++ phone
	CPPPhoneHub	Project icon representing C++ phone hub
	CPPPhonePivot	Project icon representing C++ phone pivot
	CPPPhoneTest	Project icon representing C++ phone test
	CPPPhoneWebSite	Project icon representing C++ phone web site
	CPPProjectFilterFile	Project file or project type
	CPPProjectNode	Project file or project type
	CPPSQLDatabase	Project icon representing C++ SQL database
	CPPSharedProject	Project file or project type
	CPPSourceFile	Project icon representing C++ source file
	CPPSplitApplication	Project icon representing C++ split application
	CPPStoredProcedure	Project icon representing C++ stored procedure

Image	KnownMoniker	Description
	CPPTablet	Project icon representing C++ tablet
	CPPTest	Project icon representing C++ test
	CPPTestApplication	Project icon representing C++ test application
	CPPTestLibrary	Project icon representing C++ test library
	CPPWebService	Project icon representing C++ web service
	CPPWin32Application	Project icon representing C++ win32 application
	CPPWindowsFormsApplication	Project icon representing C++ windows forms application
	CPPWindowsService	Project icon representing C++ windows service
	CSApplication	Project icon representing C# application
	CSAssemblyInfoFile	Project icon representing C# assembly info file
	CSBDCModel	Project icon representing CSBDC model
	CSBlankApplication	Project icon representing C# blank application
	CSBlankFile	Project icon representing C# blank file
	CSBlankPhone	Project icon representing C# blank phone
	CSBlankWebSite	Project icon representing C# blank web site
	CSClassCollection	Project icon representing C# class collection
	CSClassFile	Project icon representing C# class file
	CSClassLibrary	Project icon representing C# class library
	CSCloudBusinessApplication	Project icon representing C# cloud business application

Image	KnownMoniker	Description
	CSCodeTest	Project icon representing C# code test
	CSColumn	Project icon representing C# column
	CSConsole	Project icon representing C# console
	CSConsoleTest	Project icon representing C# console test
	CSContentType	Project icon representing C# content type
	CSDeploymentModule	Project icon representing C# deployment module
	CSDeviceTest	Project icon representing C# device test
	CSDynamicWebSite	Project icon representing C# dynamic web site
	CSEventReceiver	Project icon representing C# event receiver
	CSExtension	Project icon representing C# extension
	CSFile	Project icon representing C# file
	CSFileNode	Project icon representing C# file node
	CSFixedLayoutApplication	Project icon representing C# fixed layout application
	CSGridApplication	Project icon representing C# grid application
	CSHubApplication	Project icon representing C# hub application
	CSInteractiveWindow	Project icon representing C# interactive window
	CSInterface	Project icon representing C# interface
	CSInterfaceCollection	Project icon representing C# interface collection
	CSLibrary	Project icon representing C# library

Image	KnownMoniker	Description
	CSLightswitch	Project icon representing C# lightswitch
	CSLightswitchLibrary	Project icon representing C# lightswitch library
	CSListDefinition	Project icon representing C# list definition
	CSMenuItemCustomAction	Project icon representing C# menu item custom action
	CSNavigationApplication	Project icon representing C# navigation application
	CSPackage	C# package or deployment unit
	CSPhone	Project icon representing C# phone
	CSPhoneHub	Project icon representing C# phone hub
	CSPhoneLibrary	Project icon representing C# phone library
	CSPhonePivot	Project icon representing C# phone pivot
	CSPhoneTest	Project icon representing C# phone test
	CSPhoneWebApplication	Project icon representing C# phone web application
	CSPhoneWebSite	Project icon representing C# phone web site
	CSProjectNode	C# project file or project type
	CSRazorFile	Project icon representing C# razor file
	CSReport	Project icon representing C# report
	CSRibbonCustomAction	Project icon representing C# ribbon custom action
	CSSClass	Project icon representing CSS class
	CSSElement	Project icon representing CSS element

Image	KnownMoniker	Description
	CSSLink	Project icon representing CSS link
	CSSQLLibrary	Project icon representing C# SQL library
	CSSStyleError	Error indicator for CSS style
	CSServiceBusWorker	Project icon representing C# service bus worker
	CSSharedProject	Project icon representing C# shared project type
	CSSilverlight	Project icon representing C# SilverLight
	CSSilverlightLibrary	Project icon representing C# SilverLight library
	CSSilverlightPhone	Project icon representing C# SilverLight phone
	CSSilverlightTest	Project icon representing C# SilverLight test
	CSSilverlightWebSite	Project icon representing C# SilverLight web site
	CSSiteDefinition	Project icon representing C# site definition
	CSSourceFile	Project icon representing C# source file
	CSSplitApplication	Project icon representing C# split application
	CSTablet	Project icon representing C# tablet
	CSTestApplication	Project icon representing C# test application
	CSTestLibrary	Project icon representing C# test library
	CSWCF	Project icon representing C# WCF
	CSWF	Project icon representing C# WF
	CSWPFAApplication	Project icon representing C# WPF application

Image	KnownMoniker	Description
	CSWPFLibrary	Project icon representing C# WPF library
	CSWPFUserControl	Project icon representing C# WPF user control
	CSWPFWebSite	Project icon representing C# WPF web site
	CSWebApplication	Project icon representing C# web application
	CSWebLiblrary	Project icon representing C# web library
	CSWebPart	Project icon representing C# web part
	CSWebService	Project icon representing C# web service
	CSWebSiteTemplate	Project icon representing C# web site template
	CSWindowsLibrary	Project icon representing C# windows library
	CSWindowsService	Project icon representing C# windows service
	CSWorkerTemplateFile	Project icon representing C# worker template file
	CSWorkflow	Project icon representing C# workflow
	CSWorkflowActivity	Project icon representing C# workflow activity
	CSWorkflowAssociationForm	Project icon representing C# workflow association form
	CSWorkflowDiagram	Project icon representing C# workflow diagram
	CSWorkflowInitiationForm	Project icon representing C# workflow initiation form
	CSWorkflowManagerActivity	Project icon representing C# workflow manager activity
	Cache	Device icon representing cache
	CacheError	Error indicator for cache

Image	KnownMoniker	Description
	CacheGroup	Device icon representing cache group
	CacheOk	Device icon representing cache ok
	CacheProperty	Device icon representing cache property
	CacheRefresh	Device icon representing cache refresh
	CalculateMember	Object icon representing calculate member
	CalculatePrimaryKey	Object icon representing calculate primary key
	CalculationWarning	Warning indicator for calculation
	Calculator	Device icon representing calculator
	CalculatorMethod	Method or function declaration
	Calendar	Object icon representing calendar
	Call	Diagnostic icon representing call
	CallBehaviorAction	Diagnostic icon representing call behavior action
	CallBrowser	Window icon representing call browser
	CallBrowserSettings	Diagnostic icon representing call browser settings
	CallFrom	Diagnostic icon representing call from
	CallFromMethod	Diagnostic icon representing call from method
	CallHierarchy	Diagnostic icon representing call hierarchy
	CallOperationAction	Flow icon representing call operation action
	CallReturnInstructionPointer	Diagnostic icon representing call return instruction pointer

Image	KnownMoniker	Description
	CallReturnInstructionPointerAlert	Diagnostic icon representing call return instruction pointer alert
	CallStackWindow	Diagnostic icon representing call stack window
	CallThread	Diagnostic icon representing call thread
	CallTo	Diagnostic icon representing call to
	CallToMethod	Diagnostic icon representing call to method
	CallerCalleeView	Diagnostic icon representing caller callee view
	Callout	Chat icon representing callout
	CalloutCloud	UI icon representing callout cloud
	CalloutOval	Chat icon representing callout oval
	CalloutRectangle	Chat icon representing callout rectangle
	CalloutRoundedRectangle	Chat icon representing callout rounded rectangle
	Camera	Device icon representing camera
	CameraDisabled	Disabled camera
	CameraOrbit	Design icon representing camera orbit
	CameraOutline	Device icon representing camera outline
	Cancel	Command icon representing cancel
	CancelBuild	Object icon representing cancel build
	CancelPerformanceReport	Device icon representing cancel performance report
	CancelQuery	Database query or data query

Image	KnownMoniker	Description
	CancelTest	Object icon representing cancel test
	CancelXSISchema	Database schema definition
	CancellationScope	Flow icon representing cancellation scope
	CandleStickChart	Data icon representing candle stick chart
	CanvasElement	UI icon representing canvas element
	CaptionTag	UI icon representing caption tag
	CaptureFrame	Design icon representing capture frame
	Carousel	UI icon representing carousel
	CascadingDropDown	UI icon representing cascading drop down
	CaseLookupColumn	Database column or data column
	CaseTable	Database table or data table
	CaseTableColumn	Database table or data table
	CatalogZone	Catalog zone or section
	CategorizedView	UI icon representing categorized view
	CategoryAxis	Document icon representing category axis
	CategoryPageItemTemplate	UI icon representing category page item template
	CellFormula	Code icon representing cell formula
	CenterHorizontally	Design icon representing center horizontally
	CenterVertically	Design icon representing center vertically

Image	KnownMoniker	Description
	Certificate	Digital certificate
	CertificateError	Error indicator for certificate
	CertificateWarning	Warning indicator for certificate
	ChangePassword	Character icon representing change password
	ChangeSourceControl	Document icon representing change source control
	Changeset	Code icon representing changeset
	ChangesetGroup	Code icon representing changeset group
	ChangesetMergeAcross	Code icon representing changeset merge across
	ChangesetMergeDown	Code icon representing changeset merge down
	ChangesetMergeUp	Code icon representing changeset merge up
	ChartFilter	Data icon representing chart filter
	ChartWizard	Data icon representing chart wizard
	CheckAdd	Design icon representing check add
	CheckBoxChecked	Checked check box
	CheckBoxDisabled	Disabled check box
	CheckBoxFieldColumnChecked	Database column or data column
	CheckBoxFieldColumnUnchecked	Database column or data column
	CheckBoxGroup	UI icon representing check box group
	CheckBoxList	UI icon representing check box list

Image	KnownMoniker	Description
	CheckBoxMixed	UI icon representing check box mixed
	CheckBoxUnchecked	Unchecked check box
	CheckConstraint	Flow icon representing check constraint
	CheckConstraintError	Error indicator for check constraint
	CheckConstraintGroup	Flow icon representing check constraint group
	CheckDot	Shape icon representing check dot
	CheckIn	Code icon representing check in
	CheckInItem	Object icon representing check in item
	CheckInShelveset	Code icon representing check in shelveset
	CheckOutForEdit	Code icon representing check out for edit
	CheckOutItem	Object icon representing check out item
	CheckedIn	Status icon representing checked in
	CheckedInNode	Status icon representing checked in node
	CheckedOutByOtherUser	Status icon representing checked out by other user
	CheckedOutByOtherUserNode	Status icon representing checked out by other user node
	CheckedOutForEdit	Status icon representing checked out for edit

Image	KnownMoniker	Description
	CheckedOutForEditNode	Status icon representing checked out for edit node
	CheckerboardRound	Design icon representing checkerboard round
	CheckerboardSquare	Design icon representing checkerboard square
	Checklist	List icon representing checklist
	Checkmark	Design icon representing checkmark
	Checkpoint	Diagnostic icon representing checkpoint
	CheckpointBuild	Device icon representing checkpoint build
	ChildWindow	Window or panel in UI
	ChildWindowTemplate	Window or panel in UI
	Choose	Design icon representing choose
	ChooseTarget	Device icon representing choose target
	Chrome	Brand icon used for 3rd party product or feature integration inside Visual Studio
	Class	Class definition or type in code structure
	ClassCollection	Project icon representing class collection
	ClassDetails	Class definition or type in code structure
	ClassFile	Document icon representing class file
	ClassInternal	Class definition or type in code structure
	ClassLibrary	Library of class definitions

Image	KnownMoniker	Description
	ClassMethodReference	Document icon representing class method reference
	ClassMethodReferenceAmbiguous	Class definition or type in code structure
	ClassMissing	Class definition or type in code structure
	ClassPrivate	Class definition or type in code structure
	ClassProtected	Class definition or type in code structure
	ClassPublic	Class definition or type in code structure
	ClassSealed	Class definition or type in code structure
	ClassShortcut	Class definition or type in code structure
	CleanData	Design icon representing clean data
	ClearBookmark	Clear bookmark
	ClearBreakpointGroup	Debugger breakpoint
	ClearCollection	Clear collection
	ClearDictionary	Clear all dictionary entries
	ClearSort	Clear sort
	ClearWindowContent	Clear window content
	ClickOnce	Flow icon representing click once
	ClientStatistics	Data icon representing client statistics
	CloakOrHide	Hide or cloak element from view
	CloneToDesktop	Desktop computer

Image	KnownMoniker	Description
	Close	Close
	CloseAll	Close all
	CloseDocument	Document file
	CloseDocumentGroup	Document file
	CloseLog	Close log file
	CloseSolution	Close solution
	ClosedCaption	Closed caption or subtitle
	Cloud	Web icon representing cloud
	CloudBlobs	Web icon representing cloud blobs
	CloudBusinessApplication	Device icon representing cloud business application
	CloudConfigurationFile	File or document
	CloudConsole	Window icon representing cloud console
	CloudDatabase	Device icon representing cloud database
	CloudDownload	Web icon representing cloud download
	CloudError	Error indicator for cloud
	CloudFile	File or document
	CloudGroup	Web icon representing cloud group
	CloudOK	Web icon representing cloud o k
	CloudPackage	Object icon representing cloud package

Image	KnownMoniker	Description
	CloudRefresh	Web icon representing cloud refresh
	CloudRun	Web icon representing cloud run
	CloudServer	Device icon representing cloud server
	CloudService	Web service endpoint
	CloudServiceBus	Web service endpoint
	CloudStaging	Web icon representing cloud staging
	CloudStagingOK	Web icon representing cloud staging o k
	CloudStagingRefresh	Web icon representing cloud staging refresh
	CloudStagingStopped	Web icon representing cloud staging stopped
	CloudStopped	Web icon representing cloud stopped
	CloudUpload	Web icon representing cloud upload
	CloudWarning	Warning indicator for cloud
	Cluster	UI icon representing cluster
	ClusteredIndex	Object icon representing clustered index
	ClusteredIndexError	Error indicator for clustered index
	ClusteredIndexWarning	Warning indicator for clustered index
	Code	Code icon representing code
	CodeActivity	Code icon representing code activity
	CodeAnalysisWindow	Code icon representing code analysis window

Image	KnownMoniker	Description
	CodeCoverage	Code icon representing code coverage
	CodeCoverageDisabled	Disabled code coverage
	CodeDefinitionWindow	Window or panel in UI
	CodeErrorRule	Code error rule definition
	CodeHiddenRule	Hidden code rule
	CodeInformation	Information about code
	CodeInformationError	Error indicator for code information
	CodeInformationPrivate	Private code information
	CodeInformationRule	Code information rule or guideline
	CodeInformationWarning	Warning indicator for code information
	CodeLens	Code icon representing code lens
	CodeMetrics	Device icon representing code metrics
	CodeReview	Code icon representing code review
	CodeReviewDashboard	Code icon representing code review dashboard
	CodeReviewWizard	Code icon representing code review wizard
	CodeSuppressedRule	Suppressed code rule
	CodeTest	Code icon representing code test
	CodeWarningRule	Code warning rule definition
	Collapse	Design icon representing collapse

Image	KnownMoniker	Description
	CollapseAll	Design icon representing collapse all
	CollapseLeft	Collapse a section to the left; hide a sidebar or pane
	CollapseLeftGroup	Collapse grouped content to the left; hide a set of panes
	CollapseUp	Collapse a section upwards; hide content above or shrink a panel
	CollapseUpGroup	Collapse grouped content upwards; hide multiple items at once
	CollapsiblePanel	UI panel or container
	CollectionPageItemTemplate	UI icon representing collection page item template
	ColorDialog	Design icon representing color dialog
	ColorPalette	Design icon representing color palette
	ColorPicker	Design icon representing color picker
	ColorScale	Design icon representing color scale
	ColorWheel	Design icon representing color wheel
	Column	Database column or data column
	ColumnButton	Database column or data column
	ColumnChart	Database column or data column
	ColumnComponent	Database column or data column
	ColumnDetails	Database column or data column
	ColumnError	Error indicator for column
	ColumnGroup	Database column or data column

Image	KnownMoniker	Description
	ColumnKeyChecked	Database column or data column
	ColumnKeyUnchecked	Database column or data column
	ColumnLabels	Database column or data column
	ColumnLink	Database column or data column
	ColumnMissing	Database column or data column
	ColumnNullRatioProfile	Project icon representing column null ratio profile
	ColumnPatternProfile	Project icon representing column pattern profile
	ColumnPredict	Database column or data column
	ColumnPredictChecked	Database column or data column
	ColumnPredictUnchecked	Database column or data column
	ColumnSettings	Database column or data column
	ColumnWarning	Warning indicator for column
	ComboBox	UI icon representing combo box
	ComboBoxItem	UI icon representing combo box item
	Comma	Character icon representing comma
	CommandUIOption	UI icon representing command UI option
	Comment	Chat icon representing comment
	CommentCode	List icon representing comment code
	CommentGroup	Chat icon representing comment group

Image	KnownMoniker	Description
	CommentLink	Flow icon representing comment link
	CommentSparkle	AI-generated or AI-improved comments and notes; use for suggestions inside reviews
	Commit	Code icon representing commit
	CompareDatabases	Device icon representing compare databases
	CompareFiles	File or document
	CompareFolders	Folder or directory
	ComparePerformanceReports	Device icon representing compare performance reports
	CompareSchemas	Database schema definition
	CompareTargetDatabase	Device icon representing compare target database
	CompareValidator	Flow icon representing compare validator
	Compass	Object icon representing compass
	Compensate	Flow icon representing compensate
	CompilableFile	Document icon representing compilable file
	Compile	Flow icon representing compile
	CompiledHelpFile	Document icon representing compiled help file
	CompleteWord	Auto-complete word suggestion
	CompletionMode	UI icon representing completion mode
	ComplexProperty	Property or field member
	Component	Flow icon representing component

Image	KnownMoniker	Description
	ComponentDiagram	Data icon representing component diagram
	ComponentFile	Document icon representing component file
	CompositeTask	Document icon representing composite task
	Composition	Flow icon representing composition
	ComputedColumn	Database column or data column
	ComputedColumnDisabled	Database column or data column
	ComputedColumnError	Error indicator for computed column
	ComputedColumnWarning	Warning indicator for computed column
	Computer	Device icon representing computer
	ComputerService	Device icon representing computer service
	ConditionalLoop	Flow icon representing conditional loop
	ConditionalRule	Flow icon representing conditional rule
	ConditionalRuleIfThen	Flow icon representing conditional rule if then
	ConePreview	Shape icon representing cone preview
	ConfigurationEditor	Flow icon representing configuration editor
	ConfigurationFile	Document icon representing configuration file
	ConfigureComputer	Device icon representing configure computer
	ConfigureDatabaseWizard	Device icon representing configure database wizard
	ConfirmButton	UI icon representing confirm button

Image	KnownMoniker	Description
	Conflict	Flow icon representing conflict
	Connect	Utility icon representing connect
	ConnectArrow	Arrow indicating connection between elements
	ConnectTestPlan	Connect to test plan
	ConnectToDatabase	Device icon representing connect to database
	ConnectToEnvironment	Device icon representing connect to environment
	ConnectToRemoteServer	Device icon representing connect to remote server
	ConnectToWebSite	Web application or service
	ConnectVirtualMachine	Device icon representing connect virtual machine
	ConnectedServices	Web service endpoint
	ConnectionBuilder	Utility icon representing connection builder
	ConnectionOffline	Connection in offline mode
	ConnectionWarning	Warning indicator for connection
	ConnectionZone	Utility icon representing connection zone
	Connector	Generic connector between elements
	Console	Window icon representing console
	ConsoleTest	Window icon representing console test
	Constant	Constant value definition
	ConstantInternal	Constant value definition

Image	KnownMoniker	Description
	ConstantPrivate	Constant value definition
	ConstantProtected	Constant value definition
	ConstantPublic	Constant value definition
	ConstantSealed	Constant value definition
	ConstantShortcut	Constant value definition
	ContactCard	Contact information card
	Container	Flow icon representing container
	ContainsDynamicValueProperty	Object icon representing contains dynamic value property
	ContentControlElement	UI control element
	ContentInstaller	Document icon representing content installer
	ContentPlaceholder	Document icon representing content placeholder
	ContentPresenter	Design icon representing content presenter
	ContentType	UI icon representing content type
	ContextMenu	Context menu interaction or display
	Contract	Document icon representing contract
	ContractArrow	Arrow to contract or collapse expanded content
	ContractError	Error indicator for contract
	ContractSettings	Document icon representing contract settings
	ContractWarning	Warning indicator for contract

Image	KnownMoniker	Description
	Control	UI control element
	ControlAltDel	UI control element
	ControlFlow	UI control element
	ConvertBranchToFolder	Folder or directory
	ConvertFolderToBranch	Folder or directory
	ConvertPartition	Flow icon representing convert partition
	ConvertToCodeWebTest	Object icon representing convert to code web test
	ConvertToHyperlink	Command icon representing convert to hyperlink
	CookieCutter	Object icon representing cookie cutter
	Copy	Document icon representing copy
	CopyDynamicValue	Object icon representing copy dynamic value
	CopyItem	Object icon representing copy item
	CopyWebsite	Web application or service
	CordovaMultiDevice	Shape icon representing cordova multi device
	Correlation	Character icon representing correlation
	CorrelationScope	Flow icon representing correlation scope
	CountAttributes	Flow icon representing count attributes
	CountCollection	Document icon representing count collection
	CountDictionary	Count dictionary entries

Image	KnownMoniker	Description
	CountDynamicValue	Object icon representing count dynamic value
	Counter	Character icon representing counter
	CrashDumpFile	Device icon representing crash dump file
	CreateMessage	Utility icon representing create message
	CreateNewPullRequest	Code icon representing create new pull request
	CreatePropertyBrush	Command icon representing create property brush
	CreatePullRequest	Code icon representing create pull request
	CrossGroupLink	Flow icon representing cross group link
	CrystalReport	Flow icon representing crystal report
	CubeAndDimension	Object icon representing cube and dimension
	CubeBuilderView	Code icon representing cube builder view
	CubeDimension	Object icon representing cube dimension
	Currency	Object icon representing currency
	CurrentContextArrow	Diagnostic icon representing current context arrow
	CurrentFile	File or document
	CurrentFlowDecision	Diagnostic icon representing current flow decision
	CurrentFlowSwitch	Diagnostic icon representing current flow switch
	CurrentInstructionPointer	Diagnostic icon representing current instruction pointer
	CurrentInstructionPointerPaused	Diagnostic icon representing current instruction pointer paused

Image	KnownMoniker	Description
	CurrentInstructionPointerStopped	Diagnostic icon representing current instruction pointer stopped
	CurrentLocationArrow	Diagnostic icon representing current location arrow
	Cursor	Mouse cursor or pointer indicator
	CursorFile	Project icon representing cursor file
	Curve	Shape icon representing curve
	CustomAction	Code icon representing custom action
	CustomActionEditor	Document icon representing custom action editor
	CustomCSS	Document icon representing custom CSS
	CustomControl	UI control element
	CustomErrorMessage	UI icon representing custom error message
	CustomValidator	Flow icon representing custom validator
	Cut	Design icon representing cut
	Cycling	Data icon representing cycling
	Cylinder	Shape icon representing cylinder
	D	D character or dimension indicator
	DACApplications	Device icon representing DAC applications
	DGSLFile	Project icon representing DGSL file
	DIVTag	UI icon representing div tag
	DMAChannel	Diagnostic icon representing DMA channel

Image	KnownMoniker	Description
	DSlash	D with slash through it
	DTSCustomTask	Web icon representing DTS custom task
	DTSFileSystem	File or document
	DTSVisualizer	Document icon representing DTS visualizer
	DarkTheme	Design icon representing dark theme
	Dash	UI icon representing dash
	DataBar	Project icon representing data bar
	DataBindingSource	Device icon representing data binding source
	DataCenter	Device icon representing data center
	DataCompare	Device icon representing data compare
	DataField	Data icon representing data field
	DataForm	Device icon representing data form
	DataGenerationPlan	Device icon representing data generation plan
	DataGenerator	Device icon representing data generator
	DataGrid	Data icon representing data grid
	DataList	Project icon representing data list
	DataMining	Project icon representing data mining
	DataMiningColumn	Database column or data column
	DataMiningDimension	Object icon representing data mining dimension

Image	KnownMoniker	Description
	DataMiningMethod	Project icon representing data mining method
	DataMiningPrediction	Flow icon representing data mining prediction
	DataMiningQuery	Database query or data query
	DataMiningStructure	Document icon representing data mining structure
	DataMiningViewer	Database view or data view
	DataPager	Project icon representing data pager
	DataRepeater	Device icon representing data repeater
	DataServer	Device icon representing data server
	DataSource	Device icon representing data source
	DataSourceReference	Utility icon representing data source reference
	DataSourceTarget	Device icon representing data source target
	DataSourceView	Device icon representing data source view
	DataTable	Database table or data table
	Database	Device icon representing database
	DatabaseApplication	Device icon representing database application
	DatabaseAuditSpecification	Device icon representing database audit specification
	DatabaseAuditSpecificationOff	Device icon representing database audit specification off
	DatabaseColumn	Device icon representing database column
	DatabaseConfigurationFile	Device icon representing database configuration file

Image	KnownMoniker	Description
	DatabaseDestination	Device icon representing database destination
	DatabaseDetailsView	Device icon representing database details view
	DatabaseFile	Document icon representing database file
	DatabaseGroup	Device icon representing database group
	DatabaseGroupError	Error indicator for database group
	DatabaseLibrary	Database library or data access layer
	DatabaseMarkup	Device icon representing database markup
	DatabaseMethod	Device icon representing database method
	DatabaseMobileConnection	Device icon representing database mobile connection
	DatabaseModelRefresh	Device icon representing database model refresh
	DatabaseOffline	Database in offline mode
	DatabasePaused	Device icon representing database paused
	DatabasePerformane	Device icon representing database performane
	DatabaseProperty	Device icon representing database property
	DatabaseReference	Device icon representing database reference
	DatabaseReport	Device icon representing database report
	DatabaseRole	Device icon representing database role
	DatabaseRoleError	Error indicator for database role
	DatabaseRoleWarning	Warning indicator for database role

Image	KnownMoniker	Description
	DatabaseRunning	Device icon representing database running
	DatabaseSchema	Device icon representing database schema
	DatabaseScript	Device icon representing database script
	DatabaseSettings	Device icon representing database settings
	DatabaseSource	Device icon representing database source
	DatabaseStopped	Device icon representing database stopped
	DatabaseStoredProcedures	Device icon representing database stored procedures
	DatabaseTableGroup	Device icon representing database table group
	DatabaseTest	Device icon representing database test
	DatabaseUnknown	Device icon representing database unknown
	DatabaseVariable	Device icon representing database variable
	DatabaseWarning	Warning indicator for database
	DatasetReference	Device icon representing dataset reference
	DateTimeAxis	Data icon representing date time axis
	DateTimePicker	UI icon representing date time picker
	DebugCheckedTests	Debugging tool or mode
	DebugHistorySeekToFrame	UI icon representing debug history seek to frame
	DebugInteractiveWindow	Window or panel in UI
	DebugSelection	Object icon representing debug selection

Image	KnownMoniker	Description
	DebugSparkle	AI-assisted debugging; propose fixes, pinpoint issues, or explain errors
	DebugTemplate	Template file or pattern
	DebugXSLT	Data icon representing debug XSLT
	DecisionNode	Flow icon representing decision node
	DecisionTree	Data icon representing decision tree
	Declaration	Navigate to declaration or definition of code element
	DeclarativeCatalogPart	Flow icon representing declarative catalog part
	DecreaseDecimals	Character icon representing decrease decimals
	DecreaseFontSize	Character icon representing decrease font size
	DecreaseHorizontalSpacing	Design icon representing decrease horizontal spacing
	DecreaseIndent	List icon representing decrease indent
	DecreaseVerticalSpacing	Design icon representing decrease vertical spacing
	DeepDev	DeepDev development tool
	DefaultConstraint	Data icon representing default constraint
	DefaultConstraintError	Error indicator for default constraint
	DefaultConstraintWarning	Warning indicator for default constraint
	DefineInheritance	Window icon representing define inheritance
	DelayWorkflow	Flow icon representing delay workflow
	Delegate	Delegate type definition

Image	KnownMoniker	Description
	DelegateInternal	Delegate type definition
	DelegatePrivate	Delegate type definition
	DelegateProtected	Delegate type definition
	DelegatePublic	Delegate type definition
	DelegateSealed	Delegate type definition
	DelegateShortcut	Delegate type definition
	Delegation	Delegation pattern or relationship between objects
	Delete	Remove or delete
	DeleteAttachment	Remove or delete attachment
	DeleteBreakpoint	Remove or delete breakpoint
	DeleteCell	Remove or delete cell
	DeleteClause	Remove or delete clause
	DeleteColumn	Remove or delete column
	DeleteColumns	Remove or delete columns
	DeleteDatabase	Remove or delete database
	DeleteDimensionTranslation	Remove or delete dimension translation
	DeleteDocument	Remove or delete document
	DeleteEntity	Remove or delete entity
	DeleteFilter	Remove or delete filter

Image	KnownMoniker	Description
	DeleteFolder	Remove or delete folder
	DeleteGroup	Remove or delete group
	DeleteListItem	Remove or delete list item
	DeleteMessage	Remove or delete message
	DeleteParameter	Remove or delete parameter
	DeletePerspective	Remove or delete perspective
	DeleteProperty	Remove or delete property
	DeleteQuery	Remove or delete query
	DeleteRelationship	Remove or delete relationship
	DeleteStep	Remove or delete step
	DeleteTable	Remove or delete table
	DeleteTableColumn	Remove or delete table column
	DeleteTableRow	Remove or delete table row
	DeleteTag	Remove or delete tag
	DeleteTaskList	Remove or delete task list
	DeleteTranslation	Remove or delete translation
	DeleteVariables	Remove or delete variables
	DeleteWatch	Remove or delete watch
	DeleteWorkflow	Remove or delete workflow

Image	KnownMoniker	Description
	Dependency	Dependency relationship between elements
	DependencyGraph	Data icon representing dependency graph
	DependencyGraphAncestor	Data icon representing dependency graph ancestor
	DependencyMatrix	Flow icon representing dependency matrix
	DependencyWarning	Warning about dependency issue
	DeployDatabase	Device icon representing deploy database
	Deployment	Flow icon representing deployment
	DeploymentApplication	Window icon representing deployment application
	DeploymentConfiguration	Document icon representing deployment configuration
	DeploymentConfigurationExtension	Document icon representing deployment configuration extension
	DeploymentFile	Document icon representing deployment file
	DepthTest	Object icon representing depth test
	DerivedColumn	Database column or data column
	DerivedDataMining	Object icon representing derived data mining
	DescriptionTemplate	Window icon representing description template
	DescriptionViewer	Chat icon representing description viewer
	DesignMode	Design icon representing design mode
	DesignStorage	Device icon representing design storage
	DesktopBlue	Desktop computer

Image	KnownMoniker	Description
	DesktopGreen	Desktop computer
	DesktopPurple	Desktop computer
	DesktopRed	Desktop computer
	DestinationAssistant	Flow icon representing destination assistant
	DetailDataView	Design icon representing detail data view
	DetailPageItemTemplate	Flow icon representing detail page item template
	DetailView	Design icon representing detail view
	DevTunnels	Development tunnels for remote access
	DeviceTest	Device icon representing device test
	Devices	Device icon representing devices
	Diagram	Data icon representing diagram
	DiagramError	Error indicator for diagram
	DiagramWarning	Warning indicator for diagram
	Dialog	Dialog box or modal window
	DialogGroup	Dialog box or modal window
	DialogTemplate	Dialog box or modal window
	Diamond	Flow icon representing diamond
	Dictionary	Dictionary data structure or lookup table
	DictionaryContains	Check if dictionary contains item

Image	KnownMoniker	Description
	Diff	Code icon representing diff
	DimensionBrowserView	Object icon representing dimension browser view
	DimensionBuilderView	Object icon representing dimension builder view
	DimensionTranslationView	Object icon representing dimension translation view
	DimensionUsageView	Object icon representing dimension usage view
	DimensionWriteback	Object icon representing dimension writeback
	DirectLinkList	Flow icon representing direct link list
	DirectXThreeD	Shape icon representing DirectX 3D
	DirectXThreeDApplication	Window icon representing direct x three d application
	DirectXTwoDApplication	Window icon representing direct x two d application
	DirectionLight	Design icon representing direction light
	DisableAllBreakpointDependents	Debugger breakpoint
	DisableAllBreakpoints	Debugger breakpoint
	DisableAllBreakpointsRedGroup	Debugger breakpoint
	DisableCode	Disable code
	DisassemblyWindow	UI icon representing disassembly window
	Disconnect	Utility icon representing disconnect
	DisconnectVirtualMachine	Device icon representing disconnect virtual machine
	DisplayConfiguration	Show or display configuration

Image	KnownMoniker	Description
	DisplayFullSignature	Show or display full signature
	DisplayName	Show or display name
	DisplayNone	Show or display none
	DistributeBottom	Design icon representing distribute bottom
	DistributeHorizontalCenter	Design icon representing distribute horizontal center
	DistributeLeft	Design icon representing distribute left
	DistributeRight	Design icon representing distribute right
	DistributeTop	Design icon representing distribute top
	DistributeVerticalCenter	Design icon representing distribute vertical center
	DivideMember	Object icon representing divide member
	DivideMemberFormula	Object icon representing divide member formula
	DividePath	Design icon representing divide path
	DoWhile	Flow icon representing do while
	Dock	UI icon representing dock
	DockBottom	UI icon representing dock bottom
	DockPanel	UI panel or container
	DockRight	UI icon representing dock right
	DockTo	Window icon representing dock to
	Docker	Docker containerization platform

Image	KnownMoniker	Description
	Document	Document file
	DocumentCollection	Document file
	DocumentError	Error indicator for document
	DocumentExclude	Document file
	DocumentGroup	Document file
	DocumentGroupError	Error indicator for document group
	DocumentGroupWarning	Warning indicator for document group
	DocumentOK	Document file
	DocumentOutline	List icon representing document outline
	DocumentSource	Document file
	DocumentTag	Document file
	DocumentViewer	Document file
	DocumentWarning	Warning indicator for document
	DocumentsFolder	Folder or directory
	DomainController	Device icon representing domain controller
	DomainScrollVertical	Vertical scroll in domain view
	DomainType	Character icon representing domain type
	DotNETFrameworkDependency	Object icon representing .NET framework dependency
	DotNETPhone	Phone or mobile device

Image	KnownMoniker	Description
	DotNETPhoneError	Error indicator for .NET phone
	DotNet	.NET framework
	DotNetCore	.NET Core framework
	DottedSplitter	Design icon representing dotted splitter
	DoughnutChart	Data icon representing doughnut chart
	Download	Download content from a remote source; bring data down/inbound
	DownloadDocument	Document file
	DownloadFolder	Folder or directory
	DownloadLog	Download log file
	DownloadNoColor	Download action in neutral/disabled state; minimal accent
	DownloadWebSettings	Web application or service
	DragDropControl	Control supporting drag and drop operations
	DragDropGroupControl	Group control for drag and drop
	DragHandle	Flow icon representing drag handle
	DragPanel	UI panel or container
	DraggedCurrentInstructionPointer	Diagnostic icon representing dragged current instruction pointer
	DraggedInstructionPointerPaused	Diagnostic icon representing dragged instruction pointer paused
	DrillDown	Flow icon representing drill down
	Driver	Object icon representing driver

Image	KnownMoniker	Description
	DriverPackage	Object icon representing driver package
	DriverTest	Object icon representing driver test
	DriverVerifier	Object icon representing driver verifier
	DropPointTarget	Target location for drop operation
	DropShadow	Design icon representing drop shadow
	Duplicate	Document icon representing duplicate
	Dynamic	Dynamic content or behavior indicator
	DynamicDataField	Data icon representing dynamic data field
	DynamicDiscoveryDocument	Web icon representing dynamic discovery document
	DynamicEntity	Code icon representing dynamic entity
	DynamicGroup	Flow icon representing dynamic group
	DynamicHyperlink	Dynamic or data-bound hyperlink
	DynamicImage	Object icon representing dynamic image
	DynamicLibrary	Dynamically linked library
	DynamicMenu	Menu or menu item
	DynamicPhone	Phone or mobile device
	DynamicPopulate	Document icon representing dynamic populate
	DynamicProcedure	Window icon representing dynamic procedure
	DynamicTable	Database table or data table

Image	KnownMoniker	Description
	DynamicTemplate	Window icon representing dynamic template
	DynamicTestSuite	Document icon representing dynamic test suite
	DynamicValidator	Validator for dynamic content or data
	DynamicValue	Object icon representing dynamic value
	DynamicWebSite	Web application or service
	DynamicsCRM	Microsoft Dynamics CRM
	E2ETracing	Document icon representing e2e tracing
	Edge	Microsoft Edge browser
	Edit	Edit
	EditAssociation	Edit association
	EditBug	Edit bug
	EditColumn	Edit column
	EditDatabase	Edit database
	EditDimension	Edit dimension
	EditDocument	Edit document
	EditDropDownList	Edit dropdown list
	EditFieldDialog	Edit field dialog
	EditFilter	Edit filter
	EditInput	Edit input

Image	KnownMoniker	Description
	EditKey	Edit key
	EditLabel	Edit label
	EditLayoutTable	Edit layout table
	EditLink	Edit link
	EditManifest	Edit manifest
	EditNotebook	Edit notebook document
	EditQuery	Edit query
	EditRelationship	Edit relationship
	EditRowLeft	Edit row left
	EditRowRight	Edit row right
	EditSmartTag	Edit smart tag
	EditString	Edit string
	EditTag	Edit tag
	EditTaskList	Edit task list
	EditText	Edit text
	EditTooltip	Edit tooltip content
	EditWindow	Edit window
	EditZone	Edit zone
	Editor	Edit or

Image	KnownMoniker	Description
	EditorConfigFile	Document icon representing editor config file
	EditorWarning	Edit or warning
	Effect	Character icon representing effect
	EffectDisabled	Disabled effect
	EffectEnabled	Enabled effect
	EightX	Character icon representing eight x
	ElementHost	Window icon representing element host
	ElementID	UI icon representing element ID
	ElementSeparator	UI icon representing element separator
	Ellipse	Shape icon representing ellipse
	Ellipsis	UI icon representing ellipsis
	EmailAddressEditor	Document icon representing email address editor
	EmailAddressViewer	Document icon representing email address viewer
	EmbeddedFont	Character icon representing embedded font
	EmptyBucket	Design icon representing empty bucket
	EmptyContainer	Design icon representing empty container
	EnableAllBreakpointDependents	Debugger breakpoint
	EnableAllBreakpoints	Debugger breakpoint
	EnableAllBreakpointsRedGroup	Debugger breakpoint

Image	KnownMoniker	Description
	EnableCode	Enable code
	EncapsulateField	Code icon representing encapsulate field
	EndCall	Diagnostic icon representing end call
	EndPoint	Diagnostic icon representing end point
	EndpointComponent	Object icon representing endpoint component
	Entities	Data icon representing entities
	EntityContainer	Code icon representing entity container
	EntityDatabase	Device icon representing entity database
	EntitySet	Code icon representing entity set
	Entry	Design icon representing entry
	EntryPoint	Data icon representing entry point
	Enumeration	Enumeration type definition
	EnumerationInternal	Enumeration type definition
	EnumerationItemInternal	Enumeration type definition
	EnumerationItemPrivate	Enumeration type definition
	EnumerationItemProtected	Enumeration type definition
	EnumerationItemPublic	Enumeration type definition
	EnumerationItemSealed	Enumeration type definition
	EnumerationItemShortcut	Enumeration type definition

Image	KnownMoniker	Description
	EnumerationItemSnippet	Enumeration type definition
	EnumerationPrivate	Enumeration type definition
	EnumerationProtected	Enumeration type definition
	EnumerationPublic	Enumeration type definition
	EnumerationSealed	Enumeration type definition
	EnumerationShortcut	Enumeration type definition
	EnumerationSnippet	Enumeration type definition
	Environment	Device icon representing environment
	EnvironmentTemplate	Device icon representing environment template
	Eraser	Design icon representing eraser
	ErrorBarChart	Data icon representing error bar chart
	ErrorSquiggleActive	Active error squiggle
	ErrorSquiggleCriticalActive	Active error squiggle critical
	ErrorSquiggleCriticalInactive	Inactive error squiggle critical
	ErrorSquiggleInactive	Inactive error squiggle
	ErrorSummary	Document icon representing error summary
	EvaluateCode	Command icon representing evaluate code
	EvaluateCodeStaleRefresh	Command icon representing evaluate code stale refresh
	EvaluateCodeStop	Command icon representing evaluate code stop

Image	KnownMoniker	Description
	EvenColumns	Design icon representing even columns
	EvenRows	Design icon representing even rows
	Event	Event declaration or handler
	EventBreakpointDisabled	Debugger breakpoint
	EventBreakpointEnabled	Debugger breakpoint
	EventBreakpointWarning	Warning indicator for event breakpoint
	EventError	Error indicator for event
	EventFilter	Event declaration or handler
	EventInternal	Event declaration or handler
	EventLog	System or application event log
	EventLogFailureAudit	Event declaration or handler
	EventLogSuccessAudit	Event declaration or handler
	EventMissing	Event declaration or handler
	EventPrivate	Event declaration or handler
	EventProtected	Event declaration or handler
	EventPublic	Event declaration or handler
	EventSealed	Event declaration or handler
	EventSession	Event declaration or handler
	EventShortcut	Event declaration or handler

Image	KnownMoniker	Description
	EventSnippet	Event declaration or handler
	EventTable	Database table or data table
	EventTracepointOff	Trace or diagnostic logging
	EventTracepointOn	Trace or diagnostic logging
	EventTracepointWarning	Warning indicator for event tracepoint
	EventTrigger	Event declaration or handler
	EventWarning	Warning indicator for event
	Excel	Microsoft Excel spreadsheet application
	ExcelWorksheetView	Document icon representing excel worksheet view
	ExceptionInternal	Internal exception
	ExceptionPrivate	Private exception
	ExceptionProtected	Protected exception
	ExceptionPublic	Public exception
	ExceptionSealed	Sealed exception
	ExceptionSettings	Code icon representing exception settings
	ExceptionShortcut	Code icon representing exception shortcut
	ExclamationPoint	Character icon representing exclamation point
	ExclamationPointNoColor	ExclamationPoint icon in neutral or monochrome style
	ExcludeMember	Object icon representing exclude member

Image	KnownMoniker	Description
	ExcludeMemberFormula	Object icon representing exclude member formula
	ExcludePath	Design icon representing exclude path
	ExcludeRun	Diagnostic icon representing exclude run
	ExecutableType	Data icon representing executable type
	Execute	Object icon representing execute
	ExecuteDDL	Shape icon representing execute DDL
	ExistingConnection	Device icon representing existing connection
	ExistingConnectionFormat	Device icon representing existing connection format
	ExistsInCollection	Document icon representing exists in collection
	Exit	Design icon representing exit
	ExitFullScreen	Design icon representing exit full screen
	ExlcudeScript	Document icon representing exlcude script
	Expand	Design icon representing expand
	ExpandAll	Design icon representing expand all
	ExpandArrow	Arrow to expand collapsed content
	ExpandDown	Expand a section downward; reveal content below or grow a panel
	ExpandDown	Small expand-down glyph at 9x9 pixels
	ExpandDownGroup	Expand grouped content downward; show multiple items at once
	ExpandRight	Expand a section to the right; reveal a sidebar or pane

Image	KnownMoniker	Description
	ExpandRight.9.9	Small expand-right glyph at 9x9 pixels
	ExpandRightGroup	Expand grouped content to the right; reveal a set of panes
	ExpandScope	Design icon representing expand scope
	ExpandableContentControl	UI control element
	Expander	UI control to expand/collapse content
	ExplodedDoughnutChart	Data icon representing exploded doughnut chart
	ExplodedPieChart	Data icon representing exploded pie chart
	Export	Export data or content to external format
	ExportData	Device icon representing export data
	ExportFilter	Command icon representing export filter
	ExportPerformanceReport	Device icon representing export performance report
	ExportScript	Document icon representing export script
	ExportSettings	Object icon representing export settings
	ExportTestRunResults	Object icon representing export test run results
	Extend	Flow icon representing extend
	ExtendedProperty	Property or field member
	ExtendedPropertyError	Error indicator for extended property
	ExtendedPropertyWarning	Warning indicator for extended property
	Extension	Object icon representing extension

Image	KnownMoniker	Description
	ExtensionApplication	Window icon representing extension application
	ExtensionManifest	Document icon representing extension manifest
	ExtensionMethod	Method or function declaration
	ExternalVariableValue	Variable declaration or reference
	ExtraLarge	Shape icon representing extra large
	ExtractConstant	Constant value definition
	ExtractInterface	Interface definition
	ExtractMethod	Method or function declaration
	F1Help	F1 context-sensitive help
	FSApplication	Project icon representing F# application
	FSBlankApplication	Project icon representing F# blank application
	FSBlankWebSite	Project icon representing F# blank web site
	FSClassCollection	Project icon representing F# class collection
	FSClassLibrary	Project icon representing F# class library
	FSCodeFile	Project icon representing F# code file
	FSConsole	Project icon representing F# console
	FSConsoleTest	Project icon representing F# console test
	FSFileNode	Project icon representing F# file node
	FSHelpApplication	Project icon representing F# help application

Image	KnownMoniker	Description
	FSInteractiveWindow	Project icon representing F# interactive window
	FSInterfaceCollection	Project icon representing F# interface collection
	FSProjectNode	F# project file or project type
	FSScript	Project icon representing F# script
	FSSignatureFile	Project icon representing F# signature file
	FSSilverlightLibrary	Project icon representing F# SilverLight library
	FSTestApplication	Project icon representing F# test application
	FSWCF	Project icon representing F# WCF
	FSWPFApplication	Project icon representing F# WPF application
	FSWPFLibrary	Project icon representing F# WPF library
	FSWPFUserControl	Project icon representing F# WPF user control
	FSWebApplication	Project icon representing F# web application
	FSWindowsFormLibrary	Project icon representing F# windows form library
	FSWindowsService	Project icon representing F# windows service
	FSWorkerTemplateFile	Project icon representing F# worker template file
	FTPConnection	Web icon representing FTP connection
	FTPSites	Web icon representing FTP sites
	FXGFile	Document icon representing FXG file
	FactTable	Database table or data table

Image	KnownMoniker	Description
	FastLineChart	Data icon representing fast line chart
	FastPointChart	Data icon representing fast point chart
	Favorite	Shape icon representing favorite
	Feedback	General feedback mechanism
	FeedbackFrown	Negative feedback indicator
	FeedbackSmile	Positive feedback indicator
	Fetch	Git fetch; retrieve changes from remote without merging
	Field	Code icon representing field
	FieldInternal	Internal field
	FieldMissing	Code icon representing field missing
	FieldPrivate	Private field
	FieldProtected	Protected field
	FieldPublic	Public field
	FieldSealed	Sealed field
	FieldShortcut	Code icon representing field shortcut
	FieldSnippet	Code snippet template
	FigureCaptionTag	Object icon representing figure caption tag
	FileDestination	File or document
	FileDialogReport	File or document

Image	KnownMoniker	Description
	FileEncodingDialog	File or document
	FileGroupDefault	File or document
	FileSummaryDiff	File or document
	FileSystemDriverFile	Document icon representing file system driver file
	FileSystemDriverPackageFile	Document icon representing file system driver package file
	FileSystemEditor	File or document
	FileSystemWatcher	Window icon representing file system watcher
	FileType	Memory icon representing file type
	Fill	Design icon representing fill
	FillOpacity	Design icon representing fill opacity
	FillTransform	Design icon representing fill transform
	FilledCommentMedium	Chat icon representing filled comment medium
	FilledEllipse	Shape icon representing filled ellipse
	FilledFilter	Command icon representing filled filter
	FilledRectangle	Shape icon representing filled rectangle
	FilledRoundedRectangle	Shape icon representing filled rounded rectangle
	Filter	Command icon representing filter
	FilterAlphabetically	Filter items alphabetically
	FilterDescriptor	Document icon representing filter descriptor

Image	KnownMoniker	Description
	FilterDocument	Document file
	FilterFolderClosed	Folder or directory
	FilterFolderOpened	Folder or directory
	FilterPendingChanges	Object icon representing filter pending changes
	FilterPinnedProperties	Command icon representing filter pinned properties
	FilterUser	Filter by user criteria
	FilteredTextBox	Text box with filtering
	FinalState	Window icon representing final state
	FindDown	Command icon representing find down
	FindInFile	File or document
	FindNext	Command icon representing find next
	FindPrevious	Command icon representing find previous
	FindSymbol	Command icon representing find symbol
	Firefox	Mozilla Firefox browser
	FirstIndent	List icon representing first indent
	FirstOfFourColumns	Design icon representing first of four columns
	FirstOfFourRows	Design icon representing first of four rows
	FirstOfThreeColumns	Design icon representing first of three columns
	FirstOfThreeRows	Design icon representing first of three rows

Image	KnownMoniker	Description
	FirstOfTwoColumns	Design icon representing first of two columns
	FirstOfTwoRows	Design icon representing first of two rows
	FitSelection	Design icon representing fit selection
	FitToScreen	Design icon representing fit to screen
	FitToSelection	Design icon representing fit to selection
	FixedLayoutAppApplication	Window icon representing fixed layout app application
	Flag	Diagnostic icon representing flag
	FlagBlue	Diagnostic icon representing flag blue
	FlagDarkBlue	Diagnostic icon representing flag dark blue
	FlagDarkGreen	Diagnostic icon representing flag dark green
	FlagDarkPurple	Diagnostic icon representing flag dark purple
	FlagDarkRed	Diagnostic icon representing flag dark red
	FlagGreen	Diagnostic icon representing flag green
	FlagGroup	Diagnostic icon representing flag group
	FlagOutline	Diagnostic icon representing flag outline
	FlagPurple	Diagnostic icon representing flag purple
	FlagRed	Diagnostic icon representing flag red
	FlagTurquoise	Diagnostic icon representing flag turquoise
	FlagYellow	Diagnostic icon representing flag yellow

Image	KnownMoniker	Description
	FlatCap	Design icon representing flat cap
	FlatList	UI icon representing flat list
	FlatPivot	UI icon representing flat pivot
	FlatView	Shape icon representing flat view
	FlipHorizontal	Design icon representing flip horizontal
	FlipVertical	Design icon representing flip vertical
	FlipZOrder	Design icon representing flip z order
	FloppyDrive	Command icon representing floppy drive
	FlowAggregation	Shape icon representing flow aggregation
	FlowDecision	Shape icon representing flow decision
	FlowLayoutPanel	UI panel or container
	FlowSwitch	Shape icon representing flow switch
	Flower	Data icon representing flower
	FluidLayout	Object icon representing fluid layout
	FocusUser	Focus on specific user
	FolderBottomPanel	Folder or directory
	FolderBrowserDialogControl	Folder or directory
	FolderClosed	Folder or directory
	FolderClosedBlue	Folder or directory

Image	KnownMoniker	Description
	FolderClosedLightBlue	Folder or directory
	FolderClosedOrange	Folder or directory
	FolderClosedPurple	Folder or directory
	FolderClosedRed	Folder or directory
	FolderClosedTeal	Folder or directory
	FolderCodeAnalysis	Folder or directory
	FolderError	Error indicator for folder
	FolderGrey	Folder or directory
	FolderInformation	Information about folder
	FolderOffline	Folder or directory
	FolderOpenBlue	Folder or directory
	FolderOpenLightBlue	Folder or directory
	FolderOpenOrange	Folder or directory
	FolderOpenPurple	Folder or directory
	FolderOpenRed	Folder or directory
	FolderOpenTeal	Folder or directory
	FolderOpened	Folder or directory
	FolderOpenedNoColor	FolderOpened icon in neutral or monochrome style
	FolderOpenedWarning	Warning indicator for folder opened

Image	KnownMoniker	Description
	FolderSuppressed	Folder or directory
	FolderTopPanel	Folder or directory
	FolderWarning	Warning indicator for folder
	Font	Character icon representing font
	FontColor	Character icon representing font color
	FontDialogControl	UI control element
	FontFile	Document icon representing font file
	FontIcon	Character icon representing font icon
	FontSize	Character icon representing font size
	ForEach	For-each loop or iteration construct
	ForEachLoop	For-each loop control flow structure
	ForceDirectedLayout	Shape icon representing force directed layout
	ForegroundColor	Design icon representing foreground color
	ForeignKey	Object icon representing foreign key
	ForeignKeyConstraintError	Error indicator for foreign key constraint
	ForeignKeyConstraintWarning	Warning indicator for foreign key constraint
	ForeignKeyError	Error indicator for foreign key
	ForeignKeyRelationship	Object icon representing foreign key relationship
	ForeignKeyWarning	Warning indicator for foreign key

Image	KnownMoniker	Description
	Fork	Code icon representing fork
	ForkNode	Flow icon representing fork node
	FormDigest	Web icon representing form digest
	FormInstance	Window icon representing form instance
	FormPostBodyParameterNode	Character icon representing form post body parameter node
	FormPostBodyStringNode	Character icon representing form post body string node
	FormTag	Flow icon representing form tag
	FormatDocument	Document file
	FormatPageLeft	Page or document page
	FormatPageRight	Page or document page
	FormatSelection	Document icon representing format selection
	FormattingToolbar	Toolbar or tool panel
	Forwards	Navigate or move forwards
	Forwardslash	Character icon representing forward slash
	FourColumns	Design icon representing four columns
	FourRows	Design icon representing four rows
	FourthOfFourColumns	Design icon representing fourth of four columns
	FourthOfFourRows	Design icon representing fourth of four rows
	Fragment	Flow icon representing fragment

Image	KnownMoniker	Description
	FrameBorder	Design icon representing frame border
	FrameContainer	Flow icon representing frame container
	FrameSelect	Shape icon representing frame select
	FrameSet	Flow icon representing frame set
	Framework	Object icon representing framework
	FrameworkDesignStudio	Window icon representing framework design studio
	FrameworkError	Error indicator for framework
	FrameworkPrivate	Private framework
	FrameworkWarning	Warning indicator for framework
	FreezeRow	Database row or data row
	FullScreen	Design icon representing full screen
	FullTextStopList	List icon representing full text stop list
	FunctionMissing	Character icon representing function missing
	FunctionWarning	Warning indicator for function
	FunnelChart	Data icon representing funnel chart
	FuzzyGrouping	Code icon representing fuzzy grouping
	FuzzyLookup	Window icon representing fuzzy lookup
	Gallery	UI icon representing gallery
	GanttChart	Data icon representing gantt chart

Image	KnownMoniker	Description
	GaugeLinear	Flow icon representing gauge linear
	GaugeRound	Object icon representing gauge round
	GaugeRoundSparkle	AI monitoring or performance insights; a gauge with sparkle indicates automated optimization
	GeminiEntryPoint	Device icon representing gemini entry point
	GenerateAllFromTemplate	Template file or pattern
	GenerateAndRecordCode	Code icon representing generate and record code
	GenerateChangeScript	Document icon representing generate change script
	GenerateCodeFromRecording	Code icon representing generate code from recording
	GenerateDependencies	Command icon representing generate dependencies
	GenerateFile	File or document
	GenerateMethod	Method or function declaration
	GenerateResource	Object icon representing generate resource
	GenerateTable	Database table or data table
	GenerateThumbnail	Object icon representing generate thumbnail
	GenericChart	Data icon representing generic chart
	GenericOnlineTemplate	Window icon representing generic online template
	GenericTask	Flow icon representing generic task
	GetAccessFormat	Get or retrieve access format
	GetDataFeedFormat	Get or retrieve data feed format

Image	KnownMoniker	Description
	GetDatabaseFormat	Get or retrieve database format
	GetDictionary	Retrieve dictionary
	GetDocumentFormat	Get or retrieve document format
	GetDynamicValueProperty	Get or retrieve dynamic value property
	GetDynamicValuePropertyGroup	Get or retrieve dynamic value property group
	GetExcelFormat	Get or retrieve excel format
	GetFromCollection	Get or retrieve from collection
	GetLatestVersion	Get or retrieve latest version
	GetPerformanceData	Get or retrieve performance data
	GetReportFormat	Get or retrieve report format
	GetSpecificVersion	Get or retrieve specific version
	GetTextFormat	Get or retrieve text format
	GetWebSite	Web application or service
	Git	Git version control system
	GitHub	GitHub version control platform
	GitHubCodespaces	Brand icon used for 3rd party product or feature integration inside Visual Studio
	GitHubCopilot	GitHub Copilot AI assistant
	GitHubOpenIssue	Code icon representing git hub open issue
	GitNoColor	Git icon in neutral or monochrome style

Image	KnownMoniker	Description
	GitRepository	Brand icon used for 3rd party product or feature integration inside Visual Studio
	GitToolWindow	Brand icon used for 3rd party product or feature integration inside Visual Studio
	GlobalCalendar	Object icon representing global calendar
	GlobalVariable	Web icon representing global variable
	GlyphDown	Small glyph pointing downward
	GlyphLeft	Small glyph pointing left
	GlyphRight	Small glyph pointing right
	GlyphUp	Small glyph pointing upward
	GoOutAvailability	Data icon representing go out availability
	GoOutDashboard	Object icon representing go out dashboard
	GoOutPerformanceTrend	Device icon representing go out performance trend
	GoOutUsage	Navigate to usage location
	GoToBottom	Scroll or navigate to the bottom/end of a list or document
	GoToCurrentLine	List icon representing go to current line
	GoToDeclaration	List icon representing go to declaration
	GoToDefinition	Object icon representing go to definition
	GoToEvent	Event declaration or handler
	GoToField	Code icon representing go to field
	GoToFirst	Jump to the first item/page in a sequence

Image	KnownMoniker	Description
	GoToHotSpot	Object icon representing go to hot spot
	GoToLast	Jump to the last item/page in a sequence
	GoToMethod	Method or function declaration
	GoToNext	Navigate to next item or page
	GoToNextComment	Chat icon representing go to next comment
	GoToNextInList	List icon representing go to next in list
	GoToNextModified	Command icon representing go to next modified
	GoToNextUncovered	List icon representing go to next uncovered
	GoToPrevious	Navigate to previous item or page
	GoToPreviousComment	Chat icon representing go to previous comment
	GoToPreviousInList	List icon representing go to previous in list
	GoToPreviousModified	Command icon representing go to previous modified
	GoToProperty	Property or field member
	GoToRecordedTestSession	Object icon representing go to recorded test session
	GoToReference	Object icon representing go to reference
	GoToRow	Database row or data row
	GoToSourceCode	Code icon representing go to source code
	GoToTask	Document icon representing go to task
	GoToTop	Scroll or navigate to the top/start of a list or document

Image	KnownMoniker	Description
	GoToTypeDefinition	Object icon representing go to type definition
	GoToWebTest	Web application or service
	GoToWorkItem	Document icon representing go to work item
	Google	Brand icon used for 3rd party product or feature integration inside Visual Studio
	GotoPreviousUncovered	List icon representing goto previous uncovered
	GraphBottomToTop	Data icon representing graph bottom to top
	GraphLeftToRight	Data icon representing graph left to right
	GraphRightToLeft	Data icon representing graph right to left
	GraphTopToBottom	Data icon representing graph top to bottom
	GreenChannel	Character icon representing green channel
	Grid	Design icon representing grid
	GridApplication	Window icon representing grid application
	GridDark	Design icon representing grid dark
	GridDetailView	Design icon representing grid detail view
	GridGuide	UI icon representing grid guide
	GridLayoutDIV	UI icon representing grid layout div
	GridLight	Design icon representing grid light
	GridSplitter	UI icon representing grid splitter
	GridViewMoCo	Grid view with motion control

Image	KnownMoniker	Description
	Group	Design icon representing group
	GroupBox	Character icon representing group box
	GroupBy	Command icon representing group by
	GroupByAccess	Object icon representing group by access
	GroupByClause	Flow icon representing group by clause
	GroupByType	Command icon representing group by type
	GroupClause	Flow icon representing group clause
	GroupedGridViewMoCo	Grouped grid view with motion control
	GroupedListView	List icon representing grouped list view
	Grpc	gRPC remote procedure call
	HPCPerformanceSessionWizard	Data icon representing HPC performance session wizard
	HTMLDesignView	Code icon representing HTML design view
	HTMLEndTag	Code icon representing HTML end tag
	HTMLError	Error indicator for HTML
	HTMLFile	Code icon representing HTML file
	HTMLTagBDI	Code icon representing HTML tag BDI
	HTMLTagBDO	Code icon representing HTML tag BDO
	HTMLTagBR	Code icon representing HTML tag BR
	HTMLTagComment	Code icon representing HTML tag comment

Image	KnownMoniker	Description
	HTMLtag	Code icon representing HTML tag
	HTTPConnection	Web icon representing HTTP connection
	HanCharacter	Character icon representing han character
	HardDrive	Device icon representing hard drive
H5	HeadingFive	Character icon representing heading five
H4	HeadingFour	Character icon representing heading four
H1	HeadingOne	Character icon representing heading one
H3	HeadingThree	Character icon representing heading three
H2	HeadingTwo	Character icon representing heading two
	Health	Data icon representing health
	HelpApplication	Window icon representing help application
	HelpIndexFile	Document icon representing help index file
	HelpLibraryManager	UI icon representing help library manager
	HelpTableOfContents	Help documentation table of contents
	Hexagon	Shape icon representing hexagon
	HiddenField	Character icon representing hidden field
	HiddenFile	File or document
	HiddenFolderClosed	Folder or directory
	HiddenFolderOpened	Folder or directory

Image	KnownMoniker	Description
	HiddenInput	Character icon representing hidden input
	HideCommentGroup	Chat icon representing hide comment group
	HideMember	Design icon representing hide member
	HideRedundantMerges	Flow icon representing hide redundant merges
	HideSelectedThreads	Diagnostic icon representing hide selected threads
	HideUnselectedThreads	Diagnostic icon representing hide unselected threads
	Hierarchy	Data icon representing hierarchy
	HierarchyTracking	Data icon representing hierarchy tracking
	HierarchyVariable	Data icon representing hierarchy variable
	HighContrast	Design icon representing high contrast
	HighlightText	Character icon representing highlight text
	Highlighter	Character icon representing highlighter
	HistogramVisualizer	Data icon representing histogram visualizer
	HistoricCallReturn	Diagnostic icon representing historic call return
	HistoricInstructionPointer	Diagnostic icon representing historic instruction pointer
	History	Object icon representing history
	HistoryListId	Object icon representing history list id
	Home	Object icon representing home
	HorizontalLine	Character icon representing horizontal line

Image	KnownMoniker	Description
	HorizontalScrollBar	UI icon representing horizontal scroll bar
	HorizontalScrollView	Object icon representing horizontal scroll viewer
	HorizontalSlicers	UI icon representing horizontal slicers
	HotReload	Object icon representing hot reload
	HotSpot	Object icon representing hot spot
	HoverMenu	Menu displayed on hover
	HttpSend	Web icon representing http send
	Hub	Data icon representing hub
	HubPageTemplate	UI icon representing hub page template
	HyperLink	Hyperlink to web resource
	HyperlinkBack	Navigate back from hyperlink
	HyperlinkFollow	Follow hyperlink to destination
	HyperlinkForward	Navigate forward through hyperlink history
	IDRLibraryFile	IDR library file
	IE	Internet Explorer browser
	IE11	Internet Explorer 11
	IEPhone	Internet Explorer for Phone
	IFrame	Window icon representing i frame
	IPAddressControl	UI control element for IP address

Image	KnownMoniker	Description
	ISCatalog	Device icon representing IS catalog
	Ice	Data icon representing ice
	IconFile	Document icon representing icon file
	IconView	Window icon representing icon view
	IdBadge	Document icon representing id badge
	If	Flow icon representing if
	IgnoreTrimWhiteSpace	Design icon representing ignore trim white space
	Image	Object icon representing image
	ImageButton	Object icon representing image button
	ImageChisel	Object icon representing image chisel
	ImageCrop	Design icon representing image crop
	ImageGenerator	Object icon representing image generator
	ImageGroup	Object icon representing image group
	ImageIcon	Object icon representing image icon
	ImageLoader	Object icon representing image loader
	ImageMap	Design icon representing image map
	ImageMapFile	Document icon representing image map file
	ImagePixel	Object icon representing image pixel
	ImageTest	Object icon representing image test

Image	KnownMoniker	Description
	ImmediateWindow	UI icon representing immediate window
	ImplementInterface	Interface definition
	Implemented	Code icon representing implemented
	ImplementedOverridden	Code icon representing implemented overridden
	Implementing	Code icon representing implementing
	ImplementingImplemented	Code icon representing implementing implemented
	ImplementingOverridden	Code icon representing implementing overridden
	ImplementingOverriding	Code icon representing implementing overriding
	Import	Import data or content from external source
	ImportCatalogPart	Flow icon representing import catalog part
	ImportFilter	Command icon representing import filter
	ImportSettings	Object icon representing import settings
	InUseByOtherUser	Resource locked by another user
	Include	Include directive or file inclusion
	IncreaseBrightness	Design icon representing increase brightness
	IncreaseContrast	Design icon representing increase contrast
	IncreaseDecimals	Character icon representing increase decimals
	IncreaseFontSize	Character icon representing increase font size
	IncreaseHorizontalSpacing	Design icon representing increase horizontal spacing

Image	KnownMoniker	Description
	IncreaseIndent	List icon representing increase indent
	IncreaseVerticalSpacing	Design icon representing increase vertical spacing
	InferSharp	InferSharp static analyzer
	Infinity	Infinity symbol or unlimited
	InfoTipInline.11.11	Status icon representing info tip inline
	InfraredDevice	Device icon representing infrared device
	Inheritance	Inheritance relationship in object-oriented design
	InheritedForm	Window icon representing inherited form
	InheritedUserControl	User control with inheritance
	InitialNode	Shape icon representing initial node
	InitializeCorrelation	Command icon representing initialize correlation
	InitializeGitRepository	Brand icon used for 3rd party product or feature integration inside Visual Studio
	InkCanvas	Design icon representing ink canvas
	InkPresenter	Design icon representing ink presenter
	Inline	Document icon representing inline
	Input	Flow icon representing input
	InputParameter	Character icon representing input parameter
	InputPin	Flow icon representing input pin
	InsertClause	Flow icon representing insert clause

Image	KnownMoniker	Description
	InsertLayer	Flow icon representing insert layer
	InsertMark	Flow icon representing insert mark
	InsertOWSListField	Flow icon representing insert OWS list field
	InsertPage	Page or document page
	InsertPanel	UI panel or container
	InsertParameter	Character icon representing insert parameter
	InsertSharedStep	Object icon representing insert shared step
	InsertSpan	UI icon representing insert span
	InsertStep	Object icon representing insert step
	InsideBorder	Design icon representing inside border
	InsideHorizontalBorder	Design icon representing inside horizontal border
	InsideVerticalBorder	Design icon representing inside vertical border
	Inspect	Inspect element or examine properties
	InspectMode	Mode for inspecting UI elements
	Install	Device icon representing install
	InstallShield	InstallShield installer
	InstallerClass	Class definition or type in code structure
	Instance	Document icon representing instance
	IntelliSenseDatabase	Device icon representing IntelliSense database

Image	KnownMoniker	Description
	IntelliSenseKeyword	Code icon representing intelli sense keyword
	IntelliTraceEvent	Flow icon representing intelli trace event
	IntelliCode	IntelliCode AI-assisted development
	IntelliCodeModelManagement	IntelliCode model management
	IntellisenseLightBulb	Code icon representing intellisense light bulb
	IntellisenseLightBulb.12.12	Code icon representing intellisense light bulb.12.12
	IntellisenseLightBulbError	Error indicator for intellisense light bulb
	IntellisenseLightBulbSparkle	AI suggestions within Intellisense or quick actions; smarter code completions and refactorings
	IntellisenseWarning	Warning indicator for IntelliSense
	IntellitraceCurrentStack	Flow icon representing intellitrace current stack
	IntellitraceGoLive	Diagnostic icon representing intellitrace go live
	IntellitraceLog	IntelliTrace diagnostic log
	IntellitraceStepBack	IntelliTrace debugger step backward in time
	IntellitraceStepInto	IntelliTrace debugger step into next function call
	IntellitraceStepOut	IntelliTrace debugger step out of current function
	IntellitraceStepOver	IntelliTrace debugger step over current line
	IntellitraceTracepoint	Trace or diagnostic logging
	InterOp	Window icon representing inter op
	InteractionUse	Flow icon representing interaction use

Image	KnownMoniker	Description
	InteractiveMode	Interactive user mode
	Interface	Interface definition
	InterfaceFile	File or document
	InterfaceInternal	Interface definition
	InterfacePrivate	Interface definition
	InterfaceProtected	Interface definition
	InterfacePublic	Interface definition
	InterfaceSealed	Interface definition
	InterfaceShortcut	Interface definition
	InterfaceSnippet	Interface definition
	InternalInfoFile	File or document
	IntersectPath	Design icon representing intersect path
	InvokeDelegate	Delegate type definition
	InvokeMethod	Method or function declaration
	InvokeTable	Database table or data table
	IrregularSelection	Non-rectangular selection shape
	IsEmptyDynamicValue	Object icon representing is empty dynamic value
	Italic	Character icon representing italic
	Item	Object icon representing item

Image	KnownMoniker	Description
	ItemAddedAssociation	Flow icon representing item added association
	ItemID	Object icon representing item i d
	ItemListView	UI icon representing item list view
	ItemUpdatedAssociation	Flow icon representing item updated association
	JARFile	File or document
	JSAPI	Project icon representing JavaScript API
	JSApplication	Project icon representing JavaScript application
	JSBlankApplication	Project icon representing JavaScript blank application
	JSCoffeeScript	Project icon representing JavaScript coffee script
	JSConsole	Project icon representing JavaScript console
	JSCordovaMultiDevice	Project icon representing JavaScript cordova multi device
	JSFixedLayoutApplication	Project icon representing JavaScript fixed layout application
	JSGridApplication	Project icon representing JavaScript grid application
	JSHubApplication	Project icon representing JavaScript hub application
	JSInteractiveWindow	Project icon representing JavaScript interactive window
	JSNavigationApplication	Project icon representing JavaScript navigation application
	JSONScript	Project icon representing JSON file
	JSPhone	Project icon representing JavaScript phone
	JSPhoneError	Error indicator for JavaScript phone

Image	KnownMoniker	Description
	JSProjectNode	JavaScript project file or project type
	JSScript	Project icon representing JavaScript script
	JSSharedProject	JavaScript shared project file or project type
	JSSplitApplication	Project icon representing JavaScript split application
	JSTablet	Project icon representing JavaScript tablet
	JSWebScript	Project icon representing JavaScript web script
	JSXScript	Project icon representing JSX script
	JavaSource	Project icon representing Java source
	Join	Join operation or merge point
	JoinNode	Node representing join or merge operation
	JournalMessage	Journal or log message entry
	JsonFile	Project icon representing JSON file
	JustMyCode	Debug mode showing only user code
	KPI	Data icon representing KPI
	KPIBrowserView	Database view or data view
	KPIWarning	Warning indicator for KPI
	KagiChart	Data icon representing kagi chart
	KeepTargetVersion	Document icon representing keep target version
	Key	Object icon representing key

Image	KnownMoniker	Description
	KeyColumn	Database column or data column
	KeyVault	Azure Key Vault secrets management
	KeyVertical	Object icon representing key vertical
	Keyboard	Device icon representing keyboard
	KeywordSnippet	Code snippet template
	LESSStyleSheet	Document icon representing less style sheet
	LOBSystemInstance	Flow icon representing LOB system instance
	Label	Text label or identifier
	LandingPage	UI icon representing landing page
	LanguagePackage	Language pack or localization
	Large	Shape icon representing large
	LastHistoryCommand	List icon representing last history command
	LaunchConditionsEditor	Document icon representing launch conditions editor
	LaunchInstrumentationTargetBinary	Character icon representing launch instrumentation target binary
	LaunchSamplingTarget	Document icon representing launch sampling target
	Layer	Shape icon representing layer
	LayerDiagram	Object icon representing layer diagram
	LayerFillSlider	UI icon representing layer fill slider
	LayoutEditorPart	Document icon representing layout editor part

Image	KnownMoniker	Description
	LayoutPanel	UI panel or container
	LayoutPoints	Design icon representing layout points
	LayoutTransform	Design icon representing layout transform
	LeftArrowAsterisk	Character icon representing left arrow asterisk
	LeftBorder	Design icon representing left border
	LeftCarriageReturn	Character icon representing left carriage return
	LeftColumnOfTwoColumnsRightSplit	Design icon representing left column of two columns right split
	LeftSideOnly	Document icon representing left side only
	LegacyPackage	Document icon representing legacy package
	Legend	Document icon representing legend
	LevelAll	Flow icon representing level all
	LevelEight	Design icon representing level eight
	LevelEleven	Design icon representing level eleven
	LevelFive	Design icon representing level five
	LevelFour	Design icon representing level four
	LevelNine	Design icon representing level nine
	LevelOne	Design icon representing level one
	LevelSeven	Design icon representing level seven
	LevelSix	Design icon representing level six

Image	KnownMoniker	Description
	LevelTen	Design icon representing level ten
	LevelThree	Design icon representing level three
	LevelTwelve	Design icon representing level twelve
	LevelTwo	Design icon representing level two
	LibraryApplication	Library application project
	Library	Code library or module collection
	LibraryEnvironment	Library development environment
	LibraryError	Error related to library
	LibrarySettings	Library configuration settings
	LibraryWarning	Warning related to library
	Lifeline	Flow icon representing lifeline
	LightSwitch	Object icon representing light switch
	LightswitchLibrary	LightSwitch application library
	LikeDislike	Like or dislike feedback
	LineArrow	Simple line with arrow
	LineChart	Data icon representing line chart
	LineMarker	UI icon representing line marker
	LineSeparator	UI icon representing line separator
	LinearAxis	Character icon representing linear axis

Image	KnownMoniker	Description
	LinearCarousel	UI icon representing linear carousel
	Link	Command icon representing link
	LinkAlert	Command icon representing link alert
	LinkButton	Button styled as hyperlink
	LinkFile	File or document
	LinkValidator	Command icon representing link validator
	LinkVertical	Command icon representing link vertical
	LinkedDatabase	Device icon representing linked database
	LinkedDimension	Object icon representing linked dimension
	LinkedFolderClosed	Folder or directory
	LinkedFolderOpened	Folder or directory
	LinkedMeasureGroup	Data icon representing linked measure group
	LinkedObjectWizard	Shape icon representing linked object wizard
	LinkedServer	Device icon representing linked server
	ListBox	UI icon representing list box
	ListBoxSearch	UI icon representing list box search
	ListDefinition	Window icon representing list definition
	ListDetails	Project icon representing list details
	ListID	Window icon representing list ID

Image	KnownMoniker	Description
	ListMembers	List icon representing list members
	ListProperty	Window icon representing list property
	ListTimePicker	Document icon representing list time picker
	ListView	Document icon representing list view
	ListViewMoCo	Document icon representing list view mo co
	ListViewTable	Database table or data table
	Literal	Character icon representing literal
	LiveDataSource	Device icon representing live data source
	LiveSessionHost	Web icon representing live session host
	LiveShare	Utility icon representing live share
	LiveShareReadOnly	Utility icon representing live share read only
	LiveUnitTesting	Object icon representing live unit testing
	LoadTest	Load test
	LoadTestPlugin	Load test plugin
	Loading	Load ing
	LocalIISSite	Device icon representing local IIS site
	LocalResources	Document icon representing local resources
	LocalServer	Device icon representing local server
	LocalServerAudit	Device icon representing local server audit

Image	KnownMoniker	Description
	LocalServerWarning	Warning indicator for local server
	LocalTest	Device icon representing local test
	LocalVariable	Variable declaration or reference
	Localize	Web icon representing localize
	LocalsWindow	Code icon representing locals window
	LocateAll	Command icon representing locate all
	LocateControl	UI control element
	Lock	Object icon representing lock
	LockXAxis	Lock X-axis transformation
	LockYAxis	Lock Y-axis transformation
	LockZAxis	Lock Z-axis transformation
	LockedLink	Command icon representing locked link
	Log	Log file or logging facility
	LogError	Error entry in log
	LogPopulation	Populate log with data
	LogPopulationError	Error during log population
	LogPopulationWarning	Warning during log population
	LogProperty	Log property or attribute
	LogProvider	Provider for logging services

Image	KnownMoniker	Description
	LogWarning	Warning entry in log
	LoginName	User login name field
	LoginScreen	Window icon representing login screen
	LoginStatus	Object icon representing login status
	LoginUser	User login or authentication
	LoginWindowsAuthentication	Device icon representing login windows authentication
	LookupChoiceFieldIndex	Flow icon representing lookup choice field index
	LookupGroup	Look up group information
	LookupGroupMembers	Look up members of a group
	LookupList	Window icon representing lookup list
	LookupListItem	Object icon representing lookup list item
	LookupListItemId	Object icon representing lookup list item id
	LookupPrincipal	Look up security principal
	LookupPrincipalId	Look up principal identifier
	LookupPrincipalProperty	Look up principal property
	LookupUser	Look up user information
	LookupUserProperty	Look up user property value
	LookupWorkflowContextProperty	Flow icon representing lookup workflow context property
	MCP	Brand icon used for 3rd party product or feature integration inside Visual Studio

Image	KnownMoniker	Description
	MDIParent	Window icon representing MDI parent
	MDXQuery	Database query or data query
	MFC	Project icon representing MFC (Microsoft Foundation Class)
	MFCActiveX	Project icon representing MFC (Microsoft Foundation Class) active x
	MFCApplication	Window icon representing MFC application
	MFCClass	Project icon representing MFC (Microsoft Foundation Class) class
	MFCClassWizard	Project icon representing MFC (Microsoft Foundation Class) wizard
	MFCDatabase	Project icon representing MFC (Microsoft Foundation Class) database
	MFCDynamicLibrary	Project icon representing MFC (Microsoft Foundation Class) dynamic library
	MFCLibrary	Project icon representing MFC (Microsoft Foundation Class) library
	MSDN	Microsoft Developer Network
	MSMQConnection	Document icon representing MSMQ connection
	MTLFile	File or document
	MachineLearningModel	Machine learning model
	MacroInternal	Internal macro
	MacroPrivate	Private macro
	MacroProtected	Protected macro
	MacroPublic	Public macro
	MacroSealed	Sealed macro

Image	KnownMoniker	Description
	MacroShortcut	Code icon representing macro shortcut
	MageProduct	Document icon representing mage product
	MagicWand	Design icon representing magic wand
	MailNotification	Document icon representing mail notification
	MainMenuControl	UI control element
	MakeFile	Window icon representing make file
	MakeSameHeight	Design icon representing make same height
	MakefileApplication	Window icon representing makefile application
	ManageCounterSets	Flow icon representing manage counter sets
	ManifestFile	File or document
	ManualTest	Object icon representing manual test
	ManyToMany	Many-to-many relationship
	MapInternal	Internal map
	MapItemInternal	Internal map item
	MapItemPrivate	Private map item
	MapItemProtected	Protected map item
	MapItemPublic	Public map item
	MapItemSealed	Sealed map item
	MapItemShortcut	Code icon representing map item shortcut

Image	KnownMoniker	Description
	MapLayerWizard	Design icon representing map layer wizard
	MapLineLayer	Design icon representing map line layer
	MapPolygonLayer	Design icon representing map polygon layer
	MapPrivate	Private map
	MapProtected	Protected map
	MapPublic	Public map
	MapSealed	Sealed map
	MapShortcut	Code icon representing map shortcut
	MapTileLayer	Design icon representing map tile layer
	MapToFolder	Folder or directory
	MapWizard	Web icon representing map wizard
	MappedBreakpointDisabled	Debugger breakpoint
	MappedBreakpointEnabled	Debugger breakpoint
	MappedTracepointDisabled	Trace or diagnostic logging
	MappedTracepointEnabled	Trace or diagnostic logging
	MarginPadding	UI icon representing margin padding
	MarkdownFile	File or document
	MarkupTag	Code icon representing markup tag
	MarkupWPF	Code icon representing markup WPF

Image	KnownMoniker	Description
	MarkupXML	Code icon representing markup XML
	MaskedTextBox	Character icon representing masked text box
	MasterPage	Window icon representing master page
	MatchBrace	Flow icon representing match brace
	MatchCase	Character icon representing match case
	MatchTag	Code icon representing match tag
	MatchType	Flow icon representing match type
	MaterialDiffuse	Design icon representing material diffuse
	MaterialEmissive	Design icon representing material emissive
	MaterialSpecular	Design icon representing material specular
	Matrix	Data icon representing matrix
	Measure	Data icon representing measure
	MeasureCalculate	Data icon representing measure calculate
	MeasureExpression	Data icon representing measure expression
	MeasureTree	Data icon representing measure tree
	MeasureWH	Design icon representing measure w h
	Media	Diagnostic icon representing media
	MediaZoom	Object icon representing media zoom
	Medium	Shape icon representing medium

Image	KnownMoniker	Description
	MeesageGroupError	Error indicator for meesage group
	Megaphone	Object icon representing megaphone
	Member	Object icon representing member
	MemberData	Object icon representing member data
	MemberError	Error indicator for member
	MemberFilter	Object icon representing member filter
	MemberFolderClosed	Folder or directory
	MemberFolderOpened	Folder or directory
	MemberFormula	Object icon representing member formula
	MemberVariable	Object icon representing member variable
	Memory	Memory icon representing memory
	MemoryArray	Memory icon representing memory array
	MemoryConfiguration	Memory icon representing memory configuration
	MemoryWindow	Memory icon representing memory window
	MenuBar	Project icon representing menu bar
	MenuItem	Menu or menu item
	MenuItemCustomAction	Menu or menu item
	MenuSeparator	Menu or menu item
	Merge	Code icon representing merge

Image	KnownMoniker	Description
	MergeChangesWithTool	Code icon representing merge changes with tool
	MergeModule	Code icon representing merge module
	MergeModuleExcluded	Code icon representing merge module excluded
	MergeModuleReference	Object icon representing merge module reference
	MergeModuleReferenceExcluded	Object icon representing merge module reference excluded
	Message	Document icon representing message
	MessageBubble	Chat icon representing message bubble
	MessageError	Error indicator for message
	MessageLogTrace	Document icon representing message log trace
	MessageOK	Document icon representing message o k
	MessageQueue	Document icon representing message queue
	MessageQueueError	Error indicator for message queue
	MessageQueueWarning	Warning indicator for message queue
	MessageType	Document icon representing message type
	MessageTypeError	Error indicator for message type
	MessageTypeWarning	Warning indicator for message type
	MetaTag	Object icon representing meta tag
	Metadata	Shape icon representing metadata
	Method	Method or function declaration

Image	KnownMoniker	Description
	MethodInstance	Method or function declaration
	MethodInternal	Method or function declaration
	MethodMissing	Method or function declaration
	MethodPrivate	Method or function declaration
	MethodProtected	Method or function declaration
	MethodPublic	Method or function declaration
	MethodSealed	Method or function declaration
	MethodSet	Method or function declaration
	MethodShortcut	Method or function declaration
	MethodSnippet	Method or function declaration
	MicrophoneTalking	Device icon representing microphone talking
	Microsoft365	Microsoft 365 productivity suite
	Minimap	Design icon representing minimap
	MissingFile	File or document
	MissingFolderClosed	Folder or directory
	MissingFolderOpened	Folder or directory
	MiterJoint	Design icon representing miter joint
	MockupComponentGreen	Design icon representing mockup component green
	ModalPicker	Window icon representing modal picker

Image	KnownMoniker	Description
	ModalPopup	Window icon representing modal popup
	ModelThreeD	Shape icon representing model 3D
	ModifyClass	Class definition or type in code structure
	ModifyClassTrivial	Class definition or type in code structure
	ModifyEvent	Event declaration or handler
	ModifyField	Code icon representing modify field
	ModifyFieldTrivial	Code icon representing modify field trivial
	ModifyMethod	Method or function declaration
	ModifyMethodTrivial	Method or function declaration
	ModifyProperty	Property or field member
	ModifyPropertyTrivial	Property or field member
	ModifyQueryDelete	Database query or data query
	ModifyQueryInsertResults	Database query or data query
	ModifyQueryInsertValues	Database query or data query
	ModifyQueryUpdate	Database query or data query
	ModifyWorkflow	Flow icon representing modify workflow
	Module	Code icon representing module
	ModuleError	Error indicator for module
	ModuleFile	File or document

Image	KnownMoniker	Description
	ModuleInternal	Internal module
	ModulePrivate	Private module
	ModuleProtected	Protected module
	ModulePublic	Public module
	ModuleSealed	Sealed module
	ModuleShortcut	Code icon representing module shortcut
	ModulesWindow	Window or panel in UI
	MoneyEditor	Object icon representing money editor
	Monitor	Computer monitor or display
	MonthCalendar	Object icon representing month calendar
	Motherboard	Memory icon representing motherboard
	MountainChart	Data icon representing mountain chart
	MoveClass	Class definition or type in code structure
	MoveDown	Move item or selection downward; reorder or navigate to next position
	MoveEvent	Event declaration or handler
	MoveField	Code icon representing move field
	MoveGlyph	Glyph indicating move operation
	MoveMethod	Method or function declaration
	MoveProperty	Property or field member

Image	KnownMoniker	Description
	MoveToFolder	Folder or directory
	MoveUp	Move item or selection upward; reorder or navigate to previous position
	MultiFileConnection	File or document
	MultiFlatFileConnection	File or document
	MultiScaleImage	UI icon representing multi scale image
	MultiView	UI icon representing multi view
	MultipleOutputExcluded	Flow icon representing multiple output excluded
	MultiplyMember	Object icon representing multiply member
	MultiplyMemberFormula	Object icon representing multiply member formula
	MuteMicrophone	Device icon representing mute microphone
	MutuallyExclusiveCheckbox	UI icon representing mutually exclusive checkbox
	MyMoviesTV	Object icon representing my movies t v
	NPM	Node Package Manager
	NPMError	Error indicator for NPM
	NPMNoColor	NPM package manager without color
	NPMPrivate	NPM private package registry
	NPMWarning	Warning indicator for NPM
	NaiveBayes	Data icon representing naive bayes
	NamedSet	Code icon representing named set

Image	KnownMoniker	Description
	Namespace	Namespace or package container
	NamespaceInternal	Namespace or package container
	NamespacePrivate	Namespace or package container
	NamespaceProtected	Namespace or package container
	NamespacePublic	Namespace or package container
	NamespaceSealed	Namespace or package container
	NamespaceShortcut	Namespace or package container
	NamespaceSnippet	Namespace or package container
	NavigateElement	UI icon representing navigate element
	NavigateExternalInlineNoHalo	Design icon representing navigate external inline no halo
	NavigateMenu	Window icon representing navigate menu
	NavigateToSnapshot	Device icon representing navigate to snapshot
	NavigationApplication	Window icon representing navigation application
	NavigationPane	Project icon representing navigation pane
	NavigationPath	UI icon representing navigation path
	NavigationProperty	Flow icon representing navigation property
	NeighborhoodBrowseMode	Data icon representing neighborhood browse mode
	NestSelectedTreeView	Database view or data view
	NestedTable	Database table or data table

Image	KnownMoniker	Description
	NestedTreeView	Database view or data view
	Network	Utility icon representing network
	NetworkAdapter	Memory icon representing network adapter
	NetworkAdapterConfiguration	Memory icon representing network adapter configuration
	NetworkNDISDriver	Object icon representing network NDIS driver
	NetworkNDISDriverPackage	Object icon representing network NDIS driver package
	NetworkTower	Web icon representing network tower
	NeuralNetwork	Data icon representing neural network
	New	Create new
	NewAggregation	Create new aggregation
	NewAttachedDocument	Create new attached document
	NewAttribute	Create new attribute
	NewAttributeRelationship	Create a new attribute relationship between elements
	NewAvailability	Create new availability
	NewBottomFrame	Create new bottom frame
	NewBranch	Create new branch
	NewBug	Create new bug
	NewCalculatedColumn	Create new calculated column
	NewCalculatedMember	Create new calculated member

Image	KnownMoniker	Description
	NewChangeset	Create new changeset
	NewClass	Create new class
	NewCommentGroup	Create new comment group
	NewConnection	Create new connection
	NewConsoleApplication	Create new console application
	NewConstant	Create new constant
	NewCookieCutter	Create new cookie cutter
	NewCounterSet	Create new counter set
	NewCubeSlice	Create new cube slice
	NewCustomExpression	Create new custom expression
	NewDashboard	Create new dashboard
	NewDataComparison	Create new data comparison
	NewDataMiningDimension	Create new data mining dimension
	NewDeploymentManifest	Create new deployment manifest
	NewDeploymentPackage	Create new deployment package
	NewDiagram	Create new diagram
	NewDimensionTranslation	Create new dimension translation
	NewDocument	Create new document
	NewDocumentCollection	Create new document collection

Image	KnownMoniker	Description
	NewDrillThroughAction	Create new drill through action
	NewEnumerator	Create new enumerator
	NewEnvironmentLibrary	Create new environment library
	NewEvent	Create new event
	NewField	Create new field
	NewFilter	Create new filter
	NewFolder	Create new folder
	NewGraph	Create new graph
	NewHeaderFile	Create new header file
	NewImage	Create new image
	NewImageType	Create new image type
	NewItem	Create new item
	NewKPI	Create new KPI
	NewKey	Create new key
	NewLayerDiagram	Create new layer diagram
	NewLeftFrame	Create new left frame
	NewLinkFile	Create new link file
	NewLinkedTable	Create new linked table
	NewLinkedWorkItem	Create new linked work item

Image	KnownMoniker	Description
	NewListItem	Create new list item
	NewListQuery	Create new list query
	NewLoadTestPlugin	Create new load test plugin
	NewLog	Create new log
	NewManualTest	Create new manual test
	NewManualTestMHTformat	Create new manual test MHT format
	NewMasterPage	Create new master page
	NewMeasure	Create new measure
	NewMeasureGroup	Create new measure group
	NewMethod	Create new method
	NamedSet	Create new named set
	NewOneHopQuery	Create new one hop query
	NewOrderedList	Create new ordered list
	NewPackage	Create new package
	NewParameter	Create new parameter
	NewPartition	Create new partition
	NewPerformanceReport	Create new performance report
	NewPerformanceTrend	Create new performance trend
	NewPerspectiveView	Create new perspective view

Image	KnownMoniker	Description
	NewPhysicalEnvironment	Create new physical environment
	NewPluginDocument	Create new plugin document
	NewProperty	Create new property
	NewPullRequest	Create new pull request
	NewQuery	Create new query
	NewQueryResultsRow	Create new query results row
	NewRecording	Create new recording
	NewRelationship	Create new relationship
	NewRelationshipMenu	Create new relationship menu
	NewReportingAction	Create new reporting action
	NewRightFrame	Create new right frame
	NewRow	Create new row
	NewRule	Create new rule
	NewRuleWarning	Create new rule warning
	NewRunSettings	Create new run settings
	NewSchema	Create new schema
	NewScript	Create new script
	NewSharedSteps	Create new shared steps
	NewSigningKey	Create new signing key

Image	KnownMoniker	Description
	NewSmartTag	Create new smart tag
	NewStyleSheet	Create new style sheet
	NewTable	Create new table
	NewTeamGitRepository	Create new team Git repository
	NewTeamProject	Create new team project
	NewTest	Create new test
	NewTestConfiguration	Create new test configuration
	NewTestConfigurationVariable	Create new test configuration variable
	NewTestGroup	Create new test group
	NewTestList	Create new test list
	NewTestPlan	Create new test plan
	NewTextAnnotation	Create new text annotation
	NewToolWindow	Create new tool window
	NewTopFrame	Create new top frame
	NewTransaction	Create new transaction
	NewTranslation	Create new translation
	NewTreeQuery	Create new tree query
	NewType	Create new type
	NewUser	Create new user account

Image	KnownMoniker	Description
	NewValidationRule	Create new validation rule
	NewVideo	Create new video
	NewVirtualEnvironment	Create new virtual environment
	NewWebMethodAction	Create new web method action
	NewWebSite	Create new web site
	NewWebTest	Create new web test
	NewWebTestPlugin	Create new web test plugin
	NewWindow	Create new window
	NewWorkItem	Create new work item
	Next	Navigate to the next step or item in sequence
	NextBookmark	Utility icon representing next bookmark
	NextBookmarkInFile	Utility icon representing next bookmark in file
	NextBookmarkInFolder	Folder or directory
	NextDocument	Document file
	NextError	Error indicator for next
	NextFrame	Diagnostic icon representing next frame
	NextPause	Diagnostic icon representing next pause
	NoBorder	Design icon representing no border
	NoPersistScope	Command icon representing no persist scope

Image	KnownMoniker	Description
	NoStroke	Design icon representing no stroke
	NodejsProject	Node.js project
	NoncompilableFile	File or document
	None	Status icon representing none
	NotExecuted	Status icon representing not executed
	NotInstalled	Device icon representing not installed
	Note	Document icon representing note
	NotificationAlert	Object icon representing notification alert
	NotificationAlertMute	Object icon representing notification alert mute
	NotificationAlertNoColor	NotificationAlert icon in neutral or monochrome style
	NotificationAlertNoColorMute	Object icon representing notification alert no color mute
	NotificationHub	Chat icon representing notification hub
	NotificationHubError	Error indicator for notification hub
	NotificationHubGroup	Chat icon representing notification hub group
	NotificationHubGroupError	Error indicator for notification hub group
	NotificationsAlert	Object icon representing notifications alert
	NuGetNoColor	NuGet icon in neutral or monochrome style
	NuGetNoColorError	Error indicator for nu get no color
	NuGetNoColorPrivate	NuGet private package without color

Image	KnownMoniker	Description
	NuGetNoColorWarning	Warning indicator for nu get no color
	Nuget	NuGet package manager
	Numeric	Character icon representing numeric
	NumericListBox	UI icon representing numeric list box
	ODBC	Web icon representing ODBC
	OData	Object icon representing o data
	ObjectBrowser	Window icon representing object browser
	ObjectInternal	Internal object
	ObjectLifetimeView	Code icon representing object lifetime view
	ObjectPrivate	Private object
	ObjectProtected	Protected object
	ObjectPublic	Public object
	ObjectSealed	Sealed object
	ObjectShortcut	Code icon representing object shortcut
	Office	Microsoft Office suite
	Office2013	Microsoft Office 2013
	OfficeAccess2013	Microsoft Access 2013
	OfficeExcel2013	Microsoft Excel 2013
	OfficeOutlook2013	Microsoft Outlook 2013

Image	KnownMoniker	Description
	OfficePowerPoint2013	Microsoft PowerPoint 2013
	OfficeProject2013	Brand icon used for 3rd party product or feature integration inside Visual Studio
	OfficeSharePoint2013	Microsoft SharePoint 2013
	OfficeWord2013	Microsoft Word 2013
	OnPremisesDatabase	Device icon representing on premises database
	OneLevelUp	Document icon representing one level up
	OneNote	Microsoft OneNote note-taking application
	OneWayBridge	Flow icon representing one way bridge
	OneWayRelay	Flow icon representing one way relay
1x	OneX	Character icon representing one x
	Online	in online mode
	OnlineItemTemplate	Web icon representing online item template
	OnlineStatusAvailable	Status icon representing online status available
	OnlineStatusAway	Status icon representing online status away
	OnlineStatusBusy	Status icon representing online status busy
	OnlineStatusOffline	Online Status in offline mode
	OnlineStatusPresenting	Status icon representing online status presenting
	OnlineStatusUnknown	Status icon representing online status unknown
	OpaqueBackground	Design icon representing opaque background

Image	KnownMoniker	Description
	Open	Open file, folder, or expand element
	OpenApi	OpenAPI specification
	OpenAttachment	Open attachment
	OpenDocumentFromCollection	Document file
	OpenDocumentGroup	Document file
	OpenFile	File or document
	OpenFolder	Folder or directory
	OpenInvokeTable	Database table or data table
	OpenLink	Open link
	OpenLocalGitRepo	Open local Git repository
	OpenPerformanceResult	Open performance result
	OpenProjectFolder	Folder or directory
	OpenQuery	Database query or data query
	OpenTopic	Open topic
	OpenVirtualEnvironment	Open virtual environment
	OpenVirtualMachine	Open virtual machine
	OpenWebPortal	Web application or service
	OpenWebSite	Web application or service
	OpenFileDialog	Dialog box or modal window

Image	KnownMoniker	Description
	Operator	Code icon representing operator
	OperatorInternal	Internal operator
	OperatorPrivate	Private operator
	OperatorProtected	Protected operator
	OperatorPublic	Public operator
	OperatorSealed	Sealed operator
	OperatorShortcut	Code icon representing operator shortcut
	OptimizePivotTable	Database table or data table
	OrderAscending	Command icon representing order ascending
	OrderDescending	Command icon representing order descending
	OrderedList	Character icon representing ordered list
	OrderedTest	Object icon representing ordered test
	OrientPathNone	Design icon representing orient path none
	OrientPathNormal	Design icon representing orient path normal
	OrthographicCamera	Shape icon representing orthographic camera
	OutGoingCodeReview	Code icon representing out going code review
	OutlinedRectangle	Shape icon representing outlined rectangle
	OutlinedRoundedRectangle	Shape icon representing outlined rounded rectangle
	Outlook	Microsoft Outlook email client

Image	KnownMoniker	Description
	Output	Flow icon representing output
	OutputColumn	Database column or data column
	OutputExcluded	Flow icon representing output excluded
	OutputParameter	Character icon representing output parameter
	OutputPin	Flow icon representing output pin
	OverlayAlert	Status icon representing overlay alert
	OverlayComplete	Completed status indicator
	OverlayDeclaration	Status icon representing overlay declaration
	OverlayError	Error indicator for overlay
	OverlayErrorNoColor	OverlayError icon in neutral or monochrome style
	OverlayExcluded	Status icon representing overlay excluded
	OverlayExcludedNoColor	Metaphor: Overlay, Minus, Excluded, Status, No Color
	OverlayFriend	Status icon representing overlay friend
	OverlayInactive	Inactive overlay
	OverlayInformation	Information about overlay
	OverlayInformationNoColor	OverlayInformation icon in neutral or monochrome style
	OverlayInvalid	Status icon representing overlay invalid
	OverlayInvalidNoColor	OverlayInvalid icon in neutral or monochrome style
	OverlayLock	Status icon representing overlay lock

Image	KnownMoniker	Description
	OverlayLoginDisabled	Disabled overlay login
	OverlayNo	Status icon representing overlay no
	OverlayNotAvailable	Status icon representing overlay not available
	OverlayNotLoaded	Status icon representing overlay not loaded
	OverlayOK	Status icon representing overlay o k
	OverlayOKNoColor	OverlayOK icon in neutral or monochrome style
	OverlayOffline	Overlay in offline mode
	OverlayOnline	Overlay in online mode
	OverlayPaused	Status icon representing overlay paused
	OverlayPolicy	Status icon representing overlay policy
	OverlayProperty	Status icon representing overlay property
	OverlayProtected	Protected overlay
	OverlayRemote	Status icon representing overlay remote
	OverlayRunning	Running or active status
	OverlaySealed	Sealed overlay
	OverlaySearch	Status icon representing overlay search
	OverlayShortcut	Status icon representing overlay shortcut
	OverlayStatic	Static overlay
	OverlayStopped	Stopped or inactive status

Image	KnownMoniker	Description
	OverlayTimelineMarkBlack	Status icon representing overlay timeline mark black
	OverlayTimelineMarkGray	Status icon representing overlay timeline mark gray
	OverlayTimelineMarkPurple	Status icon representing overlay timeline mark purple
	OverlayTimelineMarkRed	Status icon representing overlay timeline mark red
	OverlayUnknown	Status icon representing overlay unknown
	OverlayUpdate	Status icon representing overlay update
	OverlayVulnerable	Status icon representing overlay vulnerable
	OverlayWarning	Warning indicator for overlay
	OverlayWarning	Warning indicator for overlay
	OverlayWarningNoColor	OverlayWarning icon in neutral or monochrome style
	OverloadBehavior	Shape icon representing overload behavior
	Overridden	Code icon representing overridden
	Overriding	Code icon representing overriding
	OverridingOverridden	Code icon representing overriding overridden
	PDBFile	File or document
	PDWDestination	Device icon representing PDW destination
PHP	PHPFile	Project icon representing PHP file
	PivotChart	Data icon representing p ivot chart
	PNPEntity	Device icon representing PNP entity

Image	KnownMoniker	Description
	PYApplication	Project icon representing Python application
	PYBlankApplication	Project icon representing Python blank application
	PYBlankWebSite	Project icon representing Python blank web site
	PYClassFile	Project icon representing Python class file
	PYClassLibrary	Project icon representing Python class library
	PYConsole	Project icon representing Python console
	PYConsoleApplication	Project icon representing Python console application
	PYDebugInteractiveWindow	Project icon representing Python debug interactive window
	PYFile	Project icon representing Python file
	PYInteractiveWindow	Project icon representing Python interactive window
	PYMPI	Project icon representing Python MPI
	PYProjectNode	Python project file or project type
	PYSilverlight	Project icon representing Python SilverLight
	PYSourceFile	Project icon representing Python source file
	PYWPFApplication	Project icon representing Python WPF application
	PYWebApplication	Project icon representing Python web application
	PYWebService	Project icon representing Python web service
	PYWebSite	Project icon representing Python web site
	PYWorker	Project icon representing Python worker

Image	KnownMoniker	Description
	Package	Object icon representing package
	PackageDeployment	Document icon representing package deployment
	PackageFolderClosed	Folder or directory
	PackageFolderOpened	Folder or directory
	PackageLayout	Object icon representing package layout
	PackageProperty	Object icon representing package property
	PackageReference	Package reference dependency
	PageBody	Page or document page
	PageBodyGroup	Page or document page
	PageBreak	Page or document page
	PageCatalogPart	Page or document page
	PageContent	Page or document page
	PageFile	File or document
	PageFooter	Page or document page
	PageFooterGroup	Page or document page
	PageGuide	Page or document page
	PageHeader	Page or document page
	PageHeaderGroup	Page or document page
	PageInspector	Tool to inspect web page elements

Image	KnownMoniker	Description
	PageLayout	UI icon representing page layout
	PageLock	Page or document page
	PageSize	Page or document page
	PageStyle	Page or document page
	PageTemplate	Page or document page
	PageTransition	Page or document page
	Paginator	Document icon representing paginator
	Paging	Flow icon representing paging
	PagingBulletedList	Flow icon representing paging bulleted list
	PanTool	Tool for panning view
	Panel	UI panel or container
	PanelDragDropTarget	Panel as drag and drop target
	ParagraphHardReturn	Character icon representing paragraph hard return
	Parallel	Design icon representing parallel
	ParallelCallStack	Diagnostic icon representing parallel call stack
	ParallelExecution	Flow icon representing parallel execution
	ParallelForEach	Flow icon representing parallel for each
	ParallelPort	Device icon representing parallel port
	Parameter	Character icon representing parameter

Image	KnownMoniker	Description
	ParameterError	Error indicator for parameter
	ParameterWarning	Warning indicator for parameter
	ParentChild	Flow icon representing parent child
	ParentChildAttribute	Flow icon representing parent child attribute
	ParentChildAttributeDisabled	Disabled parent child attribute
	ParseDynamicValue	Object icon representing parse dynamic value
	Part	Object icon representing part
	PartWarning	Warning indicator for part
	PartiallyComplete	UI icon representing partially complete
	Partition	Object icon representing partition
	PartitionFunction	Object icon representing partition function
	PartitionFunctionError	Error indicator for partition function
	PartitionFunctionWarning	Warning indicator for partition function
	PartitionScheme	Object icon representing partition scheme
	PartitionSchemeError	Error indicator for partition scheme
	PartitionSchemeWarning	Warning indicator for partition scheme
	PassThroughBridge	Flow icon representing pass through bridge
	PasswordBox	Character icon representing password box
	PasswordRecovery	Character icon representing password recovery

Image	KnownMoniker	Description
	PasswordStrength	Character icon representing password strength
	Paste	Document icon representing paste
	PasteAppend	Document icon representing paste append
	PasteReplace	Document icon representing paste replace
	PasteTable	Document icon representing paste table
	PatchPackage	Object icon representing patch package
	Path	Shape icon representing path
	PathIcon	Flow icon representing path icon
	PathListBox	Flow icon representing path list box
	PathListBoxItem	Flow icon representing path list box item
	PathMany	Path with many connections
	PathOne	Path with single connection
	Pause	Diagnostic icon representing pause
	PausePhoneLandscape	Phone or mobile device
	PenFour	Design icon representing pen four
	PenOne	Design icon representing pen one
	PenPalette	Design icon representing pen palette
	PenSparkle	AI writing or editing assistance; pen combined with sparkle implies auto-composition or rewrite
	PenThree	Design icon representing pen three

Image	KnownMoniker	Description
	PenTool	Design icon representing pen tool
	PenTwo	Design icon representing pen two
	Pencil	Command icon representing pencil
	PendingAdd	Command icon representing pending add
	PendingAddNode	Pending or in-progress status
	PendingBranch	Code icon representing pending branch
	PendingBranchNode	Pending or in-progress status
	PendingChange	Command icon representing pending change
	PendingChangeNode	Pending or in-progress status
	PendingCodeMap	Data icon representing pending code map
	PendingDelete	Command icon representing pending delete
	PendingDeleteNode	Pending or in-progress status
	PendingMerge	Code icon representing pending merge
	PendingMergeNode	Pending or in-progress status
	PendingRename	Character icon representing pending rename

Image	KnownMoniker	Description
	PendingRenameNode	Pending or in-progress status
	PendingUndelete	Command icon representing pending undelete
	PendingUndeleteNode	Pending or in-progress status
	Pentagon	Shape icon representing pentagon
	Percentage	Character icon representing percentage
	Performance	Device icon representing performance
	PerformanceError	Error indicator for performance
	PerformanceGroup	Device icon representing performance group
	PerformanceLog	Device icon representing performance log
	PerformanceMethod	Device icon representing performance method
	PerformanceReport	Device icon representing performance report
	PerformanceWaring	Device icon representing performance waring
	PerformanceWizard	Device icon representing performance wizard
	Permission	Permission or access rights
	Persist	Data icon representing persist
	PerspectiveCamera	Shape icon representing perspective camera
	PerspectiveTableGroup	Database table or data table

Image	KnownMoniker	Description
	PerspectivesView	Shape icon representing perspectives view
	Phone	Phone or mobile device
	PhoneClass	Phone or mobile device
	PhoneComponent	Phone or mobile device
	PhoneDarkTheme	Phone or mobile device
	PhoneDirectThreeD	Phone or mobile device
	PhoneGroup	Phone or mobile device
	PhoneHighResolution	Phone or mobile device
	PhoneHorizontalPage	Phone or mobile device
	PhoneLandscape	Phone or mobile device
	PhoneLandscapeFlipped	Phone or mobile device
	PhoneLibrary	Phone application library
	PhoneLightTheme	Phone or mobile device
	PhoneLowResolution	Phone or mobile device
	PhoneMediumResolution	Phone or mobile device
	PhoneNumberEditor	Phone or mobile device
	PhoneNumberViewer	Phone or mobile device
	PhonePanorama	Phone or mobile device
	PhonePortraitFlipped	Phone or mobile device

Image	KnownMoniker	Description
	PhonePreviewThumbnail	Phone or mobile device
	PhoneRotateToLandscapeLeft	Phone or mobile device
	PhoneRotateToLandscapeRight	Phone or mobile device
	PhoneRotateToPortraitLeft	Phone or mobile device
	PhoneService	Phone or mobile device
	PhoneSimulation	Phone or mobile device
	PhoneTool	Phone or mobile device
	PhoneUserControl	Phone or mobile device
	PhoneVerticalPage	Phone or mobile device
	PhoneWarning	Warning indicator for phone
	PhoneWebConfig	Web application or service
	PhoneWebSite	Phone or mobile device
	PhoneXAML	Phone or mobile device
	PickBranch	Code icon representing pick branch
	PickCursor	Cursor for picking or selecting items
	PickNode	Flow icon representing pick node
	Picker	UI icon representing picker
	PickerContract	Document icon representing picker contract
	PictureAndText	Object icon representing picture and text

Image	KnownMoniker	Description
	PieBarChart	Data icon representing pie bar chart
	PieChart	Data icon representing pie chart
	Pin	Command icon representing pin
	PinPropertyName	Command icon representing pin property name
	Pipeline	Device icon representing pipeline
	PipelineView	Flow icon representing pipeline view
	PivotControl	Pivot control for data views
	PivotProject	Project file or project type
	PivotTable	Database table or data table
	PixelRunFile	Project icon representing pixel run file
	PlaceholderTwoChevrons	Utility icon representing placeholder two chevrons
	Placeholder	Utility icon representing placeholder
	PlaceholderAsterisk	Utility icon representing placeholder asterisk
	PlaceholderDiamond	Utility icon representing placeholder diamond
	PlaceholderFourDots	Utility icon representing placeholder four dots
	PlaceholderHeart	Utility icon representing placeholder heart
	PlaceholderInfinity	Utility icon representing placeholder infinity
	PlaceholderOneDot	Utility icon representing placeholder one dot
	PlaceholderOneWave	Utility icon representing placeholder one wave

Image	KnownMoniker	Description
	PlaceholderThreeDots	Utility icon representing placeholder three dots
	PlaceholderTwoDots	Utility icon representing placeholder two dots
	PlaceholderTwoWave	Utility icon representing placeholder two wave
	PlaceholderX	Utility icon representing placeholder x
	Plan	Flow icon representing plan
	PlanePreview	Shape icon representing plane preview
	Play	Diagnostic icon representing play
	PlayDataGenerator	Device icon representing play data generator
	PlayStep	Object icon representing play step
	PlayStepGroup	Object icon representing play step group
	PlayVideo	Diagnostic icon representing play video
	PlaybackPreview	Command icon representing playback preview
	PlistFile	Project icon representing plist file
	PointAndFigureChart	Data icon representing point and figure chart
	PointChart	Data icon representing point chart
	PolarChart	Data icon representing polar chart
	Policy	Security or configuration policy
	PolicyApplication	Window icon representing policy application
	PolicyFile	File or document

Image	KnownMoniker	Description
	PolicyFileWarning	Warning indicator for policy file
	Polygon	Shape icon representing polygon
	PopBrowseContext	Code icon representing pop browse context
	PopIn	Design icon representing pop in
	PopOut	Design icon representing pop out
	PopupControl	Window icon representing popup control
	Port	Device icon representing port
	PositionPage	Design icon representing position page
	PostDeploymentScript	Device icon representing post deployment script
	PostDeploymentScriptError	Error indicator for post deployment script
	PostDeploymentScriptWarning	Warning indicator for post deployment script
	PotentialAttribute	Object icon representing potential attribute
	PotsModem	Device icon representing POTS modem
	Power	Object icon representing power
	PowerPlatform	Microsoft Power Platform
	PowerPoint	Microsoft PowerPoint presentation software
	PowerShellInteractiveWindow	Project icon representing PowerShell interactive window
	PowerShellModule	Project icon representing PowerShell module
	PowerShellProject	Project file or project type

Image	KnownMoniker	Description
	PowerSupply	Object icon representing power supply
	PowershellFile	Project icon representing PowerShell file
	PrecedenceConstraint	Constraint defining execution order
	PredictFunction	Flow icon representing predict function
	PredictQueryBuilder	Database query or data query
	PreserveCase	Character icon representing preserve case
	PrettyCode	Flow icon representing pretty code
	PreviewAnimatedTransition	Diagnostic icon representing preview animated transition
	PreviewCode	Code icon representing preview code
	PreviewSideBySide	Device icon representing preview side by side
	PreviewTab	UI icon representing preview tab
	Previous	Navigate to previous step or item
	PreviousBookmark	Utility icon representing previous bookmark
	PreviousBookmarkInFile	Utility icon representing previous bookmark in file
	PreviousBookmarkInFolder	Folder or directory
	PreviousDocument	Document file
	PreviousError	Error indicator for previous
	PreviousFrame	Diagnostic icon representing previous frame
	PrimaryKeyError	Error indicator for primary key

Image	KnownMoniker	Description
	PrimaryKeyWarning	Warning indicator for primary key
	Print	Device icon representing print
	PrintDialog	Dialog box or modal window
	PrintDirect	Device icon representing print direct
	PrintDocument	Document file
	PrintPreview	Document icon representing print preview
	PrintPreviewDialog	Dialog box or modal window
	PrintPreviewFourPages	Device icon representing print preview four pages
	PrintPreviewMaxPages	Device icon representing print preview max pages
	PrintPreviewOnePage	Device icon representing print preview one page
	PrintPreviewSixPages	Device icon representing print preview six pages
	PrintPreviewThreePages	Device icon representing print preview three pages
	PrintPreviewTwoPages	Device icon representing print preview two pages
	PrintSetup	Document icon representing print setup
	PrivateBuildInstance	Object icon representing private build instance
	PrivateMessageQueue	Document icon representing private message queue
	Procedure	Window icon representing procedure
	ProcedureMissing	Window icon representing procedure missing
	ProcedureSettings	Window icon representing procedure settings

Image	KnownMoniker	Description
	ProcedureWarning	Warning indicator for procedure
	Process	Object icon representing process
	Process.12.12	Object icon representing process
	ProcessError	Error indicator for process
	ProcessModel	Object icon representing process model
	ProcessOk	Object icon representing process ok
	Processor	Memory icon representing processor
	ProductionBreakpointAlert	Debugger breakpoint
	ProductionBreakpointAvailable	Debugger breakpoint
	ProductionBreakpointDashed	Debugger breakpoint
	ProductionBreakpointError	Error indicator for production breakpoint
	ProductionBreakpointOK	Debugger breakpoint
	ProductionBreakpointOff	Debugger breakpoint
	ProductionBreakpointOn	Debugger breakpoint
	ProductionBreakpointWarning	Warning indicator for production breakpoint
	ProductionTracepointAlert	Trace or diagnostic logging
	ProductionTracepointBound	Trace or diagnostic logging
	ProductionTracepointDashed	Trace or diagnostic logging
	ProductionTracepointError	Error indicator for production tracepoint

Image	KnownMoniker	Description
	ProductionTracepointOff	Trace or diagnostic logging
	ProductionTracepointOn	Trace or diagnostic logging
	ProductionTracepointWarning	Warning indicator for production tracepoint
	ProgressBar	UI icon representing progress bar
	ProgressivePopUp	UI icon representing progressive pop up
	ProgressiveSort	Command icon representing progressive sort
	Project	Brand icon used for 3rd party product or feature integration inside Visual Studio
	ProjectAlerts	Object icon representing project alerts
	ProjectFilterFile	Window icon representing project filter file
	ProjectImports	Document icon representing project imports
	PromoteVariable	Variable declaration or reference
	PropertBrushGroup	Flow icon representing propert brush group
	PropertiesFolderClosed	Folder or directory
	PropertiesFolderOpen	Folder or directory
	Property	Property or field member
	PropertyGridEditorPart	Property or field member
	PropertyInternal	Property or field member
	PropertyKey	Property or field member
	PropertyMissing	Property or field member

Image	KnownMoniker	Description
	PropertyPrivate	Property or field member
	PropertyProtected	Property or field member
	PropertyPublic	Property or field member
	PropertySealed	Property or field member
	PropertyShortcut	Property or field member
	PropertySnippet	Property or field member
	ProvidedInterface	Flow icon representing provided interface
	ProxyWebPartManager	Web application or service
	PublicMessageQueue	Document icon representing public message queue
	PublishAllWebsites	Web application or service
	PublishCurrentWebsite	Web application or service
	PublishOnDemand	Publish content or changes on demand
	PublishWithGitHubActions	Publish using GitHub Actions
	Pull	Git pull; fetch and integrate changes from remote
	PullRequest	Code icon representing pull request
	Push	Git push; send local commits to remote repository
	PushNotification	Chat icon representing push notification
	PushNotificationError	Error indicator for push notification
	PushNotificationGroup	Chat icon representing push notification group

Image	KnownMoniker	Description
	PushPin	Command icon representing push pin
	PyFileNode	Project icon representing Python file node
	PyramidChart	Data icon representing pyramid chart
	PythonPackage	Package or deployment unit
	QueryExtender	Database query or data query
	QueryList	List icon representing query list
	QueryStringParameter	Database query or data query
	QueryView	Database query or data query
	QueryViewError	Error indicator for query view
	QueryViewMissing	Database query or data query
	QueryViewWarning	Warning indicator for query view
	QuestionMark	Character icon representing question mark
	QuickFind	Command icon representing quick find
	QuickRefresh	Fast refresh shortcut; lightweight reload of content
	QuickReplace	Character icon representing quick replace
	Quote	Character icon representing quote
	RBFileNode	Project icon representing Ruby file node
	RBNotSupported	Project icon representing Ruby not supported
	RBProjectNode	Ruby project file or project type

Image	KnownMoniker	Description
	RGSRegistrationScript	Document icon representing RGS registration script
	RInteractiveWindow	Window or panel in UI
	RSS	RSS feed syndication
	RSSLink	Web icon representing RSS link
	RTTag	Runtime tag or marker
	RadarChart	Data icon representing radar chart
	RadioButton	UI icon representing radio button
	RadioButtonList	List icon representing radio button list
	RangeChart	Data icon representing range chart
	RangeColumnChart	Database column or data column
	RangeValidator	Character icon representing range validator
	Rating	Data icon representing rating
	RawCodeCoverageDataFile	File or document
	ReadOnlyDatabase	Device icon representing read only database
	Reason	Object icon representing reason
	Rebase	Flow icon representing rebase
	RecalculatePageBreaks	Page or document page
	Receive	Document icon representing receive
	ReceiveAndSendReply	Document icon representing receive and send reply

Image	KnownMoniker	Description
	ReceiveReply	Document icon representing receive reply
	RecommendedTest	Object icon representing recommended test
	Record	Diagnostic icon representing record
	RecordAlert	Diagnostic icon representing record alert
	RecordDot	Diagnostic icon representing record dot
	RecordKeyframe	Diagnostic icon representing record keyframe
	RecordScreen	Diagnostic icon representing record screen
	RecordScreenAndVoice	Diagnostic icon representing record screen and voice
	RecordStep	Object icon representing record step
	RecordingNotStarted	Diagnostic icon representing recording not started
	Rectangle	Shape icon representing rectangle
	RectangleSelection	Rectangular selection tool
	RectangularScreenshot	Shape icon representing rectangular screenshot
	RectangularSelection	Rectangular area selection mode
	Recursion	Flow icon representing recursion
	RecursivelyCheckAll	UI icon representing recursively check all
	RecursivelyUncheckAll	UI icon representing recursively uncheck all
	RedChannel	Character icon representing red channel
	RedirectedRequest	Request redirected to alternate destination

Image	KnownMoniker	Description
	Redo	Redo last undone action; step forward in history
	RedoMerge	Code icon representing redo merge
	RedoNoColor	Redo action in neutral/disabled state
	ReduceBrightness	Design icon representing reduce brightness
	ReduceContrast	Design icon representing reduce contrast
	Refactoring	Code icon representing refactoring
	Reference	Object icon representing reference
	ReferenceError	Error indicator for reference
	ReferenceFolderClosed	Folder or directory
	ReferenceFolderOpened	Folder or directory
	ReferenceGroup	Object icon representing reference group
	ReferenceGroupError	Error indicator for reference group
	ReferenceGroupWarning	Warning indicator for reference group
	ReferencePrivate	Private reference
	ReferenceWarning	Warning indicator for reference
	ReferencedDimension	Object icon representing referenced dimension
	ReferencedElement	Status icon representing referenced element
	Refetch	Code icon representing refetch
	ReformatSelection	Flow icon representing reformat selection

Image	KnownMoniker	Description
	Refresh	Refresh the current view or data; reload without navigation
	RefreshPhoneUI	Phone or mobile device
	RefreshScript	Document icon representing refresh script
	RegistersWindow	CPU registers debug window
	RegistrationScript	Document icon representing registration script
	Registry	Flow icon representing registry
	RegularExpression	Character icon representing regular expression
	RegularExpressionBuilder	Character icon representing regular expression builder
	RegularExpressionValidator	Character icon representing regular expression validator
	Relationship	Window icon representing relationship
	ReloadXML	Code icon representing reload XML
	RemoteDebugger	Device icon representing remote debugger
	RemoteDesktop	Desktop computer
	RemoteEnvironment	Brand icon used for 3rd party product or feature integration inside Visual Studio
	RemoteFolder	Folder or directory
	RemoteFolderOpen	Folder or directory
	RemoteServer	Device icon representing remote server
	RemoteServerAudit	Device icon representing remote server audit
	RemoteServiceBinding	Flow icon representing remote service binding

Image	KnownMoniker	Description
	RemoteServiceBindingError	Error indicator for remote service binding
	RemoteServiceBindingWarning	Warning indicator for remote service binding
	Remove	Remove or delete
	RemoveCommand	Remove or delete command
	RemoveFromCollection	Remove or delete from collection
	RemoveFromDictionary	Remove item from dictionary
	RemoveGuides	Remove or delete guides
	RemoveHorizontalSpacing	Remove or delete horizontal spacing
	RemoveLink	Remove or delete link
	RemoveMapping	Remove or delete mapping
	RemoveNamespace	Remove or delete namespace
	RemoveNoColor	Remove icon in neutral or monochrome style
	RemoveTest	Remove or delete test
	RemoveTestGroup	Remove or delete test group
	RemoveVerticalSpacing	Remove or delete vertical spacing
	Rename	Character icon representing rename
	RenameClass	Class definition or type in code structure
	RenameEvent	Event declaration or handler
	RenameField	Code icon representing rename field

Image	KnownMoniker	Description
	RenameLocalServer	Device icon representing rename local server
	RenameMethod	Method or function declaration
	RenameProperty	Property or field member
	RenameRemoteServer	Device icon representing rename remote server
	RenkoChart	Data icon representing renko chart
	ReorderList	Reorder items in list
	ReorderParameters	Character icon representing reorder parameters
	ReorderTableColumn	Database table or data table
	Repair	Object icon representing repair
	ReparentBranch	Code icon representing reparent branch
	RepeatLastRun	Diagnostic icon representing repeat last run
	RepeatUntilFailure	Diagnostic icon representing repeat until failure
	Repeater	Flow icon representing repeater
	ReplaceAll	Character icon representing replace all
	ReplaceInFolder	Folder or directory
	Report	Report document or file
	ReportDesign	Report document or file
	ReportHacked	Status icon representing report hacked
	ReportImage	Report document or file

Image	KnownMoniker	Description
	ReportParameter	Report document or file
	ReportProjectWizard	Report document or file
	ReportWarning	Warning indicator for report
	ReportingAction	Flow icon representing reporting action
	Repository	Object icon representing repository
	RepositoryUploaded	Object icon representing repository uploaded
	RequestBridge	Flow icon representing request bridge
	RequiredFieldValidator	Character icon representing required field validator
	RequiredInterface	Flow icon representing required interface
	Rerun	Diagnostic icon representing rerun
	ResamplePicture	Object icon representing resample picture
	ResetMeasureTree	Reset measure tree
	ResetView	Reset view
	ResizableControl	Window icon representing resizable control
	Resize	Design icon representing resize
	ResizeGrip	UI icon representing resize grip
ID:	ResourceSymbol	Character icon representing resource symbol
	ResourceTemplate	Object icon representing resource template
	ResourceType	Device icon representing resource type

Image	KnownMoniker	Description
	ResourceView	Object icon representing resource view
	Restart	Restart a process or application; stop then start again
	RestoreDefaultView	Window icon representing restore default view
	RestoreImage	Object icon representing restore image
	RestoreLocalServer	Device icon representing restore local server
	RestoreMTR	Window icon representing restore MTR
	RestoreServiceDependencies	Object icon representing restore service dependencies
	RestoreSnapshot	Device icon representing restore snapshot
	ResultsToGrid	Data icon representing results to grid
	ResultsToRuleFile	File or document
	ResultsToTextFile	File or document
	ResumePhone	Phone or mobile device
	Rethrow	Flow icon representing rethrow
	Retrieve	Get or retrieve
	Return	Return from function or go back
	ReturnApplicationInsights	Return to Application Insights
	ReturnParameter	Character icon representing return parameter
	ReturnValue	Window icon representing return value
	ReturnValueCollapsed	Design icon representing return value collapsed

Image	KnownMoniker	Description
	ReturnValueExpanded	Design icon representing return value expanded
	ReuseExistingProps	Reuse existing properties
	Reverse	Design icon representing reverse
	ReverseGradient	Design icon representing reverse gradient
	ReverseRun	Diagnostic icon representing reverse run
	RibbonMenu	Menu or menu item
	RibbonMenuAction	Menu or menu item
	RichReview	Flow icon representing rich review
	RichTextBox	Rich text editor box
	RichTooltip	Enhanced tooltip with formatting
	RightArrowAsterisk	Character icon representing right arrow asterisk
	RightBorder	Design icon representing right border
	RightCarriageReturn	Character icon representing right carriage return
	RightColumnOfTwoColumnsLeftSplit	Design icon representing right column of two columns left split
	RightSideOnly	Document icon representing right side only
	RigidRelationshipError	Error in rigid relationship constraint
	RigidRelationshipInformation	Information about rigid relationship
	RigidRelationshipWarning	Warning about rigid relationship
	Rocket	Object icon representing rocket

Image	KnownMoniker	Description
	Rotate	Design icon representing rotate
	RotateLeft	Design icon representing rotate left
	RotateRight	Design icon representing rotate right
	RoundCap	Design icon representing round cap
	RoundJoint	Design icon representing round joint
	RoundedCorner	Design icon representing rounded corner
	RoundedRectangle	Shape icon representing rounded rectangle
	RouteService	Flow icon representing route service
	RouteServiceError	Error indicator for route service
	RouteServiceWarning	Warning indicator for route service
	RowGroups	Database row or data row
	RowLabels	Database row or data row
	RssAlt	RSS feed alternative icon
	Rule	General rule or policy definition
	RuleError	Error indicator for rule
	RuleWarning	Warning indicator for rule
	Ruler	Design icon representing ruler
	RulerMeasure	Design icon representing ruler measure
	Run	Diagnostic icon representing run

Image	KnownMoniker	Description
	RunAboveCells	Diagnostic icon representing run above cells
	RunAll	Diagnostic icon representing run all
	RunBelowCells	Diagnostic icon representing run below cells
	RunChecked	Checked run
	RunFailedTest	Testing tool or test case
	RunFilter	Command icon representing run filter
	RunLiveUnitTest	Code icon representing run live unit test
	RunMemorySampling	Memory icon representing run memory sampling
	RunOutline	Diagnostic icon representing run outline
	RunOutlineNoColor	RunOutline icon in neutral or monochrome style
	RunPaused	Diagnostic icon representing run paused
	RunPerformance	Device icon representing run performance
	RunPerformanceWithoutDebugging	Device icon representing run performance without debugging
	RunQuery	Database query or data query
	RunTest	Object icon representing run test
	RunTestDialog	Dialog box or modal window
	RunThread	Diagnostic icon representing run thread
	RunUpdate	Diagnostic icon representing run update
	S	S character or search indicator

Image	KnownMoniker	Description
	SAPDestination	SAP destination connection
	SAPOData	SAP OData service
	SAPSource	SAP data source
	SASSStyleSheet	Document icon representing SASS style sheet
	SDK	Object icon representing SDK
	SDKError	Error indicator for SDK
	SDKPrivate	Private SDK
	SDKWarning	Warning indicator for SDK
	SFTPDestination	Document icon representing SFTP destination
	SFTPSource	Document icon representing SFTP source
	SMTPConnection	Document icon representing SMTP connection
	SQLDatabase	Device icon representing SQL database
	SQLQueryChecked	Database query or data query
	SQLQueryUnchecked	Database query or data query
	SQLServerObjectExplorer	Flow icon representing SQL Server object explorer
	SSlash	S with slash through it
	Safari	Brand icon used for 3rd party product or feature integration inside Visual Studio
	SamplesFolder	Folder or directory
	Save	Save

Image	KnownMoniker	Description
	SaveAll	Save all
	SaveAndClose	Save and close
	SaveAs	Save as
	SaveFileDialog	Dialog box or modal window
	SaveTable	Database table or data table
	Scaffold	UI icon representing scaffold
	ScalarFunction	Character icon representing scalar function
	ScalarFunctionError	Error indicator for scalar function
	ScalarFunctionWarning	Warning indicator for scalar function
	Scale	Design icon representing scale
	ScatterChart	Data icon representing scatter chart
	ScatterLineChart	Data icon representing scatter line chart
	ScatterSmoothLineChart	Data icon representing scatter smooth line chart
	ScatterView	UI icon representing scatter view
	Schema	Database schema definition
	SchemaError	Error indicator for schema
	SchemaProperty	Database schema definition
	SchemaWarning	Warning indicator for schema
	ScissorTest	Object icon representing scissor test

Image	KnownMoniker	Description
	Scope	Document icon representing scope
	ScopeRoot	Root of scope hierarchy
	Screenshot	Design icon representing screenshot
	Screwdriver	Object icon representing screwdriver
	Script	Document icon representing script
	ScriptError	Error indicator for script
	ScriptGroup	Document icon representing script group
	ScriptLink	Document icon representing script link
	ScriptManager	Window icon representing script manager
	ScriptPreview	Document icon representing script preview
	ScriptWarning	Warning indicator for script
	ScrollBar	UI icon representing scroll box
	ScrollViewer	Object icon representing scroll viewer
	ScrollbarArrowCollapsed	UI icon representing scrollbar arrow collapsed
	ScrollbarArrowDownRight	Scrollbar arrow for down-right direction
	ScsiController	UI control element
	Search	Command icon representing search
	SearchContract	Document icon representing search contract
	SearchFolderClosed	Folder or directory

Image	KnownMoniker	Description
	SearchFolderOpened	Folder or directory
	SearchGo	Execute search query or navigate to search result
	SearchMember	Object icon representing search member
	SearchProperty	Command icon representing search property
	SearchSparkle	AI-augmented search; smarter find, retrieval, or answer generation
	SecondOfFourColumns	Design icon representing second of four columns
	SecondOfFourRows	Design icon representing second of four rows
	SecondOfThreeColumns	Design icon representing second of three columns
	SecondOfThreeRows	Design icon representing second of three rows
	SecondOfTwoColumns	Design icon representing second of two columns
	SecondOfTwoRows	Design icon representing second of two rows
	Select	Select or selection tool
	SelectAll	Design icon representing select all
	SelectAllRowsFromLeftTable	Design icon representing select all rows from left table
	SelectAllRowsFromRightTable	Design icon representing select all rows from right table
	SelectCell	Data icon representing select cell
	SelectColumn	Database column or data column
	SelectColumns	Database column or data column
	SelectDocumentGroup	Document file

Image	KnownMoniker	Description
	SelectEdge	Design icon representing select edge
	SelectFace	Design icon representing select face
	SelectFrame	Design icon representing select frame
	SelectObject	Design icon representing select object
	SelectPoint	Design icon representing select point
	SelectRows	Database row or data row
	SelectTable	Database table or data table
	SelectWindowProcess	Window or panel in UI
	SelectXY	Design icon representing select x y
	SelectedClass	Class definition or type in code structure
	SemanticZoom	Flow icon representing semantic zoom
	Send	Design icon representing send
	SendAndReceiveReply	Document icon representing send and receive reply
	SendBackward	Design icon representing send backward
	SendReply	Document icon representing send reply
	SendSignalAction	Design icon representing send signal action
	SendTest	Document icon representing send test
	SendToRemoteAgent	Web icon representing send to remote agent
	SendtoBack	Design icon representing sendto back

Image	KnownMoniker	Description
	SendtoFSI	List icon representing sendto FSI
	Sequence	Flow icon representing sequence
	SequenceCluster	Flow icon representing sequence cluster
	SequenceDiagram	Data icon representing sequence diagram
	SequenceFile	File or document
	SerialKey	Memory icon representing serial key
	SerialPort	Device icon representing serial port
	Server	Device icon representing server
	ServerDatabase	Device icon representing server database
	ServerMethod	Device icon representing server method
	ServerReport	Device icon representing server report
	ServerRoleMembership	Device icon representing server role membership
	ServerRunTest	Device icon representing server run test
	ServerSettings	Device icon representing server settings
	ServerTest	Device icon representing server test
	ServiceBusQueueListTrid	Flow icon representing service bus queue list trid
	ServiceBusQueueTrid	Flow icon representing service bus queue trid
	ServiceBusSubscriptionListTrid	Flow icon representing service bus subscription list trid
	ServiceBusSubscriptionTrid	Flow icon representing service bus subscription trid

Image	KnownMoniker	Description
	ServiceBusTopic	Flow icon representing service bus topic
	ServiceBusTopicTridList	Flow icon representing service bus topic trid list
	ServiceBusWorker	Document icon representing service bus worker
	ServiceController	Object icon representing service controller
	ServiceOperation	Document icon representing service operation
	ServiceQueueDestination	Flow icon representing service queue destination
	ServiceQueueSource	Flow icon representing service queue source
	Services	Flow icon representing services
	SetField	Set or update field
	SetIterationCount	Set or update iteration count
	SetLanguage	Set or update language
	SetListitem	Set or update listitem
	SetMeasureTree	Set or update measure tree
	SetProactiveCaching	Set or update proactive caching
	SetWorkflowState	Set or update workflow state
	Settings	Set or update tings
	SettingsFile	File or document
	SettingsFileError	Error indicator for settings file
	SettingsGroup	Set or update tings group

Image	KnownMoniker	Description
	SettingsGroupError	Error indicator for settings group
	SettingsGroupWarning	Warning indicator for settings group
	SettingsPanel	Set or update tings panel
	SettingsStorage	Set or update tings storage
	Shader	Design icon representing shader
	ShaderKill	Design icon representing shader kill
	ShaderOthers	Design icon representing shader others
	ShaderSpot	Design icon representing shader spot
	ShaderUnit	Design icon representing shader unit
	Shape	Shape icon representing shape
	Share	Utility icon representing share
	ShareContract	Document icon representing share contract
	ShareLink	Document icon representing share link
	SharePoint	Microsoft SharePoint collaboration platform
	ShareSnapshot	Device icon representing share snapshot
	SharedDataSource	Device icon representing shared data source
	SharedProject	Project file or project type
	SharedProjectError	Error indicator for shared project
	SharedProjectPrivate	Private shared project

Image	KnownMoniker	Description
	SharedProjectWarning	Warning indicator for shared project
	SharedStepSet	Object icon representing shared step set
	ShelvePendingChanges	Code icon representing shelve pending changes
	Shortcut	Shortcut or quick access link
	ShowAllAttributes	Show or display all attributes
	ShowAllCode	Show or display all code
	ShowAllConfigurations	Show or display all configurations
	ShowAllFiles	Show or display all files
	ShowAllThreads	Show or display all threads
	ShowAssignedConfigurations	Display assigned configurations
	ShowBuiltIns	Show or display built ins
	ShowCallGraph	Show or display call graph
	ShowCallerGraph	Show or display caller graph
	ShowConflicts	Show or display conflicts
	ShowDataPreview	Show or display data preview
	ShowDetailsPane	Show or display details pane
	ShowDiagramPane	Show or display diagram pane
	ShowEmptyCells	Show or display empty cells
	ShowFullHistory	Show or display full history

Image	KnownMoniker	Description
	ShowGrid	Show or display grid
	ShowHiddenElements	Show or display hidden elements
	ShowHotLines	Show or display hot lines
	ShowLayout	Show or display layout
	ShowMemberTypes	Show or display member types
	ShowMethodPane	Show or display method pane
	ShowOrHideComparisonData	Show or display or hide comparison data
	ShowOrHideFolder	Show or display or hide folder
	ShowParentNodeOnly	Show or display parent node only
	ShowPropertiesOnTop	Show or display properties on top
	ShowReferencedElements	Show or display referenced elements
	ShowReflexiveView	Show or display reflexive view
	ShowRelationshipLabels	Show or display relationship labels
	ShowResultsPane	Show or display results pane
	ShowStartPage	Show or display start page
	ShowStartWindow	Show or display start window
	ShowTemplateRegionLabel	Show or display template region label
	ShowTrimmedCallTree	Show or display trimmed call tree
	ShowVisualAids	Show or display visual aids

Image	KnownMoniker	Description
	ShowWordDiff	Show or display word diff
	ShoworHideDeletedItems	Show or display or hide deleted items
	ShutDown	Design icon representing shut down
	SidebySide	Document icon representing sideby side
	SignatureFile	File or document
	SigningKey	Object icon representing signing key
	SilverlightWebSite	Project icon representing silverlight web site
	SiteDefinition	Document icon representing site definition
	SiteMap	Data icon representing site map
	SixX	Character icon representing six x
	SketchflowAnnotation	Chat icon representing sketchflow annotation
	SketchflowCompDim	Design icon representing sketchflow comp dim
	SketchflowNavDim	Design icon representing sketchflow nav dim
	SketchflowRemoveScreen	Command icon representing sketchflow remove screen
	SketchflowTransitionEffect	Character icon representing sketchflow transition effect
	SkinFile	File or document
	Slider	UI icon representing slider
	Slideshow	Object icon representing slideshow
	Small	Shape icon representing small

Image	KnownMoniker	Description
	SmartTag	Object icon representing smart tag
	SnapToGrid	Design icon representing snap to grid
	Snippet	Code snippet template
	SnippetChecked	Code snippet template
	SoftwareDefinitionModel	Window icon representing software definition model
	Solution	Visual Studio solution file
	SolutionExplorerViews	Brand icon used for 3rd party product or feature integration inside Visual Studio
	SolutionFolderSwitch	Folder or directory
	SortAscending	Command icon representing sort ascending
	SortByColumn	Command icon representing sort by column
	SortByNamespace	Command icon representing sort by namespace
	SortByType	Command icon representing sort by type
	SortDescending	Command icon representing sort descending
	SortLines	Command icon representing sort lines
	SortingByGrouping	Command icon representing sorting by grouping
	Sound	Device icon representing sound
	SourceBrowserDatabase	Device icon representing source browser database
	SourceControl	Document icon representing source control
	SourceControlEditable	Status icon representing source control editable

Image	KnownMoniker	Description
	SourceControlEditableNode	Status icon representing source control editable node
	SourceControlExcluded	Status icon representing source control excluded
	SourceControlExcludedNode	Status icon representing source control excluded node
	SourceControlExplorer	Document icon representing source control explorer
	SourceControlManager	UI control element
	SourceControlOrphaned	Status icon representing source control orphaned
	SourceControlOrphanedNode	Status icon representing source control orphaned node
	SourceControlSites	Document icon representing source control sites
	SourceFileGroup	File or document
a.b	Space	Character icon representing space
	SpaceAcross	Design icon representing space across
	SpaceDown	Design icon representing space down
	Span	UI icon representing span
	Sparkle	Sparkle glyph signaling AI-powered enhancement, suggestions, or automation
	SparkleNoColor	Generic AI affordance (sparkle) without accent color, indicating AI assistance available in a neutral context
	SpecialFolderClosed	Folder or directory

Image	KnownMoniker	Description
	SpecialFolderOpened	Folder or directory
	SpellCheck	Character icon representing spell check
	SpherePreview	Shape icon representing sphere preview
	Spinner	UI icon representing spinner
	SplashScreen	UI icon representing splash screen
	SplineAreaChart	Data icon representing spline area chart
	SplineChart	Data icon representing spline chart
	SplineRangeChart	Data icon representing spline range chart
	Split	Design icon representing split
	SplitApplication	Window icon representing split application
	SplitButton	Design icon representing split button
	SplitDocument	Design icon representing split document
	SplitKeyValuePair	Design icon representing split key value pair
	SplitPageItem	Design icon representing split page item
	SplitScreenHorizontally	Design icon representing split screen horizontally
	SplitScreenVertically	Design icon representing split screen vertically
	SplitTree	Window icon representing split tree
	SplitWindowHorizontal	Design icon representing split window horizontal
	SplitWindowVertical	Design icon representing split window vertical

Image	KnownMoniker	Description
	Splitter	Design icon representing splitter
	Spotlight	Design icon representing spotlight
	Spy	Spy or monitoring tool
	SquareCap	Design icon representing square cap
	StackPanel	Design icon representing stack panel
	StackedAreaChart	Data icon representing stacked area chart
	StackedAreaDashLineChart	Data icon representing stacked area dash line chart
	StackedBarChart	Data icon representing stacked bar chart
	StackedBarDashLineChart	Data icon representing stacked bar dash line chart
	StackedColumnChart	Database column or data column
	StackedColumnDashLineChart	Database column or data column
	StackedLineChart	Data icon representing stacked line chart
	StartGraphicDiagnostics	Device icon representing start graphic diagnostics
	StartHierarchy	Data icon representing start hierarchy
	StartLogging	Start logging operations
	StartPoint	Diagnostic icon representing start point
	StartTestGroupWithDebugger	Object icon representing start test group with debugger
	StartTestWithoutDebugger	Object icon representing start test without debugger
	StartTime	Object icon representing start time

Image	KnownMoniker	Description
	StartWebSite	Web application or service
	StartWithPerformanceProfilingPaused	Device icon representing start with performance profiling paused
	StartupApplication	Window icon representing startup application
	Stash	UI icon representing stash
	State	Window icon representing state
	StateIndicator	Shape icon representing state indicator
	StateMachine	Window icon representing state machine
	Statistics	Data icon representing statistics
	StatisticsError	Error indicator for statistics
	StatisticsWarning	Warning indicator for statistics
	StatusAlert	Status icon representing status alert
	StatusAlert.10.10	Status icon representing status alert
	StatusAlert.12.12	Status icon representing status alert
	StatusAlert.13.13	Status icon representing status alert
	StatusAlert.15.15	Status icon representing status alert
	StatusAlert.18.18	Status icon representing status alert
	StatusAlertOutline	Status icon representing status alert outline
	StatusBarBuild1	Status icon representing status bar build1
	StatusBarBuild10	Status icon representing status bar build10

Image	KnownMoniker	Description
	StatusBarBuild11	Status icon representing status bar build11
	StatusBarBuild12	Status icon representing status bar build12
	StatusBarBuild13	Status icon representing status bar build13
	StatusBarBuild2	Status icon representing status bar build2
	StatusBarBuild3	Status icon representing status bar build3
	StatusBarBuild4	Status icon representing status bar build4
	StatusBarBuild5	Status icon representing status bar build5
	StatusBarBuild6	Status icon representing status bar build6
	StatusBarBuild7	Status icon representing status bar build7
	StatusBarBuild8	Status icon representing status bar build8
	StatusBarBuild9	Status icon representing status bar build9
	StatusBarDeploy1	Status icon representing status bar deploy1
	StatusBarDeploy2	Status icon representing status bar deploy2
	StatusBarDeploy3	Status icon representing status bar deploy3
	StatusBarDeploy4	Status icon representing status bar deploy4
	StatusBarDeploy5	Status icon representing status bar deploy5
	StatusBarDeploy6	Status icon representing status bar deploy6
	StatusBarDeploy7	Status icon representing status bar deploy7
	StatusBarDeploy8	Status icon representing status bar deploy8

Image	KnownMoniker	Description
	StatusBarDeploy9	Status icon representing status bar deploy9
	StatusBarHotReload	Status icon representing status bar hot reload
	StatusBarHotReloadFailed	Failure status indicator
	StatusBarHotReloadInProgress1	Status icon representing status bar hot reload in progress1
	StatusBarHotReloadInProgress2	Status icon representing status bar hot reload in progress2
	StatusBarHotReloadInProgress3	Status icon representing status bar hot reload in progress3
	StatusBarHotReloadInProgress4	Status icon representing status bar hot reload in progress4
	StatusBarHotReloadInProgress5	Status icon representing status bar hot reload in progress5
	StatusBarHotReloadInProgress6	Status icon representing status bar hot reload in progress6
	StatusBarHotReloadInProgress7	Status icon representing status bar hot reload in progress7
	StatusBarHotReloadInProgress8	Status icon representing status bar hot reload in progress8
	StatusBarHotReloadPending	Pending or in-progress status
	StatusBarHotReloadSuccessful	Success status indicator
	StatusBarPrint1	Status icon representing status bar print1
	StatusBarPrint2	Status icon representing status bar print2
	StatusBarPrint3	Status icon representing status bar print3
	StatusBarPrint4	Status icon representing status bar print4
	StatusBarPrint5	Status icon representing status bar print5
	StatusBarPrint6	Status icon representing status bar print6

Image	KnownMoniker	Description
	StatusBarPrint7	Status icon representing status bar print7
	StatusBarProgress1	Status icon representing status bar progress1
	StatusBarProgress2	Status icon representing status bar progress2
	StatusBarProgress3	Status icon representing status bar progress3
	StatusBarProgress4	Status icon representing status bar progress4
	StatusBarProgress5	Status icon representing status bar progress5
	StatusBarProgress6	Status icon representing status bar progress6
	StatusBarProgress7	Status icon representing status bar progress7
	StatusBarProgress8	Status icon representing status bar progress8
	StatusBarSave1	Status icon representing status bar save1
	StatusBarSave2	Status icon representing status bar save2
	StatusBarSave3	Status icon representing status bar save3
	StatusBarSave4	Status icon representing status bar save4
	StatusBarSave5	Status icon representing status bar save5
	StatusBarSave6	Status icon representing status bar save6
	StatusBarSave7	Status icon representing status bar save7
	StatusBarSave8	Status icon representing status bar save8
	StatusBarSave9	Status icon representing status bar save9
	StatusBarSearch1	Status icon representing status bar search1

Image	KnownMoniker	Description
	StatusBarSearch2	Status icon representing status bar search2
	StatusBarSearch3	Status icon representing status bar search3
	StatusBarSearch4	Status icon representing status bar search4
	StatusBarSearch5	Status icon representing status bar search5
	StatusBarSearch6	Status icon representing status bar search6
	StatusBarSearch7	Status icon representing status bar search7
	StatusBarSync1	Status icon representing status bar sync1
	StatusBarSync10	Status icon representing status bar sync10
	StatusBarSync11	Status icon representing status bar sync11
	StatusBarSync12	Status icon representing status bar sync12
	StatusBarSync2	Status icon representing status bar sync2
	StatusBarSync3	Status icon representing status bar sync3
	StatusBarSync4	Status icon representing status bar sync4
	StatusBarSync5	Status icon representing status bar sync5
	StatusBarSync6	Status icon representing status bar sync6
	StatusBarSync7	Status icon representing status bar sync7
	StatusBarSync8	Status icon representing status bar sync8
	StatusBarSync9	Status icon representing status bar sync9
	StatusBarTest1	Status icon representing status bar test1

Image	KnownMoniker	Description
	StatusBarTest10	Status icon representing status bar test10
	StatusBarTest11	Status icon representing status bar test11
	StatusBarTest12	Status icon representing status bar test12
	StatusBarTest2	Status icon representing status bar test2
	StatusBarTest3	Status icon representing status bar test3
	StatusBarTest4	Status icon representing status bar test4
	StatusBarTest5	Status icon representing status bar test5
	StatusBarTest6	Status icon representing status bar test6
	StatusBarTest7	Status icon representing status bar test7
	StatusBarTest8	Status icon representing status bar test8
	StatusBarTest9	Status icon representing status bar test9
	StatusChangedInline.11.11	Status icon representing status changed inline
	StatusError	Error indicator for status
	StatusError.10.10	Status icon representing status error
	StatusError.12.12	Status icon representing status error
	StatusError.13.13	Status icon representing status error
	StatusError.15.15	Status icon representing status error
	StatusError.18.18	Status icon representing status error
	StatusErrorNew	Status icon representing status error new

Image	KnownMoniker	Description
	StatusErrorNoColor	StatusError icon in neutral or monochrome style
	StatusErrorOutline	Status icon representing status error outline
	StatusExcluded	Status icon representing status excluded
	StatusExcluded.10.10	Status icon representing status excluded
	StatusExcluded.12.12	Status icon representing status excluded
	StatusExcluded.13.13	Status icon representing status excluded
	StatusExcluded.15.15	Status icon representing status excluded
	StatusExcluded.18.18	Status icon representing status excluded
	StatusExcludedOutline	Status icon representing status excluded outline
	StatusFilter	Status icon representing status filter
	StatusHelp	Status icon representing status help
	StatusHelp.10.10	Status icon representing status help
	StatusHelp.12.12	Status icon representing status help
	StatusHelp.13.13	Status icon representing status help
	StatusHelp.15.15	Status icon representing status help
	StatusHelp.18.18	Status icon representing status help
	StatusHelpOutline	Status icon representing status help outline
	StatusHidden	Status icon representing status hidden
	StatusInformation	Information about status

Image	KnownMoniker	Description
	StatusInformation.10.10	Status icon representing status information
	StatusInformation.12.12	Status icon representing status information
	StatusInformation.13.13	Status icon representing status information
	StatusInformation.15.15	Status icon representing status information
	StatusInformation.18.18	Status icon representing status information
	StatusInformationNoColor	StatusInformation icon in neutral or monochrome style
	StatusInformationOutline	Status icon representing status information outline
	StatusInformationOutline.10.10	Status icon representing status information outline
	StatusInformationOutline.11.11	Status icon representing status information outline
	StatusInformationOutline.12.12	Status icon representing status information outline
	StatusInformationOutline.13.13	Status icon representing status information outline
	StatusInformationOutline.15.15	Status icon representing status information outline
	StatusInformationOutline.18.18	Status icon representing status information outline
	StatusInformationOutlineNoColor	StatusInformationOutline icon in neutral or monochrome style
	StatusInvalid	Status icon representing status invalid
	StatusInvalid.10.10	Status icon representing status invalid
	StatusInvalid.12.12	Status icon representing status invalid
	StatusInvalid.13.13	Status icon representing status invalid
	StatusInvalid.15.15	Status icon representing status invalid

Image	KnownMoniker	Description
	StatusInvalid.18.18	Status icon representing status invalid
	StatusInvalidOutline	Status icon representing status invalid outline
	StatusInvalidOutlineNoColor	StatusInvalidOutline icon in neutral or monochrome style
	StatusNo	Status icon representing status no
	StatusNo.10.10	Status icon representing status no
	StatusNo.12.12	Status icon representing status no
	StatusNo.13.13	Status icon representing status no
	StatusNo.15.15	Status icon representing status no
	StatusNo.18.18	Status icon representing status no
	StatusNoNoColor	StatusNo icon in neutral or monochrome style
	StatusNoNoColor.10.10	Status icon representing status no no color
	StatusNoNoColor.12.12	Status icon representing status no no color
	StatusNoNoColor.13.13	Status icon representing status no no color
	StatusNoNoColor.15.15	Status icon representing status no no color
	StatusNoNoColor.18.18	Status icon representing status no no color
	StatusNoOutline	Status icon representing status no outline
	StatusNotStarted	Status icon representing status not started
	StatusOK	Status icon representing status OK
	StatusOK.10.10	Status icon representing status OK

Image	KnownMoniker	Description
	StatusOK.12.12	Status icon representing status OK
	StatusOK.13.13	Status icon representing status OK
	StatusOK.15.15	Status icon representing status OK
	StatusOK.18.18	Status icon representing status OK
	StatusOKNew	Status icon representing status OK new
	StatusOKNoColor	StatusOK icon in neutral or monochrome style
	StatusOKOutline	Status icon representing status OK outline
	StatusOffline	Status in offline mode
	StatusOffline.10.10	Status icon representing status offline
	StatusOffline.12.12	Status icon representing status offline
	StatusOffline.13.13	Status icon representing status offline
	StatusOffline.15.15	Status icon representing status offline
	StatusOffline.18.18	Status icon representing status offline
	StatusPaused	Status icon representing status paused
	StatusPaused.10.10	Status icon representing status paused
	StatusPaused.12.12	Status icon representing status paused
	StatusPaused.13.13	Status icon representing status paused
	StatusPaused.15.15	Status icon representing status paused
	StatusPaused.18.18	Status icon representing status paused

Image	KnownMoniker	Description
	StatusPausedOutline	Status icon representing status paused outline
	StatusReady	Status icon representing status ready
	StatusRequired	Status icon representing status required
	StatusRequiredOutline	Status icon representing status required outline
	StatusRunning	Running or active status
	StatusRunning.10.10	Running or active status
	StatusRunning.12.12	Running or active status
	StatusRunning.13.13	Running or active status
	StatusRunning.15.15	Running or active status
	StatusRunning.18.18	Running or active status
	StatusRunningNoColor	StatusRunning icon in neutral or monochrome style
	StatusRunningOutline	Running or active status
	StatusSecurityCritical	Status icon representing status security critical
	StatusSecurityOK	Status icon representing status security o k
	StatusSecurityWarning	Warning indicator for status security
	StatusStopped	Stopped or inactive status
	StatusStopped.10.10	Stopped or inactive status
	StatusStopped.12.12	Stopped or inactive status
	StatusStopped.13.13	Stopped or inactive status

Image	KnownMoniker	Description
	StatusStopped.15.15	Stopped or inactive status
	StatusStopped.18.18	Stopped or inactive status
	StatusStoppedOutline	Stopped or inactive status
	StatusStrip	Status icon representing status strip
	StatusSuppressed	Status icon representing status suppressed
	StatusSuppressedOutline	Status icon representing status suppressed outline
	StatusUpdateAvailable	Status icon representing status update available
	StatusUpdateAvailable.10.10	Status icon representing status update available
	StatusUpdateAvailable.12.12	Status icon representing status update available
	StatusUpdateAvailable.13.13	Status icon representing status update available
	StatusUpdateAvailable.15.15	Status icon representing status update available
	StatusUpdateAvailable.18.18	Status icon representing status update available
	StatusWarning	Warning indicator for status
	StatusWarning.10.10	Status icon representing status warning
	StatusWarning.12.12	Status icon representing status warning
	StatusWarning.13.13	Status icon representing status warning
	StatusWarning.15.15	Status icon representing status warning
	StatusWarning.18.18	Status icon representing status warning
	StatusWarningNoColor	StatusWarning icon in neutral or monochrome style

Image	KnownMoniker	Description
	StatusWarningOutline	Status icon representing status warning outline
	StencilTest	Object icon representing stencil test
	Step	Object icon representing step
	StepBackInto	Diagnostic icon representing step back into
	StepBackOut	Diagnostic icon representing step back out
	StepBackOver	Diagnostic icon representing step back over
	StepBackward	Diagnostic icon representing step backward
	StepForward	Diagnostic icon representing step forward
	StepInto	Diagnostic icon representing step into
	StepLineChart	Data icon representing step line chart
	StepOut	Diagnostic icon representing step out
	StepOver	Diagnostic icon representing step over
	StickToTheThread	Diagnostic icon representing stick to the thread
	StockChart	Data icon representing stock chart
	Stop	Diagnostic icon representing stop
	StopApplyingCodeChanges	Code icon representing stop applying code changes
	StopFilter	Command icon representing stop filter
	StopLogging	Stop logging operations
	StopOutline	Diagnostic icon representing stop outline

Image	KnownMoniker	Description
	StopPhoneLandscape	Phone or mobile device
	StopQuery	Database query or data query
	StopTime	Object icon representing stop time
	StorageContainer	Object icon representing storage container
	StorageContainerGroup	Object icon representing storage container group
	StorageDriver	Device icon representing storage driver
	StorageDriverPackage	Device icon representing storage driver package
	StoreVirtualMachine	Device icon representing store virtual machine
	Stored	Command icon representing stored
	StoredPackage	Device icon representing stored package
	StoredProcedure	Window icon representing stored procedure
	StoredProcedureChecked	Checked stored procedure
	StoredProcedureError	Error indicator for stored procedure
	StoredProcedureScript	Window icon representing stored procedure script
	StoredProcedureWarning	Warning indicator for stored procedure
	StoryboardFile	File or document
	StreamingSyncing	Web icon representing streaming syncing
	StreamingWarning	Warning indicator for streaming
	StrikeThrough	Character icon representing strike through

Image	KnownMoniker	Description
abc	String	Text string
ABC	StringData	String data type
“”	StringQuote	Character icon representing string quote
ab	StringRegistryValue	Character icon representing string registry value
□	Stroke	Design icon representing stroke
▒	StrokeOpacity	Design icon representing stroke opacity
↑	StrongHierarchy	Data icon representing strong hierarchy
🔑	StrongNameKey	Object icon representing strong name key
☐	Structure	Structure type definition
☐	StructureCollection	Structure type definition
☐❤	StructureInternal	Structure type definition
☐🔒	StructurePrivate	Structure type definition
☐★	StructureProtected	Structure type definition
☐	StructurePublic	Structure type definition
☐🚫	StructureSealed	Structure type definition
☐🔗	StructureShortcut	Structure type definition
A	StyleBlock	Style block definition
📄	StyleSheet	Document icon representing style sheet
📄	SubReport	Report document or file

Image	KnownMoniker	Description
	SubReportParamater	Report document or file
	Subscript	Character icon representing subscript
	Substitution	Window icon representing substitution
	SubtractFront	Design icon representing subtract front
	SubtractMember	Object icon representing subtract member
	SubtractMemberFormula	Object icon representing subtract member formula
	SuggestedActionsExpander	UI icon representing suggested actions expander
	SuggestedContacts	Data icon representing suggested contacts
	Summary	UI icon representing summary
	SummaryView	Document icon representing summary view
	Superscript	Character icon representing superscript
	SwitchFolders	Folder or directory
	SwitchSourceOrTarget	Switch between source and target views
	SwitchToDataView	Device icon representing switch to data view
	SwitchToDesignMode	Document icon representing switch to design mode
	SwitchToPreview	Document icon representing switch to preview
	SymlinkFile	File or document
	SymmetricKey	Object icon representing symmetric key
	SymmetricKeyError	Error indicator for symmetric key

Image	KnownMoniker	Description
	SymmetricKeyWarning	Warning indicator for symmetric key
	Sync	Synchronize changes; bidirectional refresh between local and remote
	SyncArrowHorizontal	Horizontal synchronization indicator
	SyncContent	Document icon representing sync content
	SyncDatabase	Device icon representing sync database
	SyncServer	Device icon representing sync server
	SynchronousMessage	Utility icon representing synchronous message
	Synonym	Window icon representing synonym
	SynonymError	Error indicator for synonym
	SynonymWarning	Warning indicator for synonym
	SystemDiagram	Data icon representing system diagram
	SystemInfo	Device icon representing system info
	SystemResources	Device icon representing system resources
	TFSServer	Device icon representing TFS server
	TIFFFile	File or document
	TSApplication	Project icon representing TypeScript application
	TSCordovaMultiDevice	Project icon representing TypeScript Cordova multi device
	TSFileNode	Project icon representing TypeScript file node
	TSProjectNode	TypeScript project file or project type

Image	KnownMoniker	Description
	TSSourceFile	Project icon representing TypeScript source file
	TVMonitorSelected	Computer monitor or display
	TXMergeJoin	Code icon representing TX merge join
	Tab	UI icon representing tab
	Table	Database table or data table
	TableAdapter	Database table or data table
	TableAlignBottom	Database table or data table
	TableAlignMiddle	Database table or data table
	TableAlignTop	Database table or data table
	TableError	Error indicator for table
	TableFillDown	Database table or data table
	TableFillLeft	Database table or data table
	TableFillRight	Database table or data table
	TableFunction	Database table or data table
	TableFunctionError	Error indicator for table function
	TableFunctionWarning	Warning indicator for table function
	TableGroup	Database table or data table
	TableGroupError	Error indicator for table group
	TableHeader	Database table or data table

Image	KnownMoniker	Description
	TableKey	Database table or data table
	TableMissing	Database table or data table
	TableOK	Database table or data table
	TableScript	Database table or data table
	TableViewNameOnly	Database table or data table
	TableWarning	Warning indicator for table
	TableWizard	Database table or data table
	TabletSettings	Tablet device
	TabletWarning	Warning indicator for tablet
	Tag	Object icon representing tag
	TagSnippet	Code snippet template
	TakeSnapshot	Device icon representing take snapshot
	TakeSourceVersion	Document icon representing take source version
	TapeDrive	Memory icon representing tape drive
	TargetFile	File or document
	TargetFileError	Error indicator for target file
	TargetFilePrivate	File or document
	TargetFileWarning	Warning indicator for target file
	Task	Document icon representing task

Image	KnownMoniker	Description
	TaskContentType	Document icon representing task content type
	TaskList	Document icon representing task list
	TaskListId	Document icon representing task list id
	TaskRunner	UI icon representing task runner
	TaskStatusCenterCompleted	Completed status indicator
	TaskStatusCenterError	Error indicator for task status center
	TaskStatusCenterIdle	Status icon representing task status center idle
	TaskStatusCenterRunning	Running or active status
	Taxi	Data icon representing taxi
	Team	Team or group of users
	TeamFoundationServer	Device icon representing team foundation server
	TeamProject	Window icon representing team project
	TeamProjectCollection	Collection of team projects
	TeamProjectCollectionOffline	Team project collection in offline state
	TeamProjectRepositoryFolder	Folder or directory
	TeapotPreview	Design icon representing teapot preview
	Template	Code icon representing template
	TemplateColumn	Database column or data column
	TemplateInternal	Internal template

Image	KnownMoniker	Description
	TemplatePrivate	Private template
	TemplateProtected	Protected template
	TemplatePublic	Public template
	TemplateSealed	Sealed template
	TemplateShortcut	Code icon representing template shortcut
	TermExtraction	Document icon representing term extraction
	TerminalReadOnly	Window icon representing terminal read only
	TerminalReadWrite	Window icon representing terminal read write
	TerminateProcess	Object icon representing terminate process
	Test	Object icon representing test
	TestApplication	Window icon representing test application
	TestController	Object icon representing test controller
	TestCoveredException	Object icon representing test covered exception
	TestCoveredFailing	Object icon representing test covered failing
	TestCoveredFailingException	Object icon representing test covered failing exception
	TestCoveredFailingStale	Object icon representing test covered failing stale
	TestCoveredPassing	Object icon representing test covered passing
	TestCoveredPassingStale	Object icon representing test covered passing stale
	TestGroup	Object icon representing test group

Image	KnownMoniker	Description
	TestList	Document icon representing test list
	TestManager	Object icon representing test manager
	TestMethodExcluded	Object icon representing test method excluded
	TestMethodExcludedStale	Object icon representing test method excluded stale
	TestMethodFailing	Object icon representing test method failing
	TestMethodNotCovered	Object icon representing test method not covered
	TestMethodPassing	Object icon representing test method passing
	TestMethodStale	Object icon representing test method stale
	TestNotCovered	Object icon representing test not covered
	TestNotCoveredStale	Object icon representing test not covered stale
	TestNotInList	Document icon representing test not in list
	TestPass	Object icon representing test pass
	TestPlan	Test plan document
	TestPlanProperty	Object icon representing test plan property
	TestPlans	Document icon representing test plans
	TestProperty	Object icon representing test property
	TestResult	Object icon representing test result
	TestResultDetails	Object icon representing test result details
	TestRun	Object icon representing test run

Image	KnownMoniker	Description
	TestRunProperty	Object icon representing test run property
	TestRunner	Window icon representing test runner
	TestSettings	Object icon representing test settings
	TestSuite	Document icon representing test suite
	TestSuiteRequirement	Document icon representing test suite requirement
	TestVariable	Object icon representing test variable
	TextAndImage	Object icon representing text and image
	TextArea	Multi-line text input area
	TextBlock	Block of text content
	TextBox	Text input box
	TextBulletPosition	List icon representing text bullet position
	TextCenter	List icon representing text center
	TextElement	Text element in UI
	TextFile	File or document
	TextJustify	List icon representing text justify
	TextLeft	List icon representing text left
	TextLineHeight	List icon representing text line height
	TextRight	List icon representing text right
	TextSpaceAfter	List icon representing text space after

Image	KnownMoniker	Description
	TextSpaceBefore	List icon representing text space before
	TexturePicker	Design icon representing texture picker
	ThirdOfFourColumns	Design icon representing third of four columns
	ThirdOfFourRows	Design icon representing third of four rows
	ThirdOfThreeColumns	Design icon representing third of three columns
	ThirdOfThreeRows	Design icon representing third of three rows
	ThisLine	List icon representing this line
	Thread	Diagnostic icon representing thread
	ThreadStopped	Diagnostic icon representing thread stopped
	ThreeColumns	Design icon representing three columns
	ThreeDExtrude	Design icon representing three d extrude
	ThreeDPolygonSubdivision	Design icon representing three d polygon subdivision
	ThreeDScene	Shape icon representing 3D scene
	ThreeLineBreakChart	Data icon representing three line break chart
	ThreeRows	Design icon representing three rows
	ThresholdRule	Threshold-based rule
	Throw	Document icon representing throw
	ThumbnailListView	List icon representing thumbnail list view
	Time	Object icon representing time

Image	KnownMoniker	Description
	TimePicker	Control to select time
	TimePickerList	UI icon representing time picker list
	TimePickerScroller	UI icon representing time picker scroller
	Timeline	UI icon representing timeline
	TimelineMarkBlack	Diagnostic icon representing timeline mark black
	TimelineMarkGray	Diagnostic icon representing timeline mark gray
	TimelineMarkPurple	Diagnostic icon representing timeline mark purple
	TimelineMarkRed	Diagnostic icon representing timeline mark red
	Timeout	Object icon representing timeout
	Timer	Object icon representing timer
	TitleTag	Document icon representing title tag
	ToggleAllBreakpoints	Debugger breakpoint
	ToggleAllBreakpointsRedGroup	Debugger breakpoint
	ToggleButton	Toggle button on or off
	ToggleGuides	Toggle guides on or off
	TogglePivot	Toggle pivot on or off
	TogglePivotFreeForm	Toggle pivot free-form mode
	ToggleStackView	Toggle stack view on or off
	ToggleViewBySchema	Database view or data view

Image	KnownMoniker	Description
	ToggleWireframe	Toggle wireframe on or off
	ToggleWorld	Toggle world on or off
	ToolBar	UI icon representing tool bar
	ToolBarPanel	Toolbar container panel
	ToolBarTray	Container tray for toolbars
	ToolWindow	UI icon representing tool window
	Toolbox	Object icon representing toolbox
	ToolstripAlignment	UI icon representing toolstrip alignment
	ToolstripContainer	UI icon representing toolstrip container
	ToolstripPanelBottom	UI panel or container
	ToolstripPanelLeft	UI panel or container
	ToolstripPanelRight	UI panel or container
	ToolstripPanelTop	UI panel or container
	Tooltip	Tooltip or hover text
	TopBorder	Design icon representing top border
	TopLeftOfTwoColumnsLeftSplit	Design icon representing top left of two columns left split
	TopLeftOfTwoRowsTopSplit	Design icon representing top left of two rows top split
	TopLeftOfTwoRowsTwoColumns	Design icon representing top left of two rows two columns
	TopRightOfTwoRowsTopSplit	Design icon representing top right of two rows top split

Image	KnownMoniker	Description
	TopRightOfTwoRowsTwoColumns	Design icon representing top right of two rows two columns
	TopRightTwoColumnsRightSplit	Design icon representing top right two columns right split
	TopRowOfTwoRowsBottomSplit	Design icon representing top row of two rows bottom split
	TopicDestination	Flow icon representing topic destination
	TopicSource	Flow icon representing topic source
	TouchableDevice	Device icon representing touchable device
	TraceTransferInto	Device icon representing trace transfer into
	TraceTransferOut	Device icon representing trace transfer out
	TracepointAlert	Trace or diagnostic logging
	TracepointDependent	Trace or diagnostic logging
	TracepointDependentDisabled	Trace or diagnostic logging
	TracepointDependentError	Error indicator for tracepoint dependent
	TracepointDependentWarning	Warning indicator for tracepoint dependent
	TracepointDisabled	Trace or diagnostic logging
	TracepointEnabled	Trace or diagnostic logging
	TracepointError	Error indicator for tracepoint
	TracepointWarning	Warning indicator for tracepoint
	TransactedReceiveScope	Flow icon representing transacted receive scope
	TransactionNode	Object icon representing transaction node

Image	KnownMoniker	Description
	TransactionScope	Flow icon representing transaction scope
	TransactionalComponent	Data icon representing transactional component
	TransferDatabaseObject	Device icon representing transfer database object
	TransferErrorMessage	Status icon representing transfer error message
	TransferJob	Window icon representing transfer job
	TransferLogin	Object icon representing transfer login
	TransferStoredProcedure	Window icon representing transfer stored procedure
	Transform	Design icon representing transform
	TransformListItem	List icon representing transform list item
	TransformPositionCursor	Cursor for positioning transforms
	TransformRelative	Design icon representing transform relative
	TransitioningContent	Content in transition state
	Translate	Translation or transform operation
	TranslationView	Shape icon representing translation view
	TransparentBackground	Design icon representing transparent background
	Trash	Command icon representing trash
	TreeList	Object icon representing tree list
	TreeView	List icon representing tree view
	Treemap	UI icon representing treemap

Image	KnownMoniker	Description
	Triangle	Shape icon representing triangle
	Trigger	Window icon representing trigger
	TriggerActionListActive	Active trigger action list
	TriggerActionListInactive	Inactive trigger action list
	TriggerDisabled	Disabled trigger
	TriggerError	Error indicator for trigger
	TriggerScript	Document icon representing trigger script
	TriggerWarning	Warning indicator for trigger
	TriggersActiveWhenOn	Data icon representing triggers active when on
	TryCatch	Flow icon representing try catch
	TscCompletedStatus	Completed status indicator
	TscEmptyStatus	Status icon representing tsc empty status
	TscFaultedStatus	Status icon representing tsc faulted status
	TscInProgressAnimationImage0	Status icon representing tsc in progress animation image0
	TscInProgressAnimationImage1	Status icon representing tsc in progress animation image1
	TscInProgressAnimationImage2	Status icon representing tsc in progress animation image2
	TscInProgressAnimationImage3	Status icon representing tsc in progress animation image3
	TscInProgressAnimationImage4	Status icon representing tsc in progress animation image4
	TscInProgressAnimationImage5	Status icon representing tsc in progress animation image5

Image	KnownMoniker	Description
	TscInProgressAnimationImage6	Status icon representing tsc in progress animation image6
	TscInProgressStatus	Status icon representing tsc in progress status
	TurnOffTableWidth	Database table or data table
	TwoColumns	Design icon representing two columns
	TwoColumnsLeftSplit	Design icon representing two columns left split
	TwoColumnsRightSplit	Design icon representing two columns right split
	TwoRows	Design icon representing two rows
	TwoRowsBottomSplit	Design icon representing two rows bottom split
	TwoRowsTopSplit	Design icon representing two rows top split
	TwoRowsTwoColumns	Design icon representing two rows two columns
	TwoWayDataBinding	Device icon representing two way data binding
	TwoWayEndPoint	Web icon representing two way end point
	TwoWayRelay	Web icon representing two way relay
2x	TwoX	Character icon representing two x
	TxLineage	Flow icon representing tx lineage
	TxPrecentageSampling	Data icon representing tx precentage sampling
	TxRowCount	Database row or data row
	TxRowSampling	Database row or data row
	Tye	Tye microservices development tool

Image	KnownMoniker	Description
	TypeConfigure	Configure Tye settings
	TypePlay	Run or play Tye application
	Type	Type definition or reference
	TypeDefinition	Type definition or reference
	TypeDefinitionInternal	Type definition or reference
	TypeDefinitionPrivate	Type definition or reference
	TypeDefinitionProtected	Type definition or reference
	TypeDefinitionPublic	Type definition or reference
	TypeDefinitionSealed	Type definition or reference
	TypeDefinitionShortcut	Type definition or reference
	TypeInternal	Type definition or reference
	TypePrivate	Type definition or reference
	TypeProtected	Type definition or reference
	TypePublic	Type definition or reference
	TypeSealed	Type definition or reference
	TypeShortcut	Type definition or reference
	UI	Window icon representing u i
	UIEditor	Document icon representing UI editor
	UIExplorer	Window icon representing UI explorer

Image	KnownMoniker	Description
	UMLModel	Data icon representing UML model
	URLInputBox	Web icon representing URL input box
	USB	Device icon representing USB
	UacShield	User Account Control shield
	UnComment	Chat icon representing un comment
	UnblockingStack	UI icon representing unblocking stack
	UncommentCode	List icon representing uncomment code
	Underline	Character icon representing underline
	Undo	Undo last action; step back in history
	UndoCheckboxList	List icon representing undo checkbox list
	UndoCheckedOutItem	Object icon representing undo checked out item
	UndoNoColor	Undo action in neutral/disabled state
	Undock	Design icon representing undock
	UnfreezeColumn	Database column or data column
	Ungroup	Design icon representing ungroup
	UngroupClause	Design icon representing ungroup clause
	Uninstall	Design icon representing uninstall
	Union	Code icon representing union
	UnionInternal	Internal union

Image	KnownMoniker	Description
	UnionPrivate	Private union
	UnionProtected	Protected union
	UnionPublic	Public union
	UnionSealed	Sealed union
	UnionShortcut	Code icon representing union shortcut
	UniqueKey	Object icon representing unique key
	UniqueKeyError	Error indicator for unique key
	UniqueKeyWarning	Warning indicator for unique key
	UnitOfMeasure	Design icon representing unit of measure
	UnitePath	Design icon representing unite path
	UniversalPlatform	Device icon representing universal platform
	UnknownApplication	Window icon representing unknown application
	UnknownMember	Object icon representing unknown member
	Unlink	Command icon representing unlink
	UnlinkVertical	Command icon representing unlink vertical
	UnloadSolution	Window icon representing unload solution
	Unlock	Object icon representing unlock
	UnnestRelatedDocuments	Document file
	UnnestTreeView	Database view or data view

Image	KnownMoniker	Description
	Unpin	Command icon representing unpin
	UnrealEngine	Unreal Engine game development
	UnsavedChangeDot	Status icon representing unsaved change dot
	UnshelvePendingChanges	Code icon representing unshelve pending changes
	Unsubscribe	Unsubscribe from notifications or events
	UnsyncedCommits	Indicates commits not synchronized between local and remote
	UpdateAnimation	Set or update animation
	UpdateDatabase	Set or update database
	UpdateDatabaseError	Error indicator for update database
	UpdateDatabaseOK	Set or update database o k
	UpdateListItem	Set or update list item
	UpdatePanel	UI panel or container
	UpdateScript	Set or update script
	Upload	Upload content to a remote target; send data upward/outbound
	UploadDatabase	Device icon representing upload database
	UploadDocument	Document file
	UploadNoColor	Upload action in neutral/disabled state; minimal accent
	UploadParameter	Character icon representing upload parameter
	UsageBasedOptimization	Device icon representing usage based optimization

Image	KnownMoniker	Description
	UseCase	UI icon representing use case
	UseCaseDiagram	UML use case diagram
	User	User account or person
	UserApplication	Window icon representing user application
	UserBuild	Object icon representing user build
	UserController	User-defined control component
	UserDataTypes	User-defined data type
	UserDefinedDataType	Document icon representing user defined data type
	UserDefinedDataTypeError	Error indicator for user defined data type
	UserDefinedDataTypeWarning	Warning indicator for user defined data type
	UserDefinedTableType	Database table or data table
	UserDefinedTypeError	Error indicator for user defined type
	UserDefinedTypeWarning	Warning indicator for user defined type
	UserError	Error related to user
	UserFeedback	User feedback or input
	UserFunction	User-defined function
	UserGroup	Group of users
	UserItemTemplate	Template for user items
	UserProjectTemplate	Window icon representing user project template

Image	KnownMoniker	Description
	UserTask	Document icon representing user task
	UserWarning	Warning related to user
	UserWizard	Wizard for user-related configuration
	Utility	Object icon representing utility
	VBAApplication	Project icon representing VBA application
	VBApplication	Project icon representing VB application
	VBAssemblyInfoFile	Project icon representing VB assembly info file
	VBBDCModel	Project icon representing VB BDC model
	VBBlankApplication	Project icon representing VB blank application
	VBBlankFile	Project icon representing VB blank file
	VBBlankPhone	Project icon representing VB blank phone
	VBBlankWebSite	Project icon representing VB blank web site
	VBClassCollection	Project icon representing VB class collection
	VBClassFile	Project icon representing VB class file
	VBClassLibrary	Project icon representing VB class library
	VBCloudBusinessApp	Project icon representing VB cloud business app
	VBCodTest	Project icon representing VB cod test
	VBColumn	Project icon representing VB column
	VBConsole	Project icon representing VB console

Image	KnownMoniker	Description
	VBConsoleTest	Project icon representing VB console test
	VBContentType	Project icon representing VB content type
	VBDatabaseLibrary	Project icon representing VB database library
	VBDeploymentModule	Project icon representing VB deployment module
	VBDeviceTest	Project icon representing VB device test
	VBDynamicWebSite	Project icon representing VB dynamic web site
	VBEventReceiver	Project icon representing VB event receiver
	VBExtension	Project icon representing VB extension
	VBFileNode	Project icon representing VB file node
	VBFixedLayoutApplication	Project icon representing VB fixed layout application
	VBGridApplication	Project icon representing VB grid application
	VBHubApplication	Project icon representing VB hub application
	VBInteractiveWindow	Project icon representing VB interactive window
	VBInterfaceCollection	Project icon representing VB interface collection
	VBInterop	Project icon representing VB interop
	VBLibrary	Project icon representing VB library
	VBLightswitch	Project icon representing VB LightSwitch
	VBLightswitchLibrary	Project icon representing VB LightSwitch library
	VBListDefinition	Project icon representing VB list definition

Image	KnownMoniker	Description
	VBMenuItemCustomAction	Project icon representing VB menu item custom action
	VBNavigationApplication	Project icon representing VB navigation application
	VBPackge	Package or deployment unit
	VBPhone	Project icon representing VB phone
	VBPhoneHub	Project icon representing VB phone hub
	VBPhoneLibrary	Project icon representing VB phone library
	VBPhonePivot	Project icon representing VB phone pivot
	VBPhoneTest	Project icon representing VB phone test
	VBPhoneWebSite	Project icon representing VB phone web site
	VBProjectNode	VB project file or project type
	VBRazorFile	Project icon representing VB razor file
	VBReport	Project icon representing VB report
	VBRibbonCustomAction	Project icon representing VB ribbon custom action
	VBSERVICEBUSWORKER	Project icon representing VB service bus worker
	VBSharedProject	VB shared project file or project type
	VBSilverlight	Project icon representing VB SilverLight
	VBSilverlightLibrary	Project icon representing VB SilverLight library
	VBSilverlightPhone	Project icon representing VB SilverLight phone
	VBSilverlightTest	Project icon representing VB SilverLight test

Image	KnownMoniker	Description
	VBSilverlightWebSite	Project icon representing VB SilverLight web site
	VBSiteDefinition	Project icon representing VB site definition
	VBSourceFile	Project icon representing VB source file
	VBSplitApplication	Project icon representing VB split application
	VBTablet	Project icon representing VB tablet
	VBTest	Project icon representing VB test
	VBTestApplication	Project icon representing VB test application
	VBTestLibrary	Project icon representing VB test library
	VBWCF	Project icon representing VB WCF
	VBWF	Project icon representing VB WF
	VBWPFApplication	Project icon representing VB WPF application
	VBWPFLibrary	Project icon representing VB WPF library
	VBWPFUserControl	Project icon representing VB WPF user control
	VBWPFWebSite	Project icon representing VB WPF web site
	VBWebApplication	Project icon representing VB web application
	VBWebLilbrary	Project icon representing VB web library
	VBWebPart	Project icon representing VB web part
	VBWebService	Project icon representing VB web service
	VBWebSiteTemplate	Project icon representing VB web site template

Image	KnownMoniker	Description
	VBWindowsLibrary	Project icon representing VB windows library
	VBWindowsService	Project icon representing VB windows service
	VBWorkerTemplate	Project icon representing VB worker template
	VBWorkflow	Project icon representing VB workflow
	VBWorkflowActivity	Project icon representing VB workflow activity
	VBWorkflowAssociationForm	Project icon representing VB workflow association form
	VBWorkflowDiagram	Project icon representing VB workflow diagram
	VBWorkflowInitiationForm	Project icon representing VB workflow initiation form
	VBWorkflowManagerActivity	Project icon representing VB workflow manager activity
	ValidateAggregation	Code icon representing validate aggregation
	ValidateDocument	Document file
	ValidateModel	Data icon representing validate model
	ValidateShelveset	Code icon representing validate shelveset
	ValidateTestStep	Object icon representing validate test step
	ValidateWarning	Warning indicator for validate
	ValidatedScript	Document icon representing validated script
	ValidatedScriptError	Error indicator for validated script
	ValidatedScriptExcluded	Document icon representing validated script excluded
	ValidatedScriptWarning	Warning indicator for validated script

Image	KnownMoniker	Description
	ValidationRule	Data validation rule
	ValidationSummary	Document icon representing validation summary
	ValueType	Type definition or reference
	ValueTypeInternal	Type definition or reference
	ValueTypePrivate	Type definition or reference
	ValueTypeProtected	Type definition or reference
	ValueTypePublic	Type definition or reference
	ValueTypeSealed	Type definition or reference
	ValueTypeShortcut	Type definition or reference
	VariableProperty	Character icon representing variable property
	VerifiedPublisher	Object icon representing verified publisher
	Version	Window icon representing version
	VersionInformation	Information about version
	VerticalScrollBar	UI icon representing vertical scroll bar
	VerticalSlicers	UI icon representing vertical slicers
	VideoCamera	Device icon representing video camera
	VideoCard	Diagnostic icon representing video card
	VideoRecording	Device icon representing video recording
	View	Object icon representing view

Image	KnownMoniker	Description
	ViewBack	Design icon representing view back
	ViewBottom	Design icon representing view bottom
	ViewBox	Design icon representing view box
	ViewBySchema	Database view or data view
	ViewDefinition	Design icon representing view definition
	ViewDock	Design icon representing view dock
	ViewError	Error indicator for view
	ViewFront	Design icon representing view front
	ViewFull	Design icon representing view full
	ViewInBrowser	Window icon representing view in browser
	ViewLandscape	Design icon representing view landscape
	ViewLeft	Design icon representing view left
	ViewPortrait	Design icon representing view portrait
	ViewRemoteSite	Web icon representing view remote site
	ViewRemove	Object icon representing view remove
	ViewRight	Design icon representing view right
	ViewTop	Design icon representing view top
	ViewWarning	Warning indicator for view
	VirtualMachine	Device icon representing virtual machine

Image	KnownMoniker	Description
	VirtualMachineError	Error indicator for virtual machine
	VirtualMachineGroup	Device icon representing virtual machine group
	VirtualMachineGroupError	Error indicator for virtual machine group
	VirtualMachineLibrary	Device icon representing virtual machine library
	VirtualMachineOK	Device icon representing virtual machine o k
	VirtualMachineRefresh	Device icon representing virtual machine refresh
	VirtualMachineStopped	Device icon representing virtual machine stopped
	Visible	Visibility indicator or eye icon
	VisibleBorders	Design icon representing visible borders
	VisibleFilled	Filled visibility indicator
	VisualAidsDisabled	Disabled visual aids
	VisualStudio	Microsoft Visual Studio IDE
	VisualStudioBlend	Visual Studio Blend design tool
	VisualStudioCode	Visual Studio Code editor
	VisualStudioExpressWeb	Visual Studio Express for Web
	VisualStudioExpressWindows	Visual Studio Express for Windows
	VisualStudioExpressWindows8	Visual Studio Express for Windows 8
	VisualStudioExpressWindowsPhone	Brand icon used for 3rd party product or feature integration inside Visual Studio
	VisualStudioFeedback	Visual Studio feedback tool

Image	KnownMoniker	Description
	VisualStudioOnline	Visual Studio Online services
	VisualStudioSettingsFile	Visual Studio settings configuration file
	VisualStudioShell	Window icon representing visual studio shell
	VisualStudioToolsAboutBox	Window icon representing visual studio tools about box
	VisualStudioWindowsDesktop	Visual Studio for Windows Desktop
	VisualTotals	Data icon representing visual totals
	VocabularyFile	File or document
	Volume	Device icon representing volume
	WCF	Object icon representing WCF
	WCFData	Device icon representing WCF data
	WF	Data icon representing w f
	WFC	Shape icon representing WFC
	WFSservice	Data icon representing WF service
	WMIConnection	Utility icon representing WMI connection
	WPFApplication	Window icon representing WPF application
	WPFCustomControl	Code icon representing WPF custom control
	WPFDesigner	Data icon representing WPF designer
	WPFFile	File or document
	WPFFlowFile	File or document

Image	KnownMoniker	Description
	WPFLibrary	WPF library project
	WPFPageFunction	Page or document page
	WPFResourceDictionary	WPF resource dictionary
	WPFToolBox	Object icon representing WPF tool box
	WPFUserControl	WPF user control component
	WPFWebSite	Web application or service
	WWAProject	Web icon representing WWA project
	WaitForCustomEvent	Event declaration or handler
	WaitForFieldChange	Data icon representing wait for field change
	WaitForItemEvent	Object icon representing wait for item event
	Watch	Diagnostic icon representing watch
	WeakHierarchy	Data icon representing weak hierarchy
	Web	Web application or service
	WebAPI	Web application or service
	WebAdmin	Web application or service
	WebApplication	Window icon representing web application
	WebBrowser	Web application or service
	WebBrowserItem	Web application or service
	WebConfiguration	Web application or service

Image	KnownMoniker	Description
	WebContract	Web application or service
	WebControlLibrary	Web application or service
	WebCustomASCXControl	Web application or service
	WebCustomControl	Web application or service
	WebDestination	Web application or service
	WebFile	File or document
	WebFileError	Error indicator for web file
	WebFolderOpened	Folder or directory
	WebLog	Web application or service
	WebMethodAction	Web application or service
	WebPart	Web application or service
	WebPartManager	Web application or service
	WebPartPageMenu	Web application or service
	WebPartZone	Web application or service
	WebPhone	Web application or service
	WebProperty	Web property
	WebReferenceFolder	Folder or directory
	WebScript	Web application or service
	WebServer	Device icon representing web server

Image	KnownMoniker	Description
	WebService	Web application or service
	WebSetupProject	Web application or service
	WebSubfolder	Document icon representing web subfolder
	WebTest	Web application or service
	WebTestPlugin	Web test plugin
	WebURL	Web URL
	WebUserControl	Web application or service
	WebWarning	Warning indicator for web
	WeightedMember	Object icon representing weighted member
	WeightedMemberFormula	Object icon representing weighted member formula
	WelcomeUserGuide	Welcome guide for users
	WelcomeWebOnline	Web application or service
	WelcomeWebTutorial	Web application or service
	While	While loop control structure
	WholeWord	Character icon representing whole word
	Win32Application	Window icon representing win32 application
	WindowScreenshot	Window or panel in UI
	WindowsApplicationPackagingProject	Windows application packaging project
	WindowsAzure	Windows Azure cloud services

Image	KnownMoniker	Description
	WindowsForm	Window or panel in UI
	WindowsFormLibrary	Windows Forms library project
	WindowsFormToolBox	Object icon representing windows form tool box
	WindowsService	Window or panel in UI
	WindowsServiceStop	Window or panel in UI
	WindowsServiceWarning	Warning indicator for windows service
	WireframeView	Shape icon representing wireframe view
	Wizard	Object icon representing wizard
	Word	Microsoft Word document editor
	WordDiffs	Word-level difference comparison
	WordWrap	Character icon representing word wrap
	WorkAsSomeoneElse	Work under different user context
	WorkItem	Document icon representing work item
	WorkItemGroup	Document icon representing work item group
	WorkItemQuery	Document icon representing work item query
	WorkerServiceFile	File or document
	WorkflowAssociationForm	Document icon representing workflow association form
	WorkflowInitiationForm	Document icon representing workflow initiation form
	WorkflowInterop	Flow icon representing workflow interop

Image	KnownMoniker	Description
	WorkflowStartAssociation	Flow icon representing workflow start association
	WorldLocal	Code icon representing world local
	WrapPanel	Design icon representing wrap panel
	WriteBackPartition	Object icon representing write back partition
	WriteToConsole	Window icon representing write to console
	WriteToDatabase	Device icon representing write to database
	WriteToHistory	Document icon representing write to history
	Writeable	Code icon representing writeable
	XmlAttribute	Character icon representing XML attribute
	XmlAttributeHighConfidence	Character icon representing XML attribute high confidence
	XmlAttributeLowConfidence	Character icon representing XML attribute low confidence
	XMLCDATA tag	Code icon representing XML c data tag
	XMLCommentTag	Code icon representing XML comment tag
	XMLDescendant	Code icon representing XML descendant
	XMLDescendantHighConfidence	Code icon representing XML descendant high confidence
	XMLDescendantLowConfidence	Code icon representing XML descendant low confidence
	XMLDocumentTypeDefinitionFile	File or document
	XMLElement	Code icon representing XML element
	XMLElementHighConfidence	Code icon representing XML element high confidence

Image	KnownMoniker	Description
	XMLElementLowConfidence	Code icon representing XML element low confidence
	XMLNamespace	Namespace or package container
	XMLProcessInstructionTag	UI icon representing XML process instruction tag
	XMLSchema	Database schema definition
	XMLSchemaError	Error indicator for XML schema
	XMLSchemaWarning	Warning indicator for XML schema
	XMLTransformation	Document icon representing XML transformation
	XNA	XNA game development framework
	XPath	Data icon representing x path
	XSLTemplate	Template file or pattern
	XSLTransform	Data icon representing XSL transform
	XamlBindingError	Error indicator for xaml binding
	XamlBindingErrorNoColor	XamlBindingError icon in neutral or monochrome style
	XamlBindingOK	Code icon representing xaml binding o k
	XmlFile	File or document
	XrayView	Design icon representing xray view
	YamlFile	File or document
	Yield	Shape icon representing yield
	Zoom	Command icon representing zoom

Image	KnownMoniker	Description
	ZoomControl	Command icon representing zoom control
	ZoomControlLock	Command icon representing zoom control lock
	ZoomIn	Command icon representing zoom in
	ZoomLock	Command icon representing zoom lock
	ZoomOriginalSize	Command icon representing zoom original size
	ZoomOut	Command icon representing zoom out
	ZoomToFit	Command icon representing zoom to fit
	ZoomToWidth	Command icon representing zoom to width
	ZoomToggle	Command icon representing zoom toggle
	xWorldFile	File or document
